BACKGROUND OF NOOR INTERNATIONAL ACADEMY

Noor International Academy is a Public-School Academy that is authorized by Central Michigan University. Noor International Academy (NIA) operates grades Pre-K -6 at its campus located at 37412 Dequindre Road, Sterling Heights, MI 48310. NIA is a non-profit organization that was founded to serve students from different geographic areas in the State of Michigan.

Noor International Academy is a public, non-discriminatory, independent school, which admits students from diverse cultural and ethnic backgrounds to its college-preparatory program serving families in the Greater Detroit area. It is operated by a staff who is highly qualified, certified and an experienced group of professional men and women who earned their degrees at numerous colleges and universities throughout the United States and internationally.

The Public School Academy aims at providing its students with quality education that focuses on the Michigan core curriculum and international cultures, including the study of a language, culture and history different from one's own. The Academy shall provide an education that will enable the various ethnic traditions, values, and experiences of students to enrich and nurture one another.

Such a foundation is rooted in a strong curriculum including foreign languages, particularly the Arabic language, and an integrated, holistic, and exploratory program in language arts, reading, mathematics, science, social studies, health, art, media, physical education, and standardized tests twice a year. Our outcome expectations in these areas is to provide students with a core of cultural values and academic experiences which will contribute to their mental, social, physical and spiritual growth by emphasizing and encouraging scholarship, civic consciousness, physical development, and the pursuit of integrity and happiness.

The school facility provides a clean and safe place for students and is intended to serve elementary and middle school students grades Pre-K -6.

MICHIGAN STATE BOARD OF EDUCATION VISION AND MISSION

Vision & Mission: Every learner in Michigan's public schools will have an inspiring, engaging, and caring learning environment that fosters creative and critical thinkers who believe in their ability to positively influence Michigan and the world beyond.

For Michigan to be a Top 10 in 10 years with respect to educational performance and outcomes.

- Michigan must develop a coherent and cohesive strategy for the children, and implement that plan with continuity for multiple years. Education reform takes time; we must implement, use evidence and data to correct course, and continue with progress on key goals.
- A "Can-Do Culture" that focuses on student-directed learning and student outcomes and the work on instruction must take priority.
- Data and accountability must be used to help drive resources and focus improvement activities for students and educators. Attention will be on transparency in support of key goals for the entire system to make Michigan a Top 10 state for education.
- Poverty matters, not to be used as an excuse, but as a purpose to design a Michigan system of education that motivates and excites all children about learning, keeps them in school, and provides them with hope and knowledge for a successful future. Michigan must design its supports and systems in a way that recognizes and appropriately addresses the needs of students in poverty.

MISSION OF NOOR INTERNATIONAL ACADEMY

The mission of Noor International Academy is to provide its students with quality education that focuses on the Michigan core curriculum and international cultures, including the study of a language, culture, and history different from one's own. The Academy shall provide an education that will enable the various ethnic traditions, values, and experiences of students to enrich and nurture one another. Moreover, the Academy shall provide an education of the whole child by integrating the different aspects of children's learning and lives to make them more meaningful. The Academy will prepare its students to be independent lifelong learners and productive working members of a global society through acquired diverse knowledge, experiences and skills. The Academy shall provide an environment that encourages students to become upright responsible decision-makers, reflective of equity, respect and understanding, maximizing each individual's intellectual, physical, psychological and moral self by utilizing a unique safe and orderly environment that is conducive to learning to meet the challenges of this ever-changing world.

ACADEMY PHILOSOPHY

The Academy believes that...

- Quality education enhances the student's mental, physical, and emotional abilities and promotes altruistic thinking in this diverse and divided world.
- Quality education integrates teaching the ethnic and cultural traditions and values into the academic program and develops an awareness of their self, identity, and obligations towards self, family, community, society and the world.
- A successful school inspires the joy of learning.
- All students are capable of learning and can reach their potential if given the opportunity.
- Learning is an on-going life-long process.
- Successful learning requires active participation and involvement in the school by parents and the community.
- Effective schools promote teaming, collaboration and shared decision-making among staff, students, and community.

THE FOUR PILLARS OF HES AND THE ACADEMY

Education at Hamadeh Educational Services and its academies is centered around FOUR PILLARS and instilling these values, ideals, and principles in ourselves and in our students. We—all students *and* staff of HES—believe in and strive to embody the following characteristics, habits, traits, and values...

I. Scholarship (based on a commitment to life-long learning)

- ✚ We are educated—familiar and informed regarding well-known concepts and ideas.
- ✚ We are inquisitive—questioning, examining, and exploring what we see/are presented with
- ✚ We are intellectual—able to think things through, reason, and problem-solve.
- ✚ We are reflective—taking stock of how we are progressing academically and making plans for ongoing improvement.

II. Character (based on learning/acquiring habits and traits that will make one successful in all aspects of life, including being a leader/an example for others to follow, instilled with a sense of contribution and fulfillment)

- ✚ We have true grit.
 - We are self-motivated, driven, ambitious, and determined; we possess strong will power.
 - We are self-disciplined/self-controlled.
 - We are optimistic and confident.
 - We are tenacious, resilient, and able to persevere in the face of obstacles.
 - We understand that failure is an important and integral part of the road to success.
 - We possess a strong work ethic.
- ✚ We are honest, trustworthy, and principled.
- ✚ We are fair, moral, and ethical.
- ✚ We are respectful to ourselves, family, and all others

- # We have integrity and the strength/fortitude to stand up for our rights and what we believe in.
- # We are reflective and accountable--able to admit when we are wrong, accept responsibility for our wrongdoings, and willing to learn from our mistakes.
 - o We are forgiving and apologetic whenever necessary.
- # We are appreciative and humble, instilled with a sense of modesty.
- # We are willing, effective, and respectful communicators—even when we disagree with others or have others disagree with us.
- # We are empathetic, caring, kind, understanding, and open-minded.
- # We are balanced and successfully able to “juggle” the different roles of life.
- # We are courageous, brave, and smart risk-takers.
- # We are passionate and enthusiastic with a zest for life.
- # And because we have strong character, we undoubtedly have a strong sense of contribution.
 - o We are actively engaged and have a strong willingness to make a difference in the lives of others.
 - o We desire to help others (based on our own intrinsic motivation to do so and a sense of responsibility to others).
 - o We possess a sense of benevolence.
 - o We have an innate sense of giving and generosity.

III. Culture (based on a sense of respecting, honoring, understanding, and valuing the practices, ideas, and experiences shared by a common group—integral when building community)

- # We realize just how crucial it is to know, understand, and appreciate our own culture.
- # We know how vital culture is to all peoples and that we must seek to understand not only our own culture, but the culture of other peoples as well.
- # We value, respect, and understand how the common experiences of a group/community help shape the way its members understand the world—that culture is a collective, agreed-upon set of familiar values, beliefs, perspectives, practices, products (e.g. books, foods, laws, dress, music, arts and crafts, games, etc.), and ideas that bind a group together in harmony.
- # We appreciate and value how one’s culture influences one’s views, ideas, loyalties, perspectives, fears, hopes, and other characteristics.
- # We understand and empathize with the concept that while all groups/cultures certainly have diverse and distinctive characteristics, all cultures are composed of human beings who ultimately share the same basic needs and want the same things in life: physical needs (food, water, etc.), safety and security, supporting relationships--specially family, a sense of accomplishment and realization of hopes and dreams, etc.
- # We realize that each cultural group has unique strengths and perspectives that the larger community—the world—can benefit from.
- # We are aware that understanding culture and cultural differences will help us all overcome and prevent division and misunderstandings (like racial and ethnic division, gender bias, stereotyping, etc.).
- # We know that understanding and appreciating culture is a vital first step to building community.

IV. Community (based on a sense of belonging and *responsibility* to others/all the diverse groups we are a part of—a sense and understanding that we are all brothers and sisters of the human race)

- # We know—not just recognize—that while we must be aware of and learn from others different from us (capitalizing on the diversity of the world); we are more similar than different and are all brothers and sisters of the human race.
- # We consistently and actively communicate with those around us—those in our various communities.
- # We are responsible for more than just ourselves; we belong to, support, and are responsible/loyal to a great variety of groups/communities including:

- One's family (parents, siblings, immediate and extended family), neighbors, friends, teams, and school
- One's affiliations/organizations/memberships, city/ village/ tribe, state, country, culture, species, environment, and the entire world.

EQUAL OPPORTUNITY/NON-DISCRIMINATION POLICY

This Handbook is presented as a statement of the institutional program and potential offerings. This document is not to be considered as a contract between the Academy and students. The Academy reserves the right to make changes to regulations and offerings as circumstances may require.

Title IX of the Education Amendments of 1972 (Title IX) protects individuals from discrimination based on sex and applies to educational institutions that receive federal funding (including public elementary and secondary (“K-12”) schools and institutions of higher learning).

The Public School Academy, pursuant to the requirements of Title VI and Title VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, the Age Discrimination Act of 1975, the Vietnam Era Veterans Readjustment Assistance Act of 1974, the GINA Act of 2008 the Elliot-Larsen Civil Rights Act, and Executive Order 11246, does not discriminate against applicants, employees or students on the basis of race, religion, color, national origin, ancestry, sex, age, height, weight, marital status, disability, military status genetic information or handicap, nor will sexual harassment be tolerated, in its employment practices and/or educational programs or activities.

On May 6, 2020 the U.S. Department of Education, Office for Civil Rights (“OCR”) released its Final Rule, which amends existing Title IX regulations – the Department’s first action of its kind in decades. The final Rule, which encompasses both the amended regulations and accompanying commentary, exceed 2,000 pages and took effect August 14, 2020. The regulations brought sweeping changes to how educational institutions address, investigate, and adjudicate allegations of sexual harassment occurring within their programs and activities.

The title IX amended policy of May 06, 2020 can be accessed by following the link listed below:

HOMELESS LIAISON & FOSTER CARE

SOCIAL WORK AND COUNSELING SERVICES

The **School Social Worker** is the **Homeless Liaison for the Academy**. Social work and counseling services are available to every student. Each student has a master record file called a CA90. This folder includes information such as

former schools attended, past and present grades, and test results. The counselor will be familiar with the material and a student or the parent may examine the contents of the cumulative guidance folder in the presence of the counselor.

The school provides a guidance and counseling program for its students. The school's counselors are available to those students who require additional assistance.

The guidance program is available to assist students in identifying career options consistent with their abilities, interests, and personal values. Students are encouraged to seek the help of counselors to develop class schedules that meet the student's career objectives.

Special assessments are available to assist the student to better understand aptitudes, interests, strengths, and learning deficits. Included in the counseling offices are resource materials about colleges, vocations, special schools, scholarships, and other areas of interest. The counselor will also help the student to understand the grade point average, rank in class, and other factors that bear on admission to advanced learning opportunities.

The school principal is the **foster care liaison** for the Academy. If, and when, information and/or support is needed, parents/guardians are encouraged to reach out to the Academy principal.

RESPONSIBILITIES AND EXPECTATIONS

SCHOOL RESPONSIBILITIES

We will do all that we can to ensure that students can achieve their highest potential. The Academy will maintain a safe and healthy environment for its students and staff. The Academy will involve parents, businesses and the community at-large in its programs so that our students have the greatest possible resources available to them throughout their entire stay in our program.

STAFF RESPONSIBILITIES

Academy teachers and staff will treat all students, parents, and each other with respect and dignity at all times. Teachers and staff will be prepared to perform their job functions and will deliver the highest level of service to our students and parents. Teachers will ensure that all students are provided with the best opportunities available to succeed in meeting their Grade Level Expectations, High School Grade Level Expectations and Common Core Standards. Teachers and staff will communicate regularly with parents and other stakeholders who are interested in what is going on at our school. Teachers and staff will maintain a safe and healthy environment that is optimal for learning. All staff will contribute to a positive learning environment, will take pride in their profession, and will continue to improve their own skills through active involvement in professional development activities offered by the Academy.

PARENTS EXPECTATIONS

The Michigan Department of Education Revised School Code, Section 380.10, establishes the role of the parent as a partner in their child's education and ensures a positive educational setting. Section 380.10 also states:

It is the natural, fundamental right of parents and legal guardians to determine and direct the care, teaching, and education of their children. The public schools of this state serve the needs of the pupils by cooperating with the pupil's parents and legal guardians to develop the pupil's intellectual capabilities and vocational skills in a safe and positive manner.

The school highly suggests parents/guardians of the students of Noor International Academy spend a minimum of twenty hours per school year in the school as a condition of their child's enrollment and subsequent graduation. A calendar will be provided to parents/guardians stating the available times and dates that one may volunteer. Twenty hours may be completed in several consecutive days or in several short blocks of time. A parent/guardian may chaperone on field trips, supervise during special activities, attend a child's classes or assist teachers with their daily routines, monitor halls and/or lunchtime, pack envelopes for mailing letters, etc. Parent volunteers or chaperones must complete a Volunteer/Chaperone Packet and Screening in the school main office at least 48 hours prior to any volunteer activity.

STUDENTS EXPECTATIONS

Otherwise, disciplinary actions will be taken and enforced.

RELIGIOUS EXPRESSION IN THE SCHOOL

The following guidelines apply to religious practices in the School and are drawn directly from the "Statement of Principles" issued by the U.S. Department of Education.

The Establishment Clause of the First Amendment does not prohibit purely private religious speech by students. Students have the same right to engage in individual or group prayer and religious discussion during the school day as they do to engage in other comparable activity. For example, students may read their Bibles or other scriptures, say grace before meals, and pray before tests to the same extent they may engage in comparable non-disruptive activities. School authorities possess substantial discretion to impose rules of order and other pedagogical restrictions on student activities, but they may not structure or administer such rules to discriminate against religious activity or speech.

Generally, students may pray in a non-disruptive manner when not engaged in school activities or instructions and subject to the rules that normally pertain in the applicable setting. Specifically, students in informal settings, such as cafeterias or hallways, may pray and discuss their religious views with each other, subject to the same rules of order as apply to other student activities and speech. Students may also speak to, and attempt to persuade, their peers about religious topics just as they do with regard to political topics. School officials, however, should intercede to stop student speech that constitutes harassment aimed at a student group or a group of students.

RELEASE TIME FOR RELIGIOUS INSTRUCTION/OBSERVANCE

A student will be released from school, as an excused absence, to observe a religious holiday or for religious instruction. The student's parent/guardian must give written notice to the Building Principal at least 5 calendar days before the student's anticipated absence(s).

Students excused for religious reasons will be given an opportunity to make up any examination, study, or work requirement.

RIGHT TO EDUCATION AND THE RIGHT TO PARTICIPATION

A student is the center of the school and the purpose for which it is operated and maintained. Students have the inherent right to be treated with dignity, equality and respect. A student has the right to a non-disruptive education as provided by law and school Board policies. Correspondingly, the student has a responsibility not to deny the right to an education to any other student.

GRIEVANCE PROCEDURES

A student grievance procedure is provided for due process, prompt, and equitable resolution of complaints. A student or parent with a grievance should first discuss the matter with the teacher. If this does not resolve the issue, the matter should be directed to the Principal. If the grievance is against the Principal, the school Superintendent should be contacted after talking with the Principal. If the issue is not resolved after conferring with the Principal and the Superintendent, the grievant may request to be included on the school Board meeting agenda. Requests should be made in writing and presented to the Superintendent at least one week before the school Board meeting. Parents must model respect for school procedures/guidelines and NOT approach or confront any student about alleged or reported peer conflict. If parent chooses to disregard the administration's request and continues to pose any confrontational and/or intimidating behaviors, he/she will be requested not to be on school grounds or may be reported to local authorities.

STUDENT IDENTIFICATION CARDS

Per the requirements of [MCL 380.1893](#) which will take effect on October 15, 2021, the Academy will comply with for all student ID cards used this school year. **The law requires that districts print the phone number of a suicide prevention hotline on student IDs for grades 6-12.** The hotline will be a local, state, or national suicide prevention hotline telephone number that can be accessed for use 24 hours of each day and 7 days of each week by pupils who attempt to utilize the hotline telephone number. The Academy Superintendent is working with the ID vendor to comply.

The Department of Health and Human Services is required to produce information on suicide prevention that districts are encouraged to display (also in the law). You can visit the [DHHS website](#) for more information on this topic.

ADMISSION POLICY AND PROCEDURES

The Academy will not charge tuition and will not discriminate in its student admissions policy or practices on the basis of intellectual or athletic ability, measures of achievement or aptitude, status as a handicapped person, or any other basis that would be illegal if used by a school district.

Enrollment will be open to all Michigan Residents, within the age range of four (4) to twenty (20) years old per pupil accounting manual requirements for Pre-K to 6th and GSRP requirements for Pre-K students. Many parents who select our school desire a program of instruction for their children based on core academic skill acquisition, exposure to high-tech learning activities and the utilization of structured learning activities, which simulate real-life business environments.

Enrollment priority may be given to a sibling of a student already enrolled in the Academy or a child of a Staff or Board member for grades Kindergarten thru 6. If there are more applicants to enroll in the Academy than there are spaces available, students shall be selected to attend using a random selection process. In addition, the Academy shall allow any student who was enrolled in the immediate preceding school year to enroll in the Academy in the appropriate grade unless the appropriate grade is not being offered at the Academy.

GOOD FAITH POLICY

Acting in good faith, the Academy will accept students from other schools based on information given to us during parent and student interviews with the School's administration. However, if this information turns out to be false or misleading, the child may be subject to dismissal. A student who is found to have committed criminal sexual conduct or arson or to have been in possession of a dangerous weapon in a weapon-free school zone, as those terms are defined in Sections 1311 and 1313 of the School Code of 1976, as amended (MCL 380.1311, 1313; MSA 15.4311, 41313) shall not be admitted to school in the district except in accordance with Section 1311(5) of the School Code of 1976, as amended (MCL 380.1311(5); MSA 15.41311(5)).

APPLICATION & ENROLLMENT REQUIREMENTS

Section 504 of the Revised School Code states that public school academies shall neither charge tuition nor discriminate in pupil admission policies or practices on the basis of intellectual or athletic ability, measures of achievement or aptitude, status as a handicapped person, or any other basis that would be illegal if used by a Michigan public school district.

- Academy enrollment is open to all individuals who reside in Michigan.
- Academy admissions are limited to pupils within a particular age range/grade level (students who qualify for grades Pre-K -6th).
- The Academy Board has established a policy providing enrollment priority to siblings of currently enrolled pupils. The Academy does provide a preference to children of Board members and Academy employees as legally allowed to Grades Kindergarten–6. The GSRP guidelines apply to Pre-K.
- The Academy allows any pupil who was enrolled in the immediately preceding academic year to re-enroll in the appropriate age range/grade level unless that grade is not offered.
- No student may be denied participation in the application process due to lack of student records.
- If the Academy receives more applications for enrollment than there are spaces available, pupils shall be selected for enrollment through a random selection drawing.

APPLICATION PROCESS

The Academy accepts student enrollment applications throughout the school year. Admission of students is contingent upon the availability of an opening at the grade level and program. If you are interested in applying at the Academy, below is an easy step by step process to ensure your application is submitted.

- An enrolled student who does not re-enroll by the specified date can only apply to the Academy during the application period for new students.
- An applicant on the waiting list at the time a new application period begins must reapply as a new student.
- The Academy will collect parent or guardian responses and determine the number of returning students, the number of siblings and the number of spaces if available for each grade in which the enrollment and acceptance process will continue as defined in Board policy.

March Open Enrollment – New Students

- Open enrollment for new students

April Enrollment – Waitlist begins

- Open enrollment of new students whose applications could not be submitted in February or March are placed on a waitlist
- Students names will be drawn on the date and time of the Public lottery and receive a waitlist number for admissions consideration.

May – January

- Student Applications continue to be accepted throughout the school year. However, admission of students is based on space availability for each grade and program and in the order the application is received. Acceptance of application is separate from admission of student and is not a guarantee of admission or enrollment.

Public Lottery – Typically takes place in April or at the beginning of May

A random selection drawing is required if the number of applications exceeds the number of available spaces.

Prior to the application period, the Academy shall:

- Establish written procedures for conducting a random selection drawing.
- Establish the maximum number of spaces available per grade or grouping level.
- Establish the date, time, place and person to conduct the random selection drawing.
- Notify the Charter Schools Office of both the application period and the date of the random selection drawing, if needed. The Charter Schools Office may have a representative on-site to monitor the random selection drawing process.

The Academy shall use a credible, neutral “third party” such as a CPA firm, government official, ISD official or civic leader to conduct the random selection drawing. Further, the Academy shall:

- Conduct the random selection drawing at a public meeting where parents, community members and the public may observe the process.
- Use numbers, letters, or another system that guarantees fairness and does not give an advantage to any applicant.

The Academy shall notify applicants not chosen in the random selection drawing that they were not selected and that their name has been placed on the Academy's official waiting list for openings that may occur during the academic year. Students shall appear on the official waiting list in the order they were selected in the random selection drawing.

- Public Lottery date and time Information/flier is provided to parents of all student applicants and dates are posted publicly on the Academy website and bulletin board for the parents and staff
- Applications submitted during February for siblings, children of Board members and staff, and new students will be entered in a Public Lottery by category.
- Students who apply after the Open enrollment period and thru the date of the Public Lottery will be entered in a public lottery by a waitlist category.
- On the date and time of the public lottery, student applications will be given an admission number in the following order of categories:
 - Board member and staff
 - Siblings
 - New students
 - Waitlist during April
- Students who were enrolled in the previous school year are automatically enrolled in the new school year provided that they have not been dropped from the school year and that the parents submitted a re-enrollment form during the month of February. Failure to submit the re-enrollment form on time may result in dropping the student from the re-enrollment list and may be placed on public lottery list or waitlist depends on when the re-enrollment form is submitted. A new enrollment application may also be necessary if the student had dropped and missed a full school year.
- Children of Board members, staff and siblings have priority for admission at any time an application is received during the school year.
- Admission of students: As the Academy receives notice of drops and/or of space openings, admission of students is chosen from the Lottery list in the number order per the above categories, then the waitlist.
- Admission of students from the waitlist that is received after the month of April will be based on first come, first-served and after all students on the lottery list have been admitted.
- If openings occur during the academic year, students shall be enrolled. If openings do not exist, applications shall be placed on the official waiting list. The waiting list shall cease to exist at the beginning of the next enrollment period in which applicants will need to reapply.
- In the event that there are openings in the class for which students have applied, students shall be admitted according to the official waiting list. The position on the waiting list shall be determined by the random selection drawing. If there is no waiting list, students shall be admitted on a first-come, first-serve basis.

Acceptance

- Once students are accepted an acceptance letter is mailed out to parents with further school information and final requirements for admission.
 - Student information form (signed)
 - Submit Health Appraisal (physical)
 - Any other missing documents
- Students who do not report to the Academy within three business days after he/she has been admitted, may be dropped from the class enrollment list unless excused by the principal.

VISION TESTING FOR KINDERGARTEN ENTRANCE

MCL 380.1177 (2000) requires children enrolling in Kindergarten must provide evidence that their vision has been tested once since the age of 3.

IMMUNIZATIONS & VACCINATION RECORD

MCL 333.92.05 states a parent, guardian, or person in loco parentis of a child shall provide for the child's immunization by an authorized health professional, physician, local health department, clinic, or other agency offering immunizations for diseases and within an age period prescribed by the department. A child is exempt from immunization if a parent, guardian, or person in loco parentis of the child presents a written statement to the administrator of the child's school or operator of the group program to the effect that the requirements of this part cannot be met because of religious convictions or other objection to immunization. Medical exemptions are also allowed.

A nonmedical waiver is a written statement by parents/guardians describing their religious or philosophical (other) objections to specific vaccine/vaccines. An official State of Michigan Nonmedical Waiver Form will be provided by the county health department. More information may be found at the following link:

https://www.michigan.gov/documents/mdch/011315_Waiver_Flyer_for_Parents_FAQ_v2_478967_7.pdf.

In early 2015, Michigan instituted an administrative rule change on nonmedical waivers for childhood immunizations. Parents/guardians seeking to obtain a nonmedical immunization waiver for their child/children who are enrolled in school or licensed childcare programs are required to attend an educational session, where they are provided with information about vaccine-preventable diseases and vaccinations. The new rule allows parents/guardians to have the opportunity to speak with a health educator from their local health department about their concerns and questions regarding immunizations prior to the nonmedical waiver being signed.

Any parent/guardian who wants to claim a nonmedical waiver will need to receive education regarding the benefits of vaccination and the risks of disease from a county health department before obtaining the certified nonmedical waiver form through the Local Health Department. The new rule requires the use of the State of Michigan nonmedical waiver form dated January 1, 2015. **As of Jan. 1, 2019, vaccine education administered and certified (signature on waiver) by local health department is required before the waiver (exemption) will be granted.**

For more information about the new immunization waiver requirements, you may visit the following link: https://www.michigan.gov/mdhhs/0,5885,7-339-73971_4911_4914_68361-344843--,00.html Schools are required to report immunization data two times annually to the Michigan Department of Community Health via the Michigan Care Improvement Registry (MCIR). The MCIR enables private and public providers of immunization services to assess a person's immunization status and administer age-appropriate vaccinations.

THE LAW MANDATES

- **Kindergarteners, 7th graders & new entrants** must have all required immunizations or waivers no later than the first day of school.
- **Kindergarteners, 7th graders & new entrants** who have not met the immunization requirement must not be admitted to school
- **All kindergarten students** must have vision screening marked
- **7th graders and all new entrants, 11-18 years of age** are required to have two doses of varicella, 1 dose of meningococcal (MCV4) and 1 dose of Tdap (there is no minimum interval between the last tetanus/diphtheria containing vaccine - DTaP or Td).
- Only two types of waiver forms can be accepted: **Health Department-issued waivers** (entered as 'other' or 'religious') and **medical waivers**, signed by a physician with justification why vaccine may not be administered (entered as 'medical').

STUDENT RECORDS POLICY

NOTIFICATION OF RIGHTS FOR ELEMENTARY & SECONDARY SCHOOLS

School student records are confidential and information from them will not be released other than as provided by law.

The Family Educational Rights and Privacy Act (FERPA) affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days after the day the Academy receives a request for access.

Parents or eligible students who wish to inspect their child's or their education records should submit to the Academy principal a written request that identifies the records they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

Parents or eligible students who wish to ask the Academy to amend their child's or their education record should write the school, clearly identify the part of the record they want changed, and specify why it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests.

Our FERPA school official and/or contact person in case of requesting information or records, making a complaint, or inquiries may be addressed to the Academy principal via mail, email or fax at:

Noor International Academy

REQUESTS FROM MILITARY OR INSTITUTIONS OF HIGHER LEARNING

Upon request, military recruiters and institutions of higher learning will be given access to students' names, addresses and published telephone numbers. GUARDIANSHIP/CHILD CUSTODY

If legal guardianship should change at any time, it is the parent or legal guardian's responsibility to inform the school of such changes, in writing. The parent/guardian may be asked to produce official documents indicating such a change.

The school campus is a neutral haven for students to focus on academic and social development and thus all parents/guardians are encouraged to cooperatively work together with school personnel to maintain a positive learning environment.

MANDATED REPORTERS

Schoolteachers, counselors, social workers, and administrators, are required by law to immediately report any and all suspected cases of child abuse or neglect to the Michigan Family Independence Agency(MDHHS) per MDE letter of July 11, 2019: https://www.michigan.gov/documents/mde/Mandated_Reporter_660333_7.pdf

SUGGESTIONS AND IDEAS

HES is always interested in constructive ideas and suggestions for improving the organization's and academies operations. Suggestions may be submitted via "My Input Matters (MIM)" link online at any of the Academies websites, then click on Parents/Resources and then MIM. After logging in, click on the link to: <http://www.niapsa.org/mim/> and click on My Input Matters (MIM) enter your suggestion(s). The suggestion(s) will be forwarded to the party that is involved to handle the suggestion without disclosing the sender's identity unless the disclosure is authorized by the MIM sender.

After the HES staff reviews your suggestion. He/she will notify you of further action if contact information is provided.

HES encourages you to bring questions, suggestions, and complaints to the attention of the personnel on site and/or to the principal. If that does not work, you are then directed to bring the issues to our attention. HES will carefully consider each of these in our continuing effort to improve operations.

All requests, concerns and/or suggestions must be first made in writing to the administrator who is on site first and try to resolve locally.

Parents and students' suggestions and comments on any subject are important, and HES encourages you to take every opportunity to discuss them with the parties who are involved first to give them an opportunity to address but also would like to hear from you about the strengths and opportunities.

INFORMAL PROBLEM RESOLUTION

The best way to try to resolve any concerns is to start by discussing the issue with the party that you may have concerns with, be it a teacher, an administrator, or any other staff. If the issue is about another child, parent or operational item, you may address with the main office. If that does not work, you may address with the immediate supervisor so the problem can be settled by examination and discussion of the facts. If after meeting with the immediate supervisor, the parent or student still has questions, concerns, or would like further clarification on the matter, the parent or student should request a meeting with the principal of the Academy. The Principal will review the issues and meet with the parent or student to discuss possible solutions. If the parent/student still believes the problem has not been fairly or fully addressed, request a meeting with the Superintendent.

Finally, if none of the above works, you may then address the issue with the Board of Directors. You may direct your inquiries to the Board of Directors at info@niapsa.org. Someone will get in touch with you to address or to provide you with further directions on the next steps and to possibly address at the next Board meeting. Board meeting schedule and location may be found at: <http://www.niapsa.org/about-us/board/>

ARRIVAL

Parents, please help us by taking your child's temperature daily, and if they display any symptoms of Covid-19, allow them to take advantage of online learning for at least 72 hours post fever without the use of fever-reducing medication. Online learning days will be considered excused days as long as they continue to complete assigned/required work.

It is the parent/guardian's responsibility to make sure that their child(ren) arrive(s) on time for school. Repeated tardiness may result in the student not receiving the minimal number of instructional hours required by the State and may result in loss of funding to the Academy. More importantly, tardiness may affect the student's ability to be promoted to the next grade. The Academy will counsel immediately with any student and their parent/guardian, if it appears that a poor attendance pattern is being formed. Parents are urged to carefully review our tardy procedures in this handbook. Disciplinary actions will be implemented if a student is excessively violating our school attendance policy.

All students are expected to attend school no less than ninety-five (95) percent of the time unless precluded from doing so by an excused absence due to illness or other approved emergency supported by a doctor's note. Students who are absent for one or more days, or who arrive late, must have a written excuse stating the reason for the absence or tardy. Students are not to leave school during the school day for any reason without an OUT PASS from the Attendance Office. An OUT PASS requires a parent/guardian to come in to the main office and sign the student out prior to the student's exit from the building. Students leaving school without prior authorization from the Attendance Office or administration will be recorded as unexcused from classes missed. A parent or legal guardian must provide a valid excuse to the school the next day. Methods for establishing a valid reason for any absence or tardy include:

1. A note or phone call from a parent/guardian
2. A statement from a doctor
3. A copy of documents from court appearances, etc.
4. A pass from a staff member

No student will be released to any government agency without proper warrant or written parental permission except in the event of an emergency as determined by Principal or Education Service Provider.

The following terms identify the nature of absences, requirements and consequences:

Students, whose absences are excused, will be allowed to make up the missing work including homework and tests. ADDITIONAL ATTENDANCE NOTES

1. The maximum number of times a student may miss a class unexcused without losing credit in the class is **15 times** during a single marking period
 - ✓ This applies to individual classes that the individuals are taking. Each individual class attendance will be considered in dealing with this policy.

Sanction: Once a student has missed his/her 11th class period in an individual class, that student cannot receive academic credit for the class. However, the student will be required to continue attendance in that class for the remainder of the semester unless the student has been removed for disciplinary reasons.

2. Day of an activity:

- a. Students are required to be in school the entire academic day of an activity if they expect to represent the Academy in an activity that day or night.

- b. Provisions of this policy will not be waived unless the school knows of the absence prior to the beginning of the school day the activity is scheduled.

3. **Day after an activity:**

- a. Students are expected to be in school the entire academic day after an activity. The idea that a student might be too tired after representing the Academy is not acceptable. If a student misses school the day after an activity, they will not be allowed to represent the Academy in the next activity in any season they may be participating in. A student has one such absence before they cannot compete or perform.
- b. The only exception is that if the school knows that the student will be absent prior to the beginning of school on the day after the activity, the student is excused from this provision.
- c. For purposes of this provision: parent verified illness does not count as a reason to miss the day after an activity. A doctor note will be required to excuse the absence.

Upon missing their tenth (10th) day of school in a marking period, the student and parents will be called into a conference with the school Principal and or the Dean of Student Affairs ("DSA"). At this meeting, the policy will again be explained for the benefit of the student and the parents.

Parents will be notified by phone and mail after a student misses their 10th day of school. This notification will be a formal notification that one more absence will result in loss of credit.

NOTE: Unexcused absence: any absence not verified by a parent to the school the day of the absence or when a parent is unaware of where their student is when contacted by the school.

PARENT REQUEST FOR EXTENDED STUDENT ABSENCES AND/OR EARLY RELEASE OF STUDENT

As noted in the Attendance policy above, student attendance is extremely important throughout the school year. Parents who request for their children, and/or students who are in the Pre-K -6 grades who request to be released from school prior to the last day of the school year, will not be approved for any reason. All students must be in attendance throughout the last day of school. Parents, who choose for their children or students themselves, who choose to end the school year early for travel purposes, or other reasons, may be dropped from enrollment as of the last day of attendance, the student will be reenrolled if space permits; and all missing work will be considered as incomplete and will receive zero credit for all missed assignments, tests, exams, etc. until all missed class work and assessments are completed/submitted at an agreed upon time prior to the beginning of the next school year. Any exams missed must be made up after the student returns.

NOTE TO PARENTS: Repeated absences and tardiness are considered serious violations of the rules and regulations of conduct and may result in immediate suspension from school, a referral to a civil authority, attendance in a program of rehabilitation/education, or expulsion from the school.

WITHDRAWAL FROM SCHOOL

Parents who intend to withdraw their student during the school year are kindly asked to provide the Main Office in writing with the date of withdrawal and reason, in order to facilitate the transfer process and proper reporting. Furthermore, Students and parents are responsible for returning all school belongings (books, supplies, etc.) that were provided upon enrollment. A method of payment is required if school belongings are not returned. Also, all financial obligations must be met before the process can be completed.

When a student transfers to another school, a record of the date of transfer will be entered on the permanent record card as well as on the pupil's attendance record. If parents would like the child to return to our school, the parents must fill out a new enrollment application. You are not guaranteed a spot and the applicant will be placed on the waiting list.

CHILDREN OF MILITARY FAMILIES

In Lansing, the State Superintendent of Public Instruction has asked every local school district in Michigan to voluntarily help assist in a national and state initiative to provide support to school-aged children of military families. "The least we all can do is recognize the sacrifices our military families make for this state and this nation," Flanagan said. "The impact on children cannot be underestimated, and we all should work together to provide them with tangible support."

Flanagan is asking local districts and charter schools to support these efforts by identifying military-connected children

of Michigan with parents or guardians currently serving the Army, Navy, Air Force, Marines, and/or Coast Guard. This will include all children of parents currently serving in the Michigan National Guard, in Reserve United States Forces, or on Active Duty.

Once school-aged children of military families are identified, support can be provided. In states like Michigan that do not have large active duty posts or bases, its military children are spread throughout the state and therefore do not always have access to networks of support. Also, under the President's initiative, the U. S. Department of Education is proposing, as part of No Child Left Behind reauthorization, to give priority to federal grant applications that help address the needs of military-connected students.

In order for **Noor International Academy** to assist in these efforts we will need to rely on parents or guardians to communicate to us this information so that we may identify students that may qualify for additional support services as they may become available. We kindly request that you report this information to the **School Social Worker** who will create a log entry in PowerSchool (student data management system) that will be kept confidential and used only in decision-making for providing students/families with support services and future federal grant applications (typically only student counts are used and not student-level information unless specifically requested by the Federal government as part of the application process).

Long dangling earrings and other types of similar earrings are considered distracting/possibly dangerous and are prohibited. No visible body piercing is permitted. Piercing and/or jewelry that are deemed inappropriate, a safety concern, or a distraction to the learning environment will need to be removed by the student.

HEELY’S POLICY

All students are encouraged to exhibit good personal safety practices. We are aware of the popularity of Heely’s (shoes that roll) and based on important warnings from the manufacturer, Heely’s will not be permitted to be worn on school property or to school-related functions including but not limited to field trips and athletic events. “We always recommend that anyone who attempts to use HEELYS in any capacity should ALWAYS wear full protective gear, including: helmets, wrist, elbow, and knee pads, NEVER use HEELYS in an unsafe manner, and NEVER WITHOUT full protective gear. “

Any students who wear Heely’s to school and have not had the wheels removed will receive a phone call to the parent(s) in which parents will need to bring an alternate pair of shoes to school for their child. Repeated incidents may be subject to further disciplinary actions.

PENALTY FOR VIOLATION

Parents of students out of dress code will be contacted by the teacher on the first and second offense; on the third offense, the student will be referred to the administration for disciplinary action. When other students see a student walking around in violation of the dress code, it gives the impression that the infraction is acceptable, or that the administration is not doing anything about it. If the student is clothed inappropriately, the parent will be contacted and asked to check the student out of school and take him/her home to change clothing or bring the appropriate clothing to the school. Students referred to the administration for uniform violations will not be readmitted to class without the DSA/Principal's approval.

Students who are out of class, because of an infraction of the dress code, are responsible for all missed schoolwork. Students are expected to be respectful and to carefully maintain their uniforms in good condition.

INVITATIONS AND GIFTS

Party invitations or gifts for classmates may not be brought to school to be distributed.

ANIMALS ON SCHOOL PROPERTY

In order to assure student health and safety, animals are not allowed on school property, except in the case of a service animal accompanying a student or other individual with a disability. This rule prohibiting animals on school property may be temporarily waived by the building Principal in the case of a unique educational opportunity for students, provided that: (a) the animal is appropriately housed, humanely cared for, and properly handled, and (b) students will not be exposed to a dangerous animal or an unhealthy environment.

EMERGENCY INFORMATION AND PROCEDURES

The student's parent/guardian should complete the School District's emergency medical treatment authorization form to indicate their preference of hospital, doctor, and dentist for emergency treatment.

Of course, in an emergency situation the child should be transported to the nearest medical facility able to render appropriate care, regardless of parental preference. Typically, this decision is made by an EMT (emergency medical technician) or other first responder.

A student profile is sent each school year to parents so that information may be updated bi-annually. The main office should be notified immediately when and if the above information changes. Students are expected to know and follow all emergency procedures as directed.

SCHOOL CLOSING

In case of emergencies, parents will be contacted as soon as possible, by phone or by the contact source provided on the admissions form that each parent/guardian be required to provide. If an emergency exists where there is a need for School Closing or Early Dismissal, parents will be informed, as soon as possible, either by phone, or through various media outlets such as the school web site, school's social media network, WWJ News Radio 950 AM, TV Channel 2 WJBK (Fox) News, TV Channel 4 WDIV News, TV Channel 7 and Detroit Free Press Website at: www.freep.com/closings. If we dismiss early for an emergency, all after-school functions are automatically cancelled. If the athletic events continue to be planned, they will be announced.

ACCIDENTS

If a serious injury occurs on school grounds or on the bus, the parents/guardians will be notified and asked to pick up the child for their own observation or examination by their family physician. Parents/guardians will be promptly notified of all injuries not considered minor. In the event that the parents/guardians cannot be reached, the student will be discharged to the person named on the students Admissions Card under Emergency Contact. If your child is hurt or feeling extremely ill, the school will contact Emergency Medical Services.

OFF CAMPUS EMERGENCIES

On field trips, teachers must be ready for any emergency. In the event of an off-campus emergency, both teachers and bus drivers have step-by-step instructions to follow.

- Depending on the type of crisis, 911 is called and first responders will oversee all medical and safety needs if necessary.
- Phone calls are then made to the school Principal and/or the Dean of Student Affairs ("DSA")
- Contacts to families will follow. Student safety is always a top priority even when off campus.

SCHOOL SAFETY DRILLS

The Academy will have regular Fire, Tornado and Lockdown drills throughout the school year. Please reinforce with your child the importance of following staff direction during such drills. This is required for your children's safety and the safety of others. At least 1 of the following drills is required to be conducted during a lunch or recess period, or at another time when a significant number of students are gathered, but not in the classroom. The governing body of the school shall ensure that documentation of a completed school safety drill is posted on its website within 30 school days after the drill is completed and is maintained on the website for at least 3 years.

FIRE DRILLS

A minimum of five (5) fire drills shall be conducted each school year. Three of the drills will be held by December 1st of the school and two (2) shall be held during the remaining part of the year.

- Students must leave the building silently and in a single-file line according to the floor plan posted in each classroom.
- Once outside, students must wait quietly in the parking lot of the Academy building complex.
- Once the students are in the designated safety zone, they must wait quietly for the all clear signal.
- Students failing to follow such expectations will be issued a disciplinary referral and consequences.

TORNADO DRILLS

A minimum of two (2) tornado safety drills is required for each school year at the Academy. These drills shall be conducted for the purpose of preventing fires and related hazards and injuries caused by severe weather. At least one (1) of the tornado safety drills shall be conducted during the month of March of the Academic school year. Students will travel silently in a single file line to the designated area for the particular classroom they are in. Designated areas are posted in each classroom. Students and staff must get down on their knees, place their hands over their head, and bend forward toward their knees. They will remain in that position until an all clear is given. Students not complying appropriately as instructed will be issued a disciplinary referral.

LOCKDOWN

A minimum of three (3) drills in which the occupants are restricted to the interior of the building and the building secured is required for each school year. At least one (1) drill must be conducted by December 1st of the academic school year, and at least one (1) drill shall be conducted after January 1st of the academic school year, with reasonable spacing interval between each drill. In the event that a safe environment is not feasible (i.e. campus intruder or other potential threat), the Superintendent, Principal and the Dean of Student Affairs ("DSA") will make a decision to go to "lock down". This announcement over the intercom alerts all faculty and staff to take action. The following guidelines are in place to prepare for lockdown.

- Teachers have been asked to keep their classroom door locks in the "locked position." In the event of a lock down, this eliminates searching for keys.
- After the lock down announcement, every student, faculty/staff member and campus visitor finds a secure place behind locked doors. They remain there until the "all clear" announcement is given.
- Depending on the emergency, faculty and staff members may contact the office if they have vital information about campus safety or the health of a student.
- School administration will call 911 if campus safety reaches a level where students, staff and visitors are in direct danger.
- Campus visitor, faculty and staff members are not to use cell phones or other communication devices to contact the outside during a lock down. School emergency information must come from designated school officials.

- Students failing to follow such expectations will be issued a disciplinary referral and consequences.

BOMB THREATS

- It is a Felony to make school threats or hoaxes involving the school, classmates or teachers.
- Leaving a note threatening classmates could result in suspension from school for an entire year and or expulsion and may result in the loss of driving privileges.
- Parents may be required to pay the cost of searching the school and letting school out early. Costs could reach thousands of dollars.
- In the event a bomb threat is made, the school will trace the call to identify the perpetrator. The school will prosecute any such identified individual(s) and will seek the fullest penalty of the law.
- If you have information about threats to schools or your classmates, please contact local police or sheriff's departments or the State Bureau of Investigation's Operations Center at 313-277-6770 OR 911 for Emergency.
- **Bomb threats are considered very serious; and any individual making such treats may face serious legal and disciplinary consequences.**

- Crime no. 3: Encouraging or aiding a minor to bring onto school property any true explosive device is a **Class G felony** crime.

Penalties: In addition to legal consequences that accompany any of the above felonies, the following penalties also apply to these crimes:

- Conviction of any of the three crimes results in the loss of he/she's driver's license or permit.
- There is an automatic 365-day suspension from school for committing either of the first two crimes.
- Possible restitution and financial liability for the costs or damage experienced by the school or school system in having to deal with the threat. Parents who are found to be negligent with regard to their children who commit of the above crimes may be required to pay up to \$25,000 in costs associated with either a false bomb threat or hoax, and \$50,000 in costs associated with actual damages resulting from a discharged explosive device.

MEDICATIONS & ILLNESSES

MEDICATIONS IN SCHOOLS

Under the direction of a school administrator, a school employee may administer medication to a student as long as there is written permission of the parent/guardian and the medication is given in compliance with the instructions of a physician. The parent/guardian must sign an "Emergency Health Plan and Medicine/Contact Information" form, which will be kept in the student's file in the office.

Except in an emergency, the medication must be given in the presence of another adult. The school employee is held harmless from liability in the case of gross negligence or misconduct.

POLICIES & GUIDELINES FOR ADMINISTERING MEDICATIONS

The Academy has aligned their policies with the state model policy for administering medications and provides appropriate training to individuals who administer medications to pupils at school. The school Board adopted policy is available online and has been publicly reviewed.

The following definition of "medication" is adopted for use in this district/school: medication, includes prescription, non-prescription and herbal medications, and includes those taken by mouth, by inhaler, those that are injectable, and those applied as drops to eyes, nose, or medications applied to the skin.

- The pupil’s parent/guardian will give the school written permission and request to administer medication(s) to their pupil.
- Written instructions from a physician, which include the name of the pupil, name of the medication, dosage of the medication, route of administration, and time the medication is to be administered to the pupil, shall accompany the request and be kept on record by the school.
- Parental or guardian request/permission and a physician’s instructions for administration shall be renewed every school year.
- The building administrator will designate an individual(s) responsible for administering medications to pupils at the school.
- Medications must be administered by one adult in the presence of a second adult, except where the individual administering the medication is a licensed registered professional nurse (as described in the Michigan Revised School Code, Section 380.1178), or when an emergency threatens the life or health of the pupil.
- Each building has a plan for handling medical emergencies available for all students including students with disabilities who have an Individualized Educational Program (IEP) or Section 504 Plan.
- Each building will have at least two (2) epinephrine auto-injectors (Epi-Pens) as well as designated, trained and authorized employees to administer an Epi-Pen injection in case 1) any student who has a prescription on file with the Academy, in accordance with the directives in such prescription 2) if an individual on school grounds is believed to be having an anaphylactic reaction.

The following definition of “self-administration/self-possession” is adopted for use in this district/school: Self-administration means that the pupil is able to consume or apply prescription and non-prescription medication in the manner directed by the physician without additional assistance or direction. Self-possession means that the pupil may carry medication on his/her person to allow for immediate and self-determined administration.

- A pupil whose parent/guardian and physician provide written permission will be able to self-administer and self-possess his/her own medications.
- A medication that a pupil possesses must be labeled and prepared by a pharmacy or pharmaceutical company and include the dosage and frequency of administration.
- A pupil’s use cannot be denied if the conditions of written permission and physician direction are met. A building administrator may discontinue a pupil’s right to self-administer and self-possession if there is misuse by the pupil. The denial shall follow a consultation with the parent/guardian.

PROCEDURES FOR STORAGE & ACCESS TO MEDICATIONS IN SCHOOL

- It is recommended that medications be brought to the school by the pupil’s parent or guardian.
- No changes to medication dosage or time of administration will be made except by instruction from a physician.
- Parental or guardian request/permission and a physician’s instructions for administration of medications shall be renewed every school year.
- Expiration dates on prescription medications, EpiPens, and inhalers shall be checked at least twice each school year.
- Any unused medication unclaimed by the parent will be destroyed by administrative personnel when a prescription is no longer to be administered or at the end of a school year. Notation of the method of disposal and the date shall be entered on the Medication Log. This procedure shall be witnessed and initialed by a second adult.

SPECIAL NOTIFICATION RELATED TO COMMUNICABLE DISEASES (COVID-19)

The information in this Parent-Student Handbook is written in the consideration of “normal operations.” However, addressing COVID-19 concerns requires additional considerations, expectations, and restrictions. Noor International Academy District, therefore, reserves the right to amend this handbook to coincide with the most current Michigan Department of Health and Human Services (MDHHS) and the Michigan Department of Education (MDE) guidance. The school district will attempt to make prior notifications of any changes whenever it is able to do so.

Thus, this section of the Parent / Student Handbook outlines the procedures and expectations related to addressing COVID-19 concerns. The MDHHS and MDE have worked together to develop classifications and guidelines for addressing COVID-19. The [Michigan Safe School for K-12 Roadmap](#) “is built upon the guidance and recommendations of health officials; it is strongly aligned to the reopening guidelines that have been provided by our state and federal leaders; and it’s designed to help districts prioritize the health and safety of students and teachers as they open school buildings and deliver instruction for the school year”

(https://www.michigan.gov/documents/whitmer/MI_Safe_Schools_Roadmap_FINAL_695392_7.pdf).

Noor International Academy District will employ the following practices to support the health and safety of both students and staff. Parents, please help us by taking your child’s temperature daily, and if they display any symptoms of Covid-19, allow them to take advantage of online learning for at least 72 hours post fever without the use of fever-reducing medication. Online learning days will be considered excused days as long as they continue to complete assigned/required work.

GUIDING PRINCIPLES FOR REOPENING

Noor International Academy District recognizes five overarching principles that are vital to ensure “Success for ALL” during the school year.

- 1. Ensure safe learning and working environments for both students and staff.**
- 2. Leverage opportunities to meet the diverse needs of families.**
- 3. Ensure that instruction is based on state standards.**
- 4. Provide training, support, and flexibility for staff.**
- 5. Provide clear and consistent communication with all stakeholders.**

INSTRUCTIONAL OPPORTUNITIES

Noor International Academy District will offer both a traditional face-to-face and an online learning option for instruction. Teachers will utilize the Schoology platform for content delivery to maintain a consistent and equitable learning environment for both options.

During the COVID 19 pandemic, parents will be asked to take the Return to school Options Parent Survey every semester period to choose a plan for their child/ren. To access the most up to date survey, follow us on our social media as it may change.

TEACHING AND LEARNING

- All teachers will utilize Google Classroom/Schoology for instructional purposes (for both face-to-face and online learning options).
- Establish clear instructional expectations and practices for assignment delivery and collection.
- Limit physical partner/group activities and leverage technology for student collaboration.
- Space desks apart as much as possible within the classroom space (this will be very limited).
- Establish distance between the teacher’s desk and students’ desks.
- Teachers will maintain a seating chart with assigned student seating
- Employ at-home online learning when needed for continuous instruction.
- Sick students will be allowed to work from home and coded as online learning for attendance purposes as long as work is continuously submitted. However, students failing to submit assigned work will receive unexcused absences for those days away from school.
- Utilize video conferencing whenever possible for parent meetings.

ONLINE LEARNING

The expectations for online learning will be very similar to the traditional school setting, and students are expected to take ownership of their learning.

During online learning, students are expected to:

- Check Google Classroom/Schoology daily within the school day hours.
- Check school email daily.
- Attend class remotely as required and scheduled by teachers (for lecture and class meetings).
- Complete and submit assignments by the due date as assigned by teachers.
- Understand that teachers may not be immediately available outside of school hours, but will respond to requests for assistance in a timely manner.

With the implementation of Google classroom/Schoology as platforms for remote learning the following will be taking place:

- Teachers will be posting threaded discussions for students every day to think and respond to. Assignment will also be given to students on a weekly basis that are in direct alignment to grade level state standards.
- Live' sessions will be held on a weekly basis with students and the teacher. Times and dates to the live sessions will be shared with the classroom teacher
- Students will also be receiving learning links to help support the lesson. These links include: Khan Academy (<https://www.khanacademy.org/>), IXL (<https://www.ixl.com/>), Reading A-Z (<https://www.readinga-z.com/>), Mystery Science (<https://mysteryscience.com/>), Math XI (<https://www.mathxl.com/>), and many others will be uploading pre-recorded videos of direct instruction.
- Parents are highly encouraged to sit through a live session and or engage with their children on threaded discussions and or assignments given by classroom teachers.
- New learning will focus on those concepts most important for the content area or course for the remainder of the year.
- Teachers will be available for students and families when needed. We highly encourage email notifications so the classroom teacher can provide a date and time to meet virtually to answer questions and or provide additional support.
- Technology support is available throughout the school day and beyond. When students are struggling with the Chromebook or have questions in relations to Google classroom, questions are submitted to the technology department (via by the teacher on behalf of the student/parent).

ELL & SPECIAL EDUCATION SERVICES

All students, including the specials population are provided with Chromebooks and equal opportunities to have equal access as per their individualized plans and applicable laws and regulations.

Kindly note that social workers are available to communicate with families and students either/or by phone, ClassDojo messages, email, and through Google Classroom to support them with any resources or social-emotional supports they may need during this time. Social workers are using Google Classroom/Schoology as an online platform, uploading lessons and activities, videos and links for students to work on and meeting through Google Meet to review the lessons posted. Students with transition services are provided with the services through Google Hangout sessions. Parents are informed about the hangouts. The priority is providing students and families with support. Making phone calls to student families and connecting families with resources to make sure their basic needs are being met. Parent consent must be retrieved via phone to speak with the student via phone or Google hangout to do a check in or provide social-emotional support and build on their social skills during these strenuous times.

- Check your Gmail, Class DOJO, Remind, and Google Classroom messages every day
- Complete the work outlined by your teachers and seek clarification for any assignments
- Pay attention to due dates and submit your work in a timely manner
- Establish a way to monitor assignments (to-do lists, planner, etc.)
- Read directions multiple times to avoid missing important details
- Attend every live meeting you have scheduled and be on time
- Actively participate in live meetings
- If your internet is spotty, consider joining video conferences by phone (audio only)
- Schedule breaks and time for exercise or other off-screen activities
- Keep track of your usernames and passwords for every account

NETIQUETTE FOR DISTANCE LEARNING

In the online classroom certain behaviors are expected as you communicate with both your peers and your instructors. These guidelines for online behavior and interaction are known as “netiquette”. The purpose of the following information is to help you be a more effective and successful student when communicating via video conferencing, email, chat rooms, or on discussion boards as a part of your online learning activities.

VIDEO CONFERENCING

- You should dress the same as you would for attending classes while participating in video conferences.
 - “If you would not wear it to school you should not wear it online!”
- It is highly recommended that your video camera should be turned on during a video conference so you can interact with your teacher and classmates in a more engaging way.
- Your microphone should be muted during a video conference unless you have been recognized to speak.
- When speaking, and using the chat feature during a video conference, you should adhere to the same courtesies that you would use when interacting in the classroom.
- Physically raise your hand when you want to speak during the conference and wait to be acknowledged before speaking.

Email, Remind, Class DOJO, or other direct messages to your teacher

- Make sure identification is clear in all communications. Begin with a salutation (“Hi Mr. Bazzi!”) and end with your signature (John Smith).
- Review what you wrote and try to interpret it objectively. When we speak face to face and are misunderstood, we have an on-the-spot opportunity to rephrase our words. In writing, we must strive twice as hard to be understood, as we do not have the benefit of modifying or elaborating in real time.
- All caps (“I’M SHOUTING”) and exclamation points (“Give me a break!!!”) can be misinterpreted as intense anger or humor without the appropriate context.

ACADEMIC INTEGRITY

- Whether in the physical classroom or online, our Honor Code still applies.
- Our expectation is that you will not plagiarize any of your work, including the use of online translators, dictionaries, or other reference materials.
- Students will not submit work completed by or copied (in full or in part) from another person. This includes classmates, friends, parents/guardians, siblings, etc.
- Students will not submit work copied (in full or in part) and pasted from the Internet. This includes exact sentences, paragraphs, videos, logos, images, templates, etc.
- Students will not resubmit work (in whole or part) they have previously submitted (without appropriate citation).
- Students will not submit work that reflects the ideas of another person, regardless of whether or not students use the other person’s exact words.
- Students will work independently on all assignments unless they receive permission from their teacher to work with another student.
- Students will not allow others to copy their work.
- Students will not misuse content from the Internet.
- Students will not use translators to complete assignments in world language classes.
- Students will not use any external materials or testing aids on final exams, unless otherwise noted on the front page of the exam.
- Students will properly punctuate and cite all ideas from others they wish to use to support their own ideas.
- Students will contact their instructors for help in avoiding plagiarism.

ASSESSMENT INTEGRITY AND SECURITY

One essential part of educating students successfully is assessing their progress in learning to high standards. Done well and thoughtfully, assessments are tools for learning and promoting equity. They provide necessary information for educators, families, the public, and students themselves to measure progress and improve outcomes for all learners. The purpose of **assessment** is to gather relevant information about student performance or progress, or to determine student interests to make judgments about their learning process. Today's standards challenge students to:

- Understand subject matter more deeply
- Learn how to think critically
- Apply what they learn to the real world
- Make learning more relevant in their lives

State Assessments Provide

- An important snapshot of student achievement at a state, district and building level
- Valuable information to parents and teachers on their student's academic achievement
- Important data for schools and districts to evaluate curriculum and programming effectiveness

All of Michigan's state assessments measure student progress with Michigan's content standards or other career- or college-readiness goals.

For all the above mentioned reasons, it is very important to take all assessment tests seriously whether administered in person or virtual. Students are responsible for reading, understanding and abiding by the student Code of Conduct. Claiming ignorance of expectations included in the Code of Conduct will not be considered a legitimate excuse when a violation of the academy policy has occurred. Refer to Table of Content for Code of Conduct and Academic Integrity.

- Whether in the physical classroom or online, our Honor Code still applies.
- Our expectation is that you will not plagiarize any of your work, including the use of online translators, dictionaries, or other reference materials.
- The academy will adhere to all assessment security requirements defined by the district
- The academy will have all assessment tests in live sessions, recorded and/or proctored to provide our students with the most accurate assessment results possible.
- Assessment tests with established apps must be taken through the testing app
- If students do use the NWEA secure browser, an alternate communication process, such as a phone conference line will be established.
- The Academy has an establish a support system to address technical issues with caregivers
- Students will be provided with all the accommodation needed (whether virtual or in person, as indicated by the IEP)

NOTE, PARENTS MUST SIGN AND RETURN THE VIRTUAL/ONLINE LEARNING PARENT PERMISSION BEFORE STARTING VIRTUAL LEARNING. THIS FORM CAN BE ACCESSED AT THE FOLLOWING LINK.

ELECTRONIC DEVICES POLICY RELATED TO STATEWIDE TESTING - STUDENTS

One essential part of educating students successfully is assessing their progress in learning to high standards. Done well and thoughtfully, assessments are tools for learning and promoting equity. They provide necessary information for educators, families, the public, and students themselves to measure progress and improve outcomes for all learners.

For the above-mentioned reasons, **students are not permitted to use, wear, or access any personal, non-testing electronic devices during testing or while on a break when in an active testing session.** These electronic devices include but are not limited to smartphones, cell phones, smartwatches, and Bluetooth headphones, headphones that

allow access to voice assistant technology, and computers and/or tablets not being actively used for testing purposes. Administration staff are to practice due diligence in actively monitoring students in the testing room and on breaks to ensure that electronic devices are not accessed. If a student brings an additional electronic device into the testing room, the test administrator must follow the district/building level electronic device policy in ensuring the electronic device is stored appropriately and is not accessible to the student during testing.

The testing environment is not to be disturbed by any electronic devices not used for testing or test administration. If an additional electronic device is medically necessary for a testing student, the device must be left with the test administrator, or the test must be administered to the student in a one-test administrator-to-one student setting, and the student must be actively monitored at all times while testing.

ADDITIONALLY:

- Students are not allowed to access the device used for testing for any other purpose than to complete the test during the test session.
- A student may not access any additional websites or applications during testing, or for any other purpose after testing, while in the testing room.
- Staff is to ensure that all testing devices are configured properly and that all background applications are disabled before testing begins.
- No pictures or videos may be taken during testing.

COMMUNICATION PLAN FOR SHARING ELECTRONIC DEVICE POLICY

- Students/parents/staff will be informed of this policy in a variety of methods such as daily announcements prior to testing, posters throughout the building, newsletters, parent letters, message call system, etc. The Policy is also available in the Parent Student handbook on the academy's website, and is also shared during staff test administration training PD and student assembly.

ELECTRONIC DEVICE EXAMPLES:

Examples of electronic devices include, but are not limited to:

- any electronic device that can be used to record, transmit, or receive information, not used for testing
- computer tablets, iPads, e-readers (for example: Kindle)
- smart watches (for example: Fitbits; Apple, Garmin, Samsung watches; any watch with access to other applications or the internet)
- smart phones and cell phones
- Bluetooth headphones, smart earbuds (for example: Beats, iPods), or any headphone with access to other applications or the internet)
- smart glasses (for example: Google Glass)
- desktop computers, laptops, Chromebooks, not used for testing

STUDENT GUIDELINES UPON ENTERING TESTING ENVIRONMENT:

1. All students are to turn cell phones/electronic devices off before entering any testing room.
2. All cell phones/electronic devices must be turned into the test administrator or placed in the cell phone pouches located near the door in each classroom. All backpacks/purses are to be placed in lockers before entering testing locations as they are NOT allowed in the testing room. Students may not access backpacks or purses until the test session has ended. In addition, students are not allowed to use cell phones or other devices in hallways, rest rooms, or at lunch while they are still testing. All devices will be kept in the cell phone pouches or with the testing administrator until the test session is over or until the student has been dismissed from the session after finishing for the day and has been allowed to return to his/her regular schedule of classes.
3. Students found to be in possession of cell phones or electronic devices during testing are subject to disciplinary action as set forth in the Student Code of Conduct. The device will be taken and given to the building principal's office via a hall monitor or School Resource Officer. The student also risks having his/her test score invalidated by having such a device in possession while testing. Invalidation of test results could follow an investigation to determine if test security or confidential integrity was compromised. The principal and testing coordinator will work together on the investigation along with the test administration present in the room in which the incident happened.

Parents will be notified of any such action.

4. This policy includes Apple watches or any such electronic watch being worn during testing by both students and staff members.

CONSEQUENCES

- If a student has a cell phone or other non-test electronic device out at any point during a test session, that student's test will be compromised and is to be invalidated due to prohibited behavior, even if the student did not use the cell phone or device.
- Students are not allowed to wear or access "wearable" technology (such as smartwatches, fitness trackers, and Bluetooth headphones) during testing. If a student is wearing such a device during testing, that student's test will be invalidated because the student has access to the device regardless of whether it was used or not.
- Even if a student has exited or submitted their test, they cannot use cell phones or other electronic devices in the testing room. If the student has exited/submitted the test and then accesses a cell phone/electronic device (including wearable technology), this constitutes prohibited behavior and the student's test will be invalidated.
- Student/staff incident will be reported to the OEAA and/or testing vendors.
- Disciplinary consequences may occur per the Parent Student Handbook

ELECTRONIC DEVICES POLICY FOR TEST ADMINISTRATORS/TEST MONITORS AND STAFF

Test administrators and test monitors must be focused on active monitoring throughout test administration. During testing, staff may only use a computer (or other appropriately configured device, for example, an iPad or Chromebook) for monitoring WIDA, MI-ACCESS, and/or M-STEP, and these devices should be used for no other purpose, during testing.

Test administrators and test monitors are only allowed to use classroom phones to alert other staff of issues, assistance and or emergencies. Wearable technology is strongly discouraged for testing staff; if it is worn, devices must be set on airplane mode to limit access to other applications and the internet.

A test administrator shall not disturb the testing environment through texting, speaking, or other cell phone/wearable technology/electronic device use, except in the event of an emergency. Test content can never be photographed or communicated; this includes when a test administrator or test monitor needs to alert others of an issue or incident. Test administrators and test monitors are not to use their cell phones, wearable technology, or other devices to check email or perform other work during testing. All such electronic devices are to be silenced to reduce disruptions. Cell phones and electronic devices are to completely be shut down or placed on airplane mode and only classroom phone can be used to alert other staff in emergency cases.

Staff who go between rooms or help troubleshoot technical issues during testing, such as the District Assessment Coordinator or Technology Coordinator may use their cellphones to contact the service provider's help desk; however, they should step out of the testing room to make calls, to minimize disruptions.

BEST PRACTICES FOR TESTING ENVIRONMENT

Students and staff are not allowed to bring any additional electronic devices into the testing room.

- Electronic devices are to be left at home or kept in a secure on-site location during testing (student lockers, staff storage cabinets).
- Staff is to actively verify that no student has additional electronic devices before, during, and after testing.
- Test administration staff remind students to check that they have no electronic devices. "Did you shut down our phone and place them in the pouches?" "Do you have earbuds in your ears or in your pocket?" "Are you wearing a smartwatch?" "Is your bag pack/purse in your locker?"
- Additional electronic devices students bring into the room are collected by staff members; the devices are powered off and stored away from the students.

GUIDELINES:

- All staff must turn cell phones/electronic devices off set it on airplane mode before entering any testing room.
- Staff will need to re-inform or briefly talk with students/parents, prior to testing, on this policy in a variety of methods such as daily announcements prior to testing, posters throughout the building, newsletters, parent letters, message

call system, etc. It is up to the principal to determine the most efficient and effective method of notifying students and parents of this policy.

- This policy includes Apple watches or any such electronic watch being worn during testing by both students and staff members.

CONSEQUENCES:

- If a test administrator or other staff in the testing room accesses an additional electronic device, this will result in a misadministration for the entire testing session and invalidation of the students' tests, in addition to any other actions the Michigan Department of Education (MDE) deems necessary.
- Photography/communication of test content will result in a misadministration for the entire testing session and invalidation of the students' tests, in addition to any other actions MDE deems necessary.

INCIDENT REPORTING PLAN:

In the event we have an incident a student or test administrator in the testing room accesses an electronic device, this will result in a misadministration and an incident report will be created. When creating and submitting an Incident Report, the following information will be included:

1. Test Cycle: (add academic year)
2. Grade of student involved – Title of Staff Involved
3. Content Area:
4. Testing Mode: online/in person
5. Incident Category: Prohibited Behavior
6. Incident Subcategory: Electronics/Social Media
7. Students Involved or Impacted: Yes
8. Add Student: Select UIC/Name of student involved – ID#/Name of staff involved
9. MDE Action Request: Mark as Prohibited Behavior
10. In the incident description box, enter "Student UIC # / Staff ID# was identified as having exhibited prohibited student behavior by using for example: "an artificial voice to respond to a test item(s) in their WIDA Speaking"

The incident will be investigated by the Principal and Academy Testing Coordinator and the investigation findings will be submitted to the OEAA. A complete internal investigation report summary addressing what occurred minimally includes:

1. A timeline and summary of events
2. A list of students involved
3. A list of school staff involved (OEAA recommends you speak with all teachers and proctors involved with testing)
4. Statements from school staff involved, summarizing what occurred in their own words
5. Statements from the students involved, summarizing what occurred in their own words
6. Copies of security compliance forms for involved school staff
7. A copy of the district's assessment training plan
8. Return your investigation findings to, State Assessment Integrity and Security Administrator, via email

A swift investigation of the incident report will help correct any misadministration and/or use of electronic device and prevent future test irregularities.

REQUIRED STAFF TRAINING

All test administrators, test monitors and staff are required to attend all trainings provided in relation to testing and electronic device use policy to ensure guidelines and procedures set forth in this policy.

- Academy Testing Coordinator will meet with staff weeks prior to the testing dates

- PD sessions will be conducted to cover:
 - Testing administration guidelines and procedures
 - Staff responsibilities and expectations
 - Student responsibilities and expectations
 - Student Integrity
 - Incident Reporting Plans
 - Emergencies
 - Do's and Don'ts
 - Other subjects to be covered to include testing approved material, students with special needs, timing, and more
- MI Assessment Coordinator Training Guide will be shared with all staff
- Meeting Minutes will be provided to staff to revisit when needed
- Additional training will also be available to staff who need further assistance and/or have missed the initial training.

SCHOOL ATTENDANCE

Michigan’s compulsory law requires that all children at least 6 years old and under the age of 16 attend school (e.g., public, private, or a home study program). Therefore, the Michigan Department of Education is allowing school districts to implement fully online learning opportunities for those students and families choosing online learning as the best option for themselves.

Teachers and administrators will continue to monitor all students through a variety of ways to ensure all students have access and are continuing the educational learning from home, either remotely and or packet format.

All K-5 students in the Academy will have a full 6 period schedule, whether they are virtual, Blended Learning 3 or Blended Learning 4.

Students must check in to every period with their classroom teacher. During live session students are required to attend and participate in the live session.

Noor International Academy has a policy that defines attendance in an online setting in terms of 2-way communication per course. A student receiving and responding to communication from a teacher in a course is considered to be in attendance for that week, for that course. Students not responding in the defined time period would be marked absent for the week for the course.

FEVER AND ILLNESS

The following information is based on the [Michigan Safe School for K-12](#) Roadmap.

COVID-19 RELATED SYMPTOMS/CONFIRMED DIAGNOSIS

Students who have tested positive for COVID-19, with or without symptoms, should not return to school for AT LEAST 10 days following the onset of COVID-19 symptoms or receiving a positive test result AND be fever free for at least 24 hours without the use of fever reducing medication AND have improvement in respiratory symptoms (e.g., cough, shortness of breath). Until all guidelines are met, students should stay in quarantine at home.

However, students being hospitalized for COVID-19 or who are severely immunocompromised should not return to school for AT LEAST 20 days since symptoms first appeared AND be fever free for at least 24 hours without the use of fever-reducing medications AND have improvement in respiratory symptoms (e.g., cough, shortness of breath).

Students who exhibit no symptoms but have been exposed to a positive case will need to stay on a 14-day quarantine. If symptoms develop, further time in quarantine will be needed from the onset of symptoms. Students with a confirmed diagnosis in the home will have to be quarantined an additional 14 days when the family members' quarantine period is over.

FEVER:

Students presenting with a fever above 100.0, *with a negative COVID-19 diagnosis*, must be fever free for at least 24 hours without the use of fever reducing medication AND have improvement in any respiratory symptoms (e.g., cough, shortness of breath) before returning to campus. Therefore, parents, **please help us by taking your child's temperature each morning** before sending them to school.

If a student is absent due to the above situations, allow them to take advantage of online learning. Online learning days will be considered **present online** days as long as students continue to complete assigned/required work. Please contact the child's teacher via their school email if the child will temporarily take advantage of online learning through the isolation period.

AT-RISK PREVENTION

Students and staff should only come to the school campus if the following questions can be answered negatively ([CDC-Symptoms of COVID-19](#)).

The Michigan Department of Health and Human Resources lists the following screening protocol questions:

- Has the student or anyone in the home tested positive for COVID-19 or is awaiting test results for COVID-19?
- Does the student or anyone in the home have any of the following symptoms?
 - Fever or chills
 - Cough
 - Shortness of breath or difficulty breathing
 - New loss of taste or smell
 - Nausea or vomiting
 - Diarrhea
 - Ongoing:
 - Fatigue
 - Muscle or body aches
 - Headache
 - Sore throat
 - Congestion or runny nose
- Is anyone in the home caring for someone who is ill with an unknown ailment? (This question does not apply to healthcare providers.)

- In the two weeks before the child or staff member felt sick, did you:
 - Have contact with someone diagnosed with COVID-19? If you have, please utilize online learning for 14 days or until a negative test result has been obtained.
 - Live in or visit a place where COVID-19 is spreading?
 - If you have been diagnosed or have a positive test result for COVID-19, you have to be at least 10 days past the onset of symptoms AND greater than 24 hours past the resolution of all symptoms or a negative test result prior to returning to face-to-face instruction. If you have been diagnosed with COVID-19 and are asymptomatic you must remain home for 10 days from the test if you do not develop symptoms, if symptoms develop then follow symptomatic guidance.
- Parents who are uncertain if the child's symptoms are strong enough to have them remain home should choose temporary online learning as a precautionary measure.

PRACTICING PREVENTION

Noor International Academy District will implement the following enhanced sanitation/cleaning practices and protocols to aid in reducing the spread of COVID-19.

SANITATION AND PREVENTION PRACTICES

Hygiene & Cleaning:

The Academy provides adequate supplies to support healthy hygiene behaviors (including but not limited to: soap, hand sanitizer and sanitization wipers with at least 60% alcohol for safe use by staff and students, paper towels, and signs reinforcing proper handwashing techniques throughout the building).

Teachers reinforce and integrate a lesson within science courses to handwashing with soap and water for at least 20 seconds and/or the safe use of hand sanitizer that contains at least 60% alcohol. Teachers also educate students on how to cough and sneeze into their elbows, or to cover with a tissue. Students are taught that used tissues should be thrown in the trash and hands washed immediately using proper hand hygiene techniques.

Working with the custodial/janitorial team and custodial service provider, the Academy developed a systemically check on bathrooms that ensures they are filled with soap and paper towel, all hand sanitizer dispensers are full and in good working order around the building and that spray sanitization equipment is used to keep all common areas and touched surfaces sanitized across the school. The classrooms are supplied with sanitization wipes and hand sanitization solution with at least 60% alcohol for safe use in the classrooms to maintain clean and sanitized environment and to minimize the number of students in common areas. The Academy purchased and installed UV lights in the HVAC units for cleaner air circulation, and to ensure that ongoing sanitization of the classrooms.

- Thoroughly cleaning rooms daily with approved/recommended EPA solutions.
- Increasing outside air circulation of HVAC systems and improved filtration (Installation of UV filters).
- Posting good hand hygiene and cough etiquette signage throughout the buildings.
- Encouraging proper handwashing as a primary practice and providing hand sanitizer as a secondary practice in the absence of soap and water.
- Providing hand-cleaning dispensers throughout buildings.
- Restricting access to buildings and classrooms to only essential situations.
- Utilizing online learning days and long weekends to conduct deep cleanings whenever possible.

SCREENING STUDENTS & STAFF

The Academy cooperates with the Wayne County Health Department regarding protocols for screening students and staff.

The Academy ensures the following:

1. In the event that a student and or staff member gets ill and have a fever, the administrator and/or nurse aid will bring the student/staff to the nurse aid office to get checked.
 - a. A quarantine room has been identified within the nurse aid office to hold all students and staff who become ill and have COVID-19 symptoms.

- b. Staff/students in the quarantine room are asked to wear a mask
- c. Students/staff are asked to call home/significant other to come pick them up from the school to go home and get checked at their local doctor's office for COVID-19.
- d. Staff/students who have COVID-19 are asked to stay for a minimum of 14 days for quarantine, per the CDC guidelines. Staff/students need medical clearance to come back to work/school.
- e. All information are logged via the nurse aid medical log.

GENERAL PRACTICES

- Implement social distancing when possible within the various campus spaces. (Please know this is not possible in most settings.)
- Provide online learning opportunities for those students who are ill and/or unable to attend on-campus classes. (This will not hurt the child's attendance as long as work is continuously submitted.)
- Restrict access to buildings and classrooms to only essential situations.
- Require faculty, staff, and students to wear protective face masks or coverings.
- Minimize cross exposure of classrooms in the lower grades and where possible in the upper grades.
- Eliminate field trips.
- Follow all state guidelines and evaluate the safety of each interscholastic athletics/competition event.
- No outside food deliveries will be allowed for students or staff. Students who do not plan to eat in the cafeteria should bring their lunch with them when coming to school.
- Only essential personnel will be allowed on campus after school hours during weekdays and any/all weekends to support enhanced sanitation practices. (Essential refers to custodians, maintenance, technology, and specified personnel.)

ENTERING/LEAVING SCHOOL BUILDINGS

- Post best health practices and good-hygiene signage at entries.
- Utilize established entry and exit points and flow paths where available.
- Restrict access to nonessential visitors and volunteers.
- Access to campus from outside visitors will be based on the level of community spread. In the event that visitors are allowed to enter, they are required to wear a face mask or covering and negatively answer screening questions.
- Request that all parents, or others, dropping off/picking up students through the car-rider line remain in the vehicle except for those students needing assistance with buckling/unbuckling or for other student-specific needs.

GATHERINGS

- Abide by the maximum number of people allowed to congregate as defined by the Governor's current statewide Executive Order, Department of Public Health, CDC and/or the UCS COVID Task Force.
- No congregation of students in parking areas and common areas.
- Follow Michigan High School Athletic Association guidelines for sporting events and practices at a minimum.

TRANSPORTATION

The Academy does not offer busing for students in terms of bringing students to and from school. The Academy does own buses that are used for field trips and extra-curricular activities.

In the event a school bus is used for outdoor field trips and extra-curricular activities, the following is to take place:

1. The Academy requires the use of hand sanitizer before entering the bus. Hand sanitizer must be supplied on the bus.
2. The bus driver, staff, and all students in grades preK-5, if medically feasible, must wear facial coverings while on the bus. Note: there may be situations where it is not safe for the bus driver to wear a facial covering. Decisions about these situations should be made on a case-by-case basis with local public health officials.

3. The Academy ensures the bus is cleaned and disinfected before and after every transit route. Students will not be present when a vehicle is being cleaned.
4. The Academy ensures that the bus is clean and disinfect frequently touched surfaces in the vehicle (e.g., surfaces in the driver's cockpit, hard seats, arm rests, door handles, seat belt buckles, light and air controls, doors and windows, and grab handles) prior to field trips and after. During the cleaning process, weather permitting, the Academy ensures that the bus doors and windows to ensure the bus airs out. Weather permitting, the Academy considers keeping windows open (where they're not permanently closed by the manufacturer) while the vehicle is in motion to help reduce the spread of the virus by increasing air circulation, if appropriate and safe.

ILLNESS

If a student becomes too ill to remain in class, the nurse or office personnel will contact the parent/guardian to recommend that the student be picked up. Therefore, it is imperative that the office has on file a phone number where parents/guardians may be reached during the school day. Such numbers might include home, work, cellular, pager, relative's and/or friend's phone numbers. While the parent/guardian is en route to the school, the student will be made comfortable in the office.

COMMUNICABLE DISEASE

Students known to be infected with a contagious or infectious disease or coming from a family where such disease prevails shall not be received or continued in school until such time as a certified statement is received from the child's physician or the public Health Department. The student shall be admitted to or received back in school upon presentation of a release by his/her own physician or the public Health Department.

FLU, H1N1 AND OTHER INFECTIOUS, COMUNICABLE, TRANSMISSIBLE DISEASES

If a student becomes ill or suspects being ill of the flu, H1N1 or other infectious diseases, the parent/guardian is required to notify the school. If a student becomes ill during the school day, the following protocols shall be followed:

1. The student shall share with teacher immediately.
2. The teacher will screen the student and send to the nurse or main office if suspicious of infection.
3. Suspected cases will be reported by the nurse to the Principal and parents will be contacted. Student will remain isolated until parent pick up.

Students with confirmed infection will need a physician's clearance to return to school. Students will be provided with lessons, assignments and materials while absent for 5 or more days. The Parent will be responsible for the pickup of assignments and materials and ensuring the student makes up the missing lessons and assignments. The school will provide written instruction to the parent/guardian regarding appropriate treatment for the communicable disease.

SCHOOL-BASED ASTHMA MANAGEMENT PLAN

According to the MI Department of Education (MDE), there has been a significant increase in the number of students with asthma in our schools (MI schools). In fact, asthma is the leading serious chronic illness of children in the United States. It is also the number one cause of school absenteeism due to a chronic condition, leading to an estimated average of 7.3 school days missed annually. In order to decrease the amount of time these students are absent from school because of acute episodes of asthma, the following recommendations are offered by the Academy based on recommendations of the Michigan Asthma Steering Committee of the Michigan Department of Community Health, based on Asthma Management Guidelines of the National Heart, Lung, and Blood Institute:

- Many children with asthma are taught to carry their own medication (example: metered-dose inhalers) and to self-administer as part of their doctor-prescribed treatment regimen. The Academy will honor the parental request and doctor has written instructions that allow a child to carry and self-medicate.
- The Academy will support and encourage pro-active communication with parents of asthmatic children. The successful management of asthma is a partnership between home, school, and the child's health care provider. A sample Asthma Management Plan may be obtained from the main office and must be completed by the asthmatic child's parents and doctor on an annual basis or more often if the child's medications change. This form is also available on the Michigan Department of Education's website at: <https://www.michigan.gov/mde/>
- If needed, school administrators may have direct communication with the child's health care provider in order to resolve individual problems that may arise because of the child's asthma.

- The Academy provides opportunities for staff to learn more about asthma and allergies in the following areas:
 - All staff are provided mentoring/training so they should know the early warning signs of an acute asthma episode, and should be aware of emergency procedures and contacts in case a child needs medical assistance. The flyer, “Signs of an Asthma Emergency,” is distributed to all staff and posted on bulletin board around the school as well as available on the school website and in this handbook.
 - Staff are provided mentoring/training so they should be aware that chalk dust, animals in the classroom, strong odors (perfumes and paints), cleaning agents, mold, and numerous other substances may be asthma triggers for some children.
 - Staff with asthmatic students are provided with mentoring/training so they should know the signs of possible side effects of asthma medications; also, be aware which side effects are serious enough to warrant reporting to the child’s parents or health care provider. This information is provided in a secure location available only to the child’s teacher(s) and applicable administrator’s in our student data management system (PowerSchool); it is important parent’s keep the school informed of medication changes so that we may continue to update medical health information online and make available as needed.
- Environmental pollutants are often triggers for acute episodes of asthma. Extensive building repairs or cleaning is scheduled for long vacations or during summer months to avoid exposing children to fumes, dust or other irritants. Routine cleaning and maintenance of the heating/cooling and air filtration system is important for reducing amounts of dust and mold in the schools and is provided as needed.
- Physical education teachers, playground aides, and teachers are provided mentoring/training, as they need to know that exercise can induce acute episodes for many students with asthma. Exercise in cold, dry air and activities that require extended running appear to trigger asthma more often than other forms of exercise. If a child’s doctor prescribes medication to be taken prior to gym class or other physical exertion to help avoid an acute asthma episode; the child’s doctor should describe the use of preventive medication in the child’s asthma management plan, which is reviewed by the physical education teachers at the beginning of each school year, or if the child’s plan changes as well as other applicable staff using PowerSchool.
- It is important for school staff that are responsible for students during physical activity to be aware of those students who have exercise-induced asthma. Staff are provided with this information including regular updates as changes occur so that a child with exercise-induced asthma should be allowed to stop any physical activity if they are having difficulty.

SIGNS OF AN ASTHMA EMERGENCY

SEEK EMERGENCY CARE IF A CHILD EXPERIENCES ANY OF THE FOLLOWING:

- Child’s wheezing or coughing does not improve after taking medicine (15-20 minutes for most asthma medications)
- Child’s chest or neck is pulling in while struggling to breathe
- Child has trouble walking or talking
- Child stops playing and cannot start again
- Child’s fingernails and/or lips turn blue or gray
- Skin between child’s ribs sucks in when breathing

Asthma is different for every person. The “Asthma Emergency Signs’ above represent general emergency situations as per the National Asthma Education and Prevention Program 1997 Expert Panel Report.

If you are at all uncertain of what to do in case of a breathing emergency, Call 911 and the child’s parent/guardian

Michigan Asthma Steering Committee of the Michigan Department of Community Health

ILLNESS OR ACCIDENT

Because a school has a high concentration of people, it is necessary to take specific measures when the health or safety of the group is at risk. The school’s professional staff has the authority to remove or isolate a student who has been ill or has been exposed to a communicable disease. Please refer to the Communicable Disease section of this handbook for further information about this subject.

If your child becomes ill or an accident of sufficient nature occurs, making it necessary for the child to go home, you will be called. If you cannot be reached, we will call the person you designated on your Emergency Medical Authorization form. Please designate an alternate who can reach the school in a short amount of time.

Exclusion of sick children from school is the responsibility of the school administration. Transportation of sick children to their home is the responsibility of the parents or their alternate.

The Registration/Emergency Medical Authorization form that parents completed and returned to the school is kept on file for each child. Please list two different numbers at which you or a designated person can be reached. Please keep the office informed of any changes to the information (address, phone numbers, contact people, etc.) on your child's Registration/Emergency Medical Authorization form.

Please keep your child home if they have symptoms of illness:

- * **A fever over 100 degrees**
- * **Vomiting two or more times**
- * **Diarrhea**
- * **Sputum producing cough**
- * **Difficulty breathing x Drainage from the nose or eyes**
- * **A rash that is spreading**

To promote good health, encourage your child to:

- * **Wash their hands often**
- * **Keep their hands away from their eyes and nose**
- * **Eat a healthy diet**
- * **Get enough rest**

HEAD LICE

The Academy, based on MDCH and MDE recommended policies, focuses on the exclusion of active infestations only. Active infestations can be defined as the presence of live lice or nits found within ¼” of the scalp. Nits that are found beyond ¼” of the scalp have more than likely hatched, or are no longer viable.

- Any students with live lice may remain in school until the end of the school day. Immediate treatment at home is advised. The student will be readmitted to school after treatment and examination. If upon examination, the school-designated personnel finds no live lice on the child, the child may reenter the school.
- Any students with nits (farther than ¼” from scalp) should be allowed in school.
- Parents should remove nits daily and treat if live lice are observed.

When a member of school staff suspects a child is infested with head lice, the following procedures should be followed:

- The child will be restricted from activities involving close contact (i.e. Hugging) or sharing personal items (i.e. hats, clothing, brushes) with other children.
- The school Principal will be notified, and the parents will be contacted. Immediate removal of the child is unnecessary. If the child has lice, they probably have been infested for weeks and prompt removal of the child could lead to embarrassment and ridicule. The child will be sent home at the end of the day.
- A letter will be sent home notifying classmates’ parents that a case of head lice is suspected and asking them to check all of their children for head lice. The school will also provide parents with a copy of an information sheet on head lice infestation and treatment options.
- Due to the biology of lice, insecticidal treatments to the School are NOT effective and will NOT be done.

Parents have the ultimate responsibility for their children. This includes:

- Assisting in the prevention and management of head lice cases through regular checks of their children’s hair and starting immediate treatment when head lice are detected.

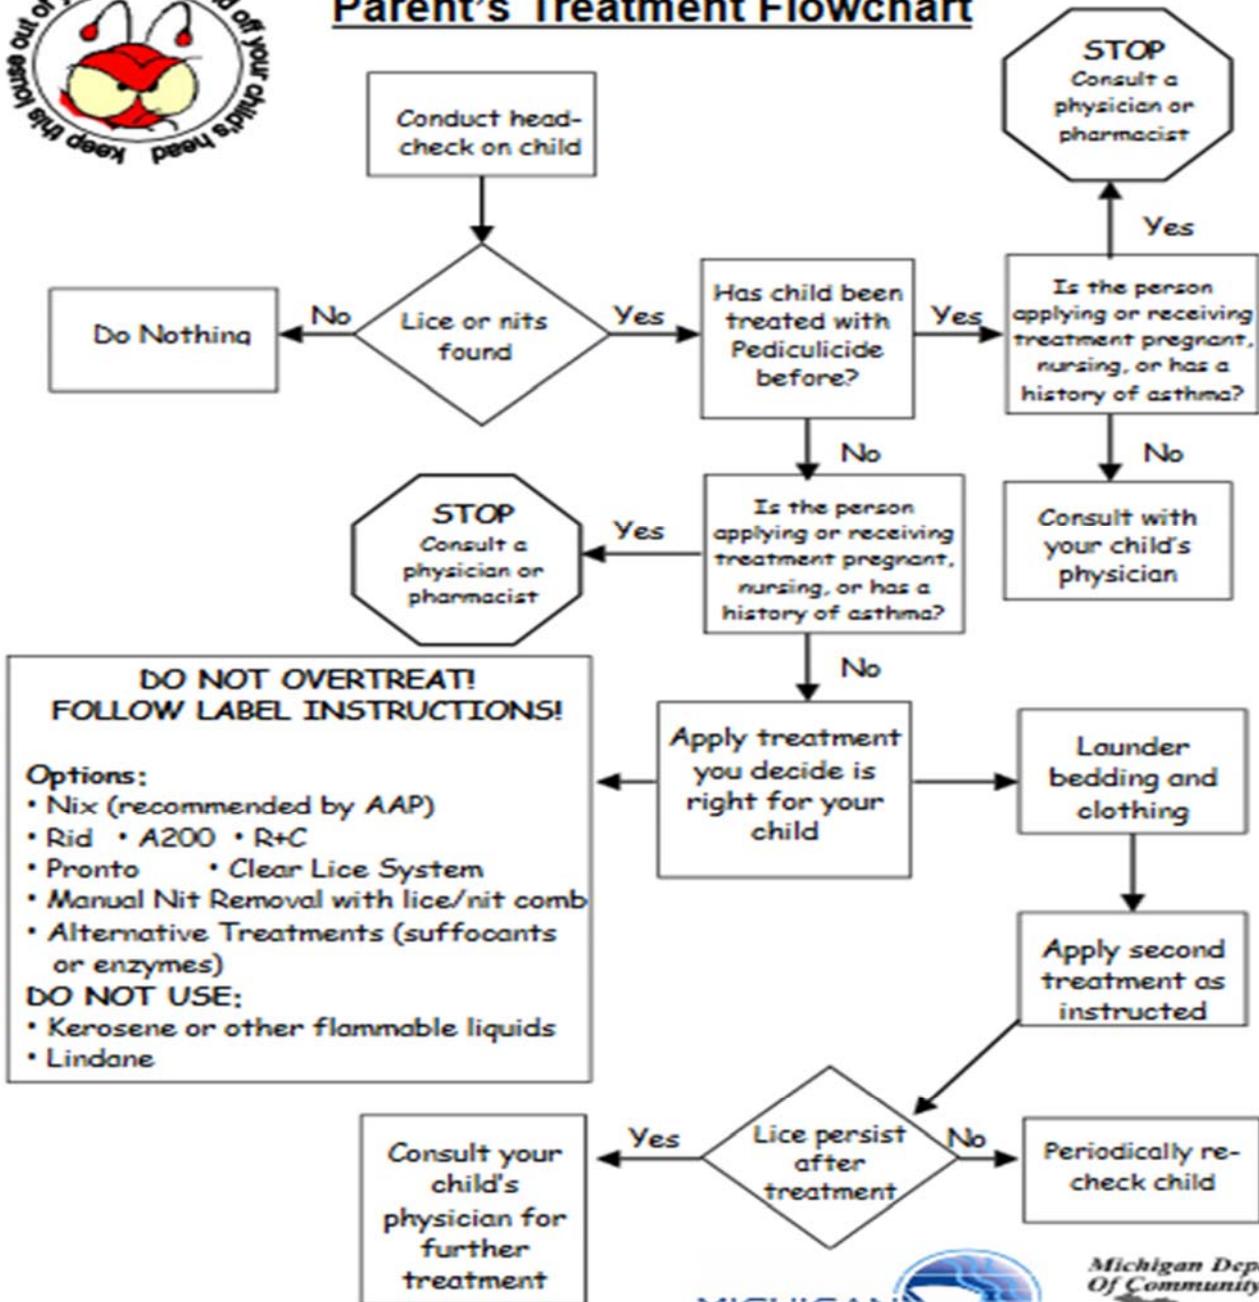

10 Steps to Keep Ahead of Head Lice

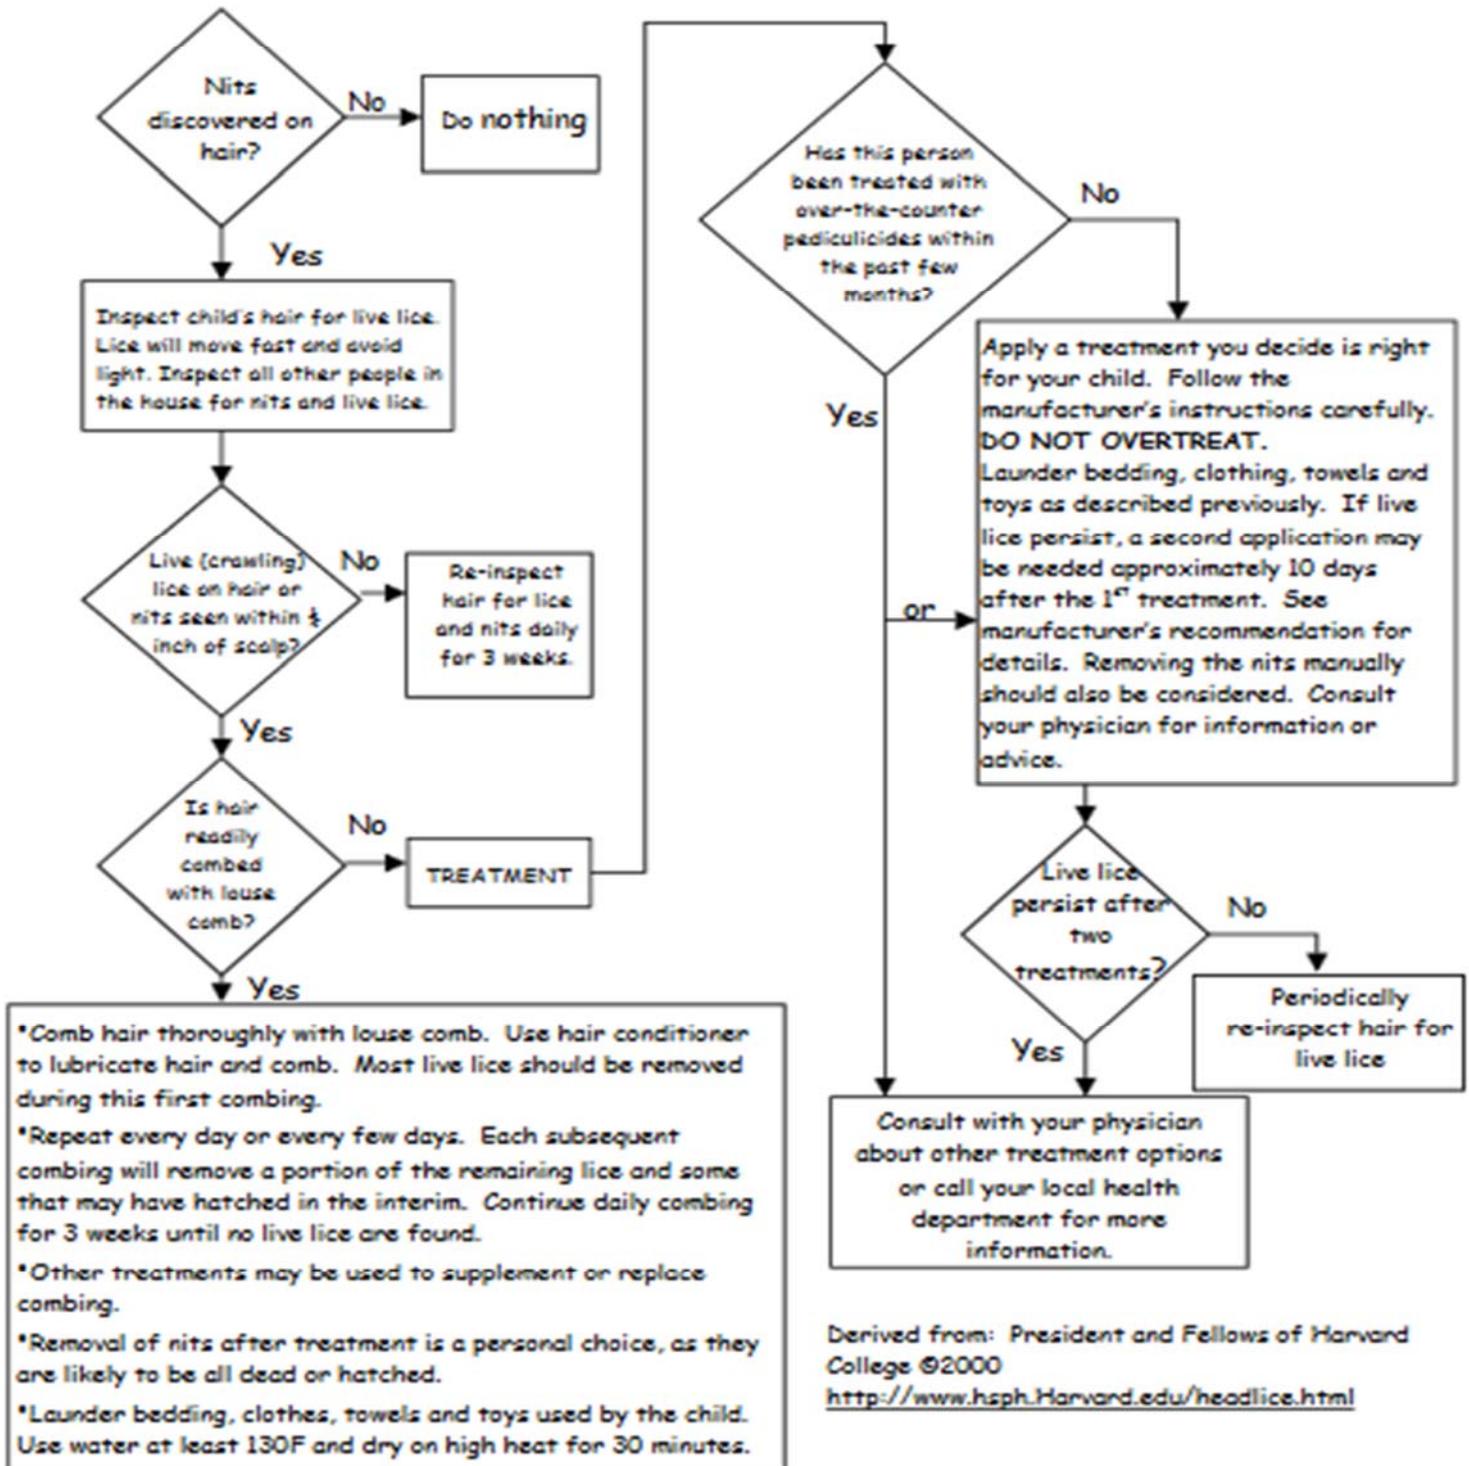

- 1) Watch for signs of head lice, such as frequent head scratching. Anyone can get lice, mainly from direct head-to-head contact, sharing hats, brushes, etc.
- 2) Check all family members for lice and nits (lice eggs) at least once a week.
- 3) Be sure not to confuse nits with hair debris, (i.e., dandruff, hair spray droplets or hair casts). Nits are yellowish-white, oval shaped and are attached at an angle to the side of the hair shaft.
- 4) Consult a pharmacist or physician before applying pesticides or other lice treatments if anyone involved is pregnant or nursing, has allergies, asthma, or has nits in the eyebrows or lashes. Never use a pesticide or lice treatment on or near the eyes.
- 5) Consider all of your treatment options. Remember, lice-killing products are pesticides and must be used with caution. If you choose alternative methods, they may not have been studied thoroughly enough to determine long-term outcomes. The only completely safe alternative is manual removal by combing.
- 6) Remove all nits. Separate hair sections and remove nits with a lice comb, baby safe scissors or your fingernails.
- 7) For lice treatment, follow package directions carefully. Use the products over the sink, not in the tub!
- 8) Wash bedding and recently worn clothing in hot water (above 130°F) and dry in high heat for 30 minutes. Combs and brushes should be soaked in hot water (not boiling) for 10 minutes.
- 9) Avoid lice sprays! Vacuuming is the safest and best way to remove lice or fallen hairs with attached nits from furniture, rugs, stuffed animals and car seats.
- 10) Notify your child's school, camp, child-care provider, play partners, and neighborhood parents. **Check for lice on a regular basis.**

HOMEBOUND AND HOSPITALIZED SERVICE POLICY

Parents must notify the school when the child is homebound or when plans are being made for a future hospitalization that will result in the loss of more than five consecutive school days. A Doctor's Statement excusing the child from school for illness and the period that the child will be absent from school, as well as when he/she may return to school, is required. Additionally, certification by the attending physician of the student's condition and any limitations that will affect the student's ability to benefit from instruction is required.

Homebound and hospitalized services are designed to help students, who are unable to attend school due to a medical condition, to keep with their studies and to progress as far as possible given their medical condition. The homebound and hospitalized student's teacher carries the curriculum from school to the home or treatment facility to enable students to continue with their studies.

For a student to qualify for homebound and/or hospitalized service, the student must be enrolled at the Academy. The Academy will provide a minimum of two (2) forty-five (45) minute periods per week by a schoolteacher; provide textbooks and other materials related to the instruction, assignments, and grading, as well until the student is released to return to school.

RESPONSIBILITY OF THE PARENT OR CARE GIVER

Michigan law requires children between the ages of 6 to 16 to be in attendance at school.

The requirement is found in Section 1561 of the School Code:

¹ Except [for students attending a state approved nonpublic school] every parent, guardian, or other person in this state having control and charge of a child from the age of 6 to the child's sixteenth birthday, shall send that child to the public schools during the entire school year. The child's attendance shall be continuous and consecutive for the school year fixed by the school district in which the child is enrolled. (MCL 380.1561)

Parents are responsible, under the compulsory school attendance laws, to ensure the school district is notified when the student is homebound or hospitalized. The parent must provide the name of the attending physician or the hospital and authorize the release of sufficient information to allow the school district to determine eligibility.

1. Provide access to the student's home, and help schedule teacher visits so they do not conflict with medical treatments.
2. Provide an appropriate environment and the necessary supervision for their child to complete assignments.
3. Help the child schedule time for study by ensuring appropriate instructional materials are available on hand.
4. Support the child with the learning activities to the extent possible and as agreed upon with the teacher.

While parents should encourage the child to keep up with schoolwork, they should not do the work for the child. If the parent feels assignments are too difficult, or feels the child does not have the prerequisite skills needed to carry out the assignment, this information should be communicated to the teacher of the homebound and hospitalized services and/or the student's classroom teacher.

STUDENT RESPONSIBILITIES

The students must:

1. Ask for assistance and/or clarification as needed to complete assignments.
2. Attend to the class activities to the extent that they are physically capable.
3. Return materials and supplies after completing assignments.
4. Continue to work with the teacher(s) to do any extra work needed so that the student has minimum competencies needed to complete the subject or grade, after returning to school.

¹ Adopted from the Michigan State Board of Education Policy on Homework, Michigan Department of Education, Lansing, Michigan 48909, November 1988.

PHILOSOPHY AND PRINCIPLES OF ASSESSMENT

The assessment policy is aligned with the aspects of our mission statement. It is widely recognized that an effective teacher is the single most important factor in a student's lifelong academic success. The Academy recognizes that teaching, learning and assessment are fundamentally interdependent and therefore we are guided by the following principles, in that assessment:

- Is tied directly to curriculum and instruction through the backward planning model.
- Is an integral part of the planning/assessment/reporting cycle
- Monitors the progress of student learning and achievement, and determines the effectiveness of teaching
- Utilizes a variety of methods
- Should be authentic, balanced assessment system of both formative and summative
- Is constructive and promotes positive student attitudes toward learning
- Informs, enhances and improves the teaching process by taking into account student learning styles, prior experience, current knowledge and interests
- Promotes a deep understanding of subject content and the development of higher order thinking skills
- Provides students and families with clear, real-time picture of student progress on learning goals
- Is incorporated into the learning process and is performance-based.
- Is a catalyst for student and teacher reflection and re-evaluation
- Plays a significant role in the development of Approaches to Learning skills (Organizational, Communication, Collaboration, Problem-Solving, Research/Information Literacy, Reflection)

FORMATIVE AND SUMMATIVE ASSESSMENTS

Teacher(s) will use the MTSS (Multi-Tiered System of Support) model for monitoring student progress. Data will be used to measure, on an ongoing basis, student progress to inform instruction and what teachers are doing to improve student achievement:

- ★ Teachers will use student progress monitoring data frequently (weekly/monthly) to determine student growth or response to instruction;
- ★ Teachers will use progress monitoring data to compare a student's expected and actual rate of learning;
- ★ Teachers will use progress monitoring data to adjust the frequency and/or intensity of instruction;
- ★ Teachers will use progress-monitoring data to evaluate the match between instructional strategies and the students' academic or behavioral needs.
- ★ What this means is students need to actively participate in class and complete their formative assessments so that teacher(s) know the current level of progress and can adjust teaching or provide additional help for students to be able to demonstrate mastery on summative assessments.

Teachers will use 3 types of assessments: Diagnostic, Formative & Summative:

- ★ **Diagnostic Assessments:** Will be used by teachers prior to teaching (pre-teaching) to get to know each students level of mastery or progress at the start of a new unit. Students will be informed about learning goals for the topic or unit, the assessment and criteria used to conclude the unit and see examples or role models of the performances expected of them (non-graded and do not adversely affect students' self-esteem);
- ★ **Formative Assessments:** Will be used by teachers during teaching to provide frequent feedback throughout the teaching unit and students will receive very specific feedback. Lessons will be modified based on the feedback and students will be given opportunities to show they can correct and adjust the quality of their work. This includes learning to self-assess their own work (graded and may adversely affect students' self-esteem if not given sufficient opportunity to practice proficiency before end of unit/summative assessment that impacts final grade) → **PRACTICE MAKES PERFECT!!!**

- ★ **Summative Assessments:** (End of Unit) Will be used by teachers to give students the opportunity to demonstrate knowledge and skills they have learned. Teachers will offer two or more options accommodating various learning styles and targeting different learning goals. Students will be aware of the criteria on which their work or performance will be assessed including the use of Rubrics and will know this information at the start of each unit.

Diagnostic tells us what students know before teaching starts, formative tells us what students learn as we go and summative tells us what you have learned after the lesson is complete and students have taken advantage of all the formatives to practice before the end of unit assessment!

Formative	Summative
AS students are being taught.	AFTER students have been taught.
Used by teacher to ADJUST instruction as we go.	Used by teacher to EVALUATE student progress.
How are students doing on their journey toward achieving the standard or skill?	Did students reach proficiency on the standard or skill?
Samples: Pretests, Quizzes, Writing Prompts, Story Summaries, Role Play, Demonstrations, Journals, Graphic Organizers, etc.	End-of-Chapter Exams, Statewide Tests, Oral Interviews, Entrance Exams, Projects/Presentations, etc.

STUDENT PORTFOLIOS – THE STUDENT SELF-REFLECTION PROCESS

All students are responsible for maintaining their individual Student Portfolio. The Student Portfolio process involves setting goals in each subject. At the end of each unit report students do a self-reflection and select work samples they are most proud of from each subject. Based on this, they then create goals for the next term in each subject. In this way, students are routinely reflecting on specific assessment tasks and their overall learning.

STANDARDIZED ASSESSMENT PROGRAM

Students and parents/guardians should be aware that students in grades **Kindergarten – 6th** will take standardized tests on **dates specified in school calendar or as may be provided by the Principal and Director of Research and Evaluation.** Parents are encouraged to cooperate in preparing students for the standardized testing, because the quality of the education the school can provide is partially dependent upon the school’s ability to continue to prove its success in the State’s standardized tests. Parents can assist their students in achieving their best performance by doing the following:

1. Encourage students to work hard and study throughout the year
2. Ensure students get a good night’s sleep the night before exams
3. Ensure students eat well the morning of the exam, particularly ensuring they eat sufficient protein
4. Remind and emphasize for students the importance of good performance on standardized testing
5. Ensure students are on time and prepared for tests, with appropriate materials, including number 2 pencils
6. Teach students the importance of honesty and ethics during the performance of these and other tests
7. Encourage students to relax on testing day.

REPORTING PROCEDURES – COMMUNICATING WITH STAKEHOLDERS

POWERSCHOOL PARENT PORTAL

Parents of students who are enrolled at the Academy receive a letter in the beginning of each school year, explaining an online program which is called PowerSchool Parent Portal, and that holds data regarding our students' academic profile. The parent portal option in PowerSchool provides access to parents for means of regularly tracking grades, academic progress, and attendance for their children, as well as keeping posted on school bulletins. Parents can simply log on to ps.niapsa.org.

Parent login access can only be released to parent. In the event that a parent needs login and password re-issued, a written request signed by the parent must be submitted to the main office.

PARENT-TEACHER CONFERENCES

Parent-teacher conferences will be scheduled throughout the school year (please refer to the school calendar for specific dates). Conference request slips will be sent home prior to the conference dates, to provide parents the opportunity to select a convenient time. However, please understand that due to complications in scheduling, it is not always possible to meet those requests, but every effort will be made to do so.

In the event that a parent/guardian wishes to contact a teacher outside of these scheduled times, he/she may do so by contacting the office to set up a mutually convenient meeting time. Parents must make an appointment to speak with a teacher about a child's progress instead of simply "dropping in." This policy is intended to ensure confidentiality and maintain scheduled educational services.

Because the Academy encourages parental involvement in their children's education, it is important that parents understand that the school welcomes communication, concerns and comments from parent(s) or guardian(s) regarding their child(ren)'s education or problems they may be experiencing in the school. Parents/guardians are requested to follow the preceding guidelines when they wish to speak with administration and/or staff. Parents must make an appointment or contact school before dropping in.

PROGRESS REPORTS

The Academy believes that it is important to keep parents/guardians abreast of their child(ren)'s progress in school. Therefore, we will send out progress reports during the school year, which will contain teacher comments as to how your child is doing, what they need to work on and what they are successfully mastering. It is important that you contact your child(ren)'s teacher(s) if you ever have a question about the Progress Report or want to discuss with the teacher how you might better assist your child(ren) in achieving the expected performance standards for their age and/or grade level.

REPORT CARDS

The Academy will report each student's progress by a Report Card on a yearly basis. The decision to promote a student to the next grade level is based on successful completion of the curriculum, attendance, performance on standardized tests and other testing.

GRADING SCALE & COMMENTS FOR REGULAR CLASSES

The following grade scale is used for students to determine their proficiency:

A	93-100 4.0	C	73-77 2.3
A-	90-92 3.7	C-	70-72 1.8
B+	88-89 3.5	D+	65-69 1.5
B	83-87 3.3	D	64-63 1.3
B-	80-82 2.8	F	0-62 0.0
C+	78-79 2.5		

ENGLISH LANGUAGE LEARNERS

The school offers opportunities for English Language Learners to develop high levels of academic attainment in English and to meet the same academic content and student academic achievement standards that all children are expected to attain.

Parents/guardians of English Language Learners will be: (1) given an opportunity to provide input to the program, and (2) provided notification regarding their child's placement in, and information about, the school district's English Language Learners programs

For questions related to this program or to express input in the school's English Language Learners program, contact the Building Principal.

SCHOOL TUTORIAL PROGRAMS

We use the Multi-Tiered System of Supports (MTSS) process in identifying students who need to attend our supplemental tutorial programs after school or receive during school tutorial services. Students qualify for services following MDE's at-risk student selection criteria and teachers collaborate with the RtI/MTSS team to determine which students need interventions and for how long, using our RtI/MTSS plan. The After School Tutorial Program is held at the school from 3:30–5:00 PM Monday through Thursday for enrolled students. The programs focus is on Literacy across curriculum and STEM (Science, Technology, Engineering, & Math) skills. Homework assistance is a separate program provided by teachers after school on an as needed basis.

PROMOTION/RETENTION POLICY

The philosophy of our Academy is that all students are capable of learning if given the opportunity. In consideration for grade placement, we review the following:

- ✦ Academic Progress: mastery of grade level content expectations, summary test score data, teacher's observation of performance, ruling out of a disability;
- ✦ Social/Emotional Development: child's attitude toward school, peer and adult relationships, behavior in a school setting, attention span and task commitment and confidence in school;
- ✦ Physical Development: age in relationship to peers in grade level;
- ✦ Attendance: gaps in learning due to illness/excessive absences, change in school or other factors contributing to learning problems;
- ✦ Alternative Placements/Interventions: previous alternative grade placement (promotions/retentions), interventions that have been attempted (MTSS Tier 2/3 services, support services, etc.)

Practices designed to allow students to be placed at a higher-grade level for periods of time during the day due to their academic progress and instructional needs are in place at our Academy. A child could be double promoted if all of these conditions exist:

- ✦ The student has shown evidence of advanced mental age, high intelligence and outstanding academic ability and performance;
- ✦ The student's standardized achievement test scores support a double promotion;
- ✦ The student's physical maturity has been considered;
- ✦ The student demonstrates social and emotional maturity commensurate with the maturity level of students in the grade placement for which the student is being considered;
- ✦ Double promotion may be considered when acceleration has been successful.

Students should first be accelerated in the subject/content area where they show their highest ability. Additional subjects may be added if appropriate. The recommendation must be supported by both the professional staff and parents and the student should be involved in the decision-making process and should understand and support the placement.

A child may be considered for retention if a combination of the following criteria exists:

- ✦ The retention will benefit the child;
- ✦ The child is performing significantly below the grade level;
- ✦ The child demonstrates social/emotional immaturity;
- ✦ Poor habits, incomplete work and/or excessive absenteeism affects achievement;
- ✦ Additional factors may be considered in making a decision for retention. In some situations, it is in the best interest of the student that he/she not be retained, although the student may qualify as a retention candidate.

HONOR ROLL AND AWARDS

The Academy has an honor program that reflects excellence in academics and the intent of our monthly awards is to reinforce good behavior and build students' self-esteem. Our Awards Program includes several honor or award categories during and at the end of the school year.

HOMEWORK POLICY

Homework is schoolwork that is assigned and intended to be completed during study time allotted in class or at home as needed at the individual level. There are times when homework may not be assigned to all students based on need and proficiency levels so please refer to your child's agenda/planner to confirm homework requirements. Homework can include tasks that create a readiness for learning, review or reinforce information and skills presented in class, material that expands or enhances knowledge, exercises that combine concepts and ideas into projects, and activities that help prepare for a test or quiz.

Homework is an essential part of education. If the student fails to complete the assigned homework, the student may be subject to the disciplinary actions given at the discretion of the classroom teacher, but may not be punitive on the child's academic achievement (for example, loss of points, loss of credit, detention, etc.). A copy of each teacher's classroom rules regarding homework will be posted in their classrooms and also be available in the office.

Homework may be written, study, memory or research-type work. A teacher may send papers home for parents' observations and the parents' signature(s). These papers are to be signed and returned the next day.

The Academy encourages all parents/guardians to assist their children with homework in the following ways:

1. Set a regular homework time for your child that is at least one-hour long.
2. Designate a "homework place" in the house where the child will be comfortable and free from noise and other distractions.
3. Ask your child each day after school what homework they have been assigned.
4. Send a note to your child's teacher the following day for any questions you may have regarding your child's homework, or if there is an acceptable reason, why your child was unable to complete that night's assigned homework.
5. Praise your child often for trying, even if they sometimes have difficulty completing homework. Reward them for sticking to the homework schedule.

Always get in touch with your child's teacher if you have questions regarding your child's progress. All schoolteachers will require identical homework paper headings written in the upper right hand corner of the paper as applicable and assigned:

Your Name
 The Date
 The Class Period
 The Assignment

ACHIEVEMENT CAMPERS PROGRAM – ACP

The Academy strives to provide each student the tools necessary to succeed. Eligible students that require additional assistance on their school and homework can attend the after school-tutoring program, also known as ACE, available Monday through Thursday, from 3:30 PM to 5:00 PM for students in grades K to 6. Additionally, eligible students in grades 6th may opt to join a homework club to receive additional assistance from their teacher(s) after school, from 3:30 PM to 4:30 PM or as scheduled by their teacher(s).

ASSIGNMENT BOOK (PLANNER/PASSPORT)

SCHOOL BOOKS, RESOURCES AND SUPPLIES

SCHOOL BOOKS - STUDENT RESPONSIBILITY

Books are classroom resource tools of learning and are becoming increasingly expensive for the school to purchase. Teachers will issue student textbooks, trade books and/or other materials for the school year. These items are loaned to the student for that period of time. Once textbooks and/or library books are checked out to a student, the student becomes financially responsible for the condition and return of those books (with the exception of consumable workbooks). We do not expect students to deface schoolbooks in any way. Books should be covered and kept clean. At the time of issue, school personnel will note the condition of the book(s). The student will be expected to pay for any damage other than typical wear from use. If the book (or item) is not returned at the end of the school year for which it was issued, the parent/guardian must pay for it. If the book or item is returned in poor condition (damaged), the parent/guardian must pay a damage fee.

USE OF LIBRARY BOOKS

If a book is lost, a replacement fee must be paid. If the book is later found and returned, the money will be refunded less the overdue charge and any additional fees. DISCIPLINARY PROBATION OR CONTRACT

A student who has repeatedly been referred to the Dean of Student Affairs ("DSA") for minor infraction of school rules and regulations may be placed on disciplinary probation. A referral is considered a warning and may have some extended service/detention requirements connected to the referral. After having been warned regarding her/his behavior, the DSA will meet with the parents and student and set the terms of the probation. Referrals generally are associated but not limited to the following:

1. Continued disruption of class;
2. Open persistent conflict with the authority of the teacher or other authority;
3. Persistent talking, eating in class;
4. Smoking or possession of tobacco products or other substitute forms of cigarettes or lighted or electronic smoking devices on campus during school activities;
5. Habitual use of profanity/vulgarity;
6. Academic dishonesty/plagiarism or offering another person's work as one's own;
7. Repeated violations of the dress code;
8. Chronic lateness to school/classes, failure to show up for disciplinary detention;
9. Other serious violations as determined by the school.

Students on probation will be placed on a Behavior Modification Plan and must receive marks from teachers depending on the situation at hand (daily, weekly), in order to have the probation lifted at the end of a marking period.

Any student on Disciplinary Probation will not be allowed to participate in extra-curricular activities for the majority of time while on probation. Generally, probation lasts for one-half the school year. If a student continues to violate any school policy after being placed on a Behavior Modification Plan, he/she will be subject to expulsion.

NON-DISCIPLINARY CAUSES FOR SUSPENSION, EXPULSION, RECOMMENDED TRANSFER

The following are non-disciplinary causes for suspension, expulsion or recommended transfer:

- Uncooperative or destructive attitude of parents or students;
- It should be noted that parental action(s) can be the basis for the asking a student to either withdraw or be expelled;
- Any parent, guardian or other person, who instigates, insults or abuses a staff member of the school, in the presence or hearing of a pupil, is guilty of a misdemeanor. School will take the necessary precautions of the removal of the individual and police will be contacted;
- Any person who is suspected of disturbing the learning environment and daily function of a staff member will be subject to a misdemeanor and removal from school grounds for a period of time to be determined by the school Principal and Superintendent.

- If the staff member is insulted or abused by any person in the presence of other school personnel on school premises, on public ways adjacent to the school or at another place where the staff is assigned, that person is also guilty of a misdemeanor.

HARASSMENT

Harassment means any threatening, insulting or dehumanizing gesture, use of technology, or written, verbal or physical conduct directed against a student or Academy employee that:

1. Places a student or Academy employee in reasonable fear of harm to his/her person or damage to his/her property;

This violation may be grounds for long-term suspension and request for expulsion.

RACIAL HARASSMENT

The Academy does not tolerate racial harassment.

It is analyzed by the following two standards:

- **Different Treatment:** Unwanted behavior based on a student's race or color interferes with or limits the ability of a student to participate in or benefit from services, activities, or privileges.
- **Hostile Environment:** Racially based behavior that has the purpose or effect of creating an intimidating, hostile or offensive working or learning environment (unwelcome, repeated, and causes harm). May exist even if student's grades do not drop; he or she does not have to withdraw from school; nor does an employee have to suffer an emotional breakdown.

CONSEQUENCES FOR THREATENING/ INTIMIDATING/ SEXUAL/ RACIAL HARASSMENT

The threatening, insulting, dehumanizing gestures or intimidation of any person shall not be tolerated. Penalty for attacking, threatening or intimidating another student or school employee will result in suspension or expulsion from school. The threatening of a public employee is a Class D felony that may be punishable by law. All threats, real or in jest, may be reported to the police.

SEXUAL HARASSMENT

It is the policy of the Academy to maintain a learning and working environment that is free from sexual harassment. Sexual harassment is a violation of Title VII of the Civil Rights Act of 1964, as amended in 1991, and is against the policies of the Academy Board of Education for any employee, male or female, to sexually harass another employee, male or female, or student through conduct or communications of a sexual nature. It shall also be violation of this policy for students to harass other students or employees of the school through conduct or communications of a sexual nature. The use of the term "employee" also includes non-employees and volunteers who work subject to the control of school authorities. The Equal Employment Opportunity Commission (EEOC) has issued regulations stating that sexual harassment is unlawful. Sexual harassment will not be tolerated in the workplace.

Sexual harassment is defined in the final Rule as conduct on the basis of sex that satisfies one or more of the following:

1. **An employee conditioning the provision of an aid, benefit, or service of the public school academy on an individual's participation in unwelcomed sexual conduct**
2. **Unwelcome conduct that a reasonable person would find to be severe, pervasive, and objectively offensive denies a person equal access to the Academy's education program or activity**

3. “Sexual Assault” as defined in the Clery Act (20 U.S.C. 1092), and “dating violence”, domestic violence” and “stalking as defined in the Violence Against Women Reauthorization Act of 2012

If an individual’s allegations do not rise to the level of “sexual harassment” as defined in the Final Rule, the formal complaint must be dismissed. The infraction, however, may still be a violation of the Student Code of Conduct or Title VII.

For more information, visit the following link <http://www.niapsa.org/non-discrimination-policy/>

Conduct constituting sexual harassment may take different forms, including, but not limited to, the following:

1. Verbal:

3. Physical Contact:

Threatening or causing unwanted touching, contact, or attempts at same, including patting, pinching, brushing the body, or coerced sexual activity with or by a fellow staff member, student, or other person associated with the Academy, or third parties. With respect to students, the question of whether or not physical contact is unwanted or consensual is irrelevant where inappropriate contact is engaged in the Academy employees or other adult members of the Academy community.

** Student Discrimination/Harassment Complaint Form for reporting sexual harassment are available in the Principal’s Office. Consequences will result in an automatic suspension pending expulsion.

SEXUAL MISCONDUCT

The Academy is committed to maintaining an educational and positive environment free of any forms of sexual misconduct, assault, harassment, intimidation, violence, and manipulation. Any sexual nature reflecting or producing sexual desires or behaviors committed on school grounds, on a school bus, during any school activity, function, or event are opposing to the standards, values and mission of the Academy and **WILL NOT** be tolerated. Student will be held accountable for their actions and disciplinary measures will be taken immediately. POLICIES ON BULLYING AND OTHER AGGRESSIVE BEHAVIOR TOWARD STUDENTS

Providing a safe school environment for our students is of the utmost importance at the Academy. Bullying is one particularly troubling aspect of student misbehavior that endangers school safety. Bullying, which is the repeated abuse of a student over time by other students, can take many forms, including any combination of physical, emotional, and/or verbal abuse, all of which are unacceptable in our school. Harassment, intimidation or bullying are also defined as any gesture, written, verbal or physical act that a responsible person should know will have the effect of harming a student or damaging their property, or placing a student in a reasonable fear of harm, or has the effect of insulting or demeaning any student or group in such a way as to disrupt or interfere with the school's educational mission, or the education of any student.

Any one may report bullying, it will be documented and all cases followed-up with.

EXPECTED BEHAVIOR FROM EACH STUDENT

BULLYING AND CYBERBULLYING ARE PROHIBITED:

- **Bullying also includes "cyberbullying," therefore any reference in this policy to "bullying" shall also be deemed to refer to "cyberbullying."**
- Bullying is a form of harassment. For the purposes of this policy, bullying can be the repeated intimidation of others by the real or threatened infliction of physical, verbal, written, graphic, electronically transmitted, i.e. internet, telephone or cell phone, personal digital assistant (PDA), or wireless hand held device, emotional or psychological abuse, or through attacks on the property of another. It may include but not be limited to actions such as verbal taunts, name-calling, and put downs, including ethnically based or gender based verbal put downs, threats,

intimidation, stalking, cyberstalking, cyberbullying, physical violence, theft, sexual, religious or racial harassment, public humiliation, destruction of property and extortion of money or possessions.

- Such conduct is disruptive of the educational process and therefore, bullying is **unacceptable** behavior in our Hamadeh Educational Services Schools and is prohibited.
- Students who engage in any act of bullying while at school, at any school function, in connection to or with any District sponsored activity or even, or while in route to or from school are subject to disciplinary action, up to and including suspension and expulsion. Law enforcement officials shall be notified of bullying incidents, as required by law.

CYBERBULLYING

Use of the Educational Technology to engage in cyberbullying is prohibited. "Cyberbullying" is defined as the use of information and communication technologies (such as email, cell phone, pager text messages, instant messaging (IM), defamatory personal websites, and defamatory online personal polling websites, to support deliberate, repeated, and hostile behavior by an individual or group, that is intended to harm others (Bill Belsey, <http://www.cyberbullying.ca>).

Cyberbullying includes, but it not limited to the following:

Students shall be advised as to appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms, as well as cyberbullying awareness and response. Issues such as sending personal information, pictures, text or other material with sexual content (sexting), shall be addressed with students.

Restorative practices may be given first consideration to remediate offenses such as interpersonal conflicts, bullying, verbal and physical conflicts, theft, damage to property, class disruption and harassment and cyberbullying.

Any individual who is aware of a violation of the Board policy or this guideline, including inappropriate on-line contact, content, or conduct, such as sexting, harassment or cyberbullying, should bring it to the attention of the school principal or superintendent.

Such behavior includes, for example, bullying, hazing, stalking, intimidation, menacing, coercion, name-calling, taunting, making threats, and hitting/pushing/shoving.

These acts are prohibited, irrespective of the whereabouts of the student. A student will not destroy, damage, or otherwise tamper with a fire alarm system in a school building.

If a student enrolled in grade 6 or above makes a bomb threat or similar threat directed at a school building, other school property, or a school-related event, then the school Board or its designee shall suspend or expel the student from the school district for a period of time as determined in the discretion of the school Board, or its designee. 4. The Board of Education has provided a system of internal building control through closed-circuit television in our schools. Further information with regard to the system will be provided to parents by building administrators.

ELEMENTARY SAFETY PRECAUTIONS

1. Discuss safety regulations with your children.
2. Remind children to remain well on the shoulder of the road when walking to the bus stop or to school or waiting for a ride.

3. Be sure your child faces traffic when walking at any time and when walking to school.
4. All of us should be more alert while driving during the times when children are on the move.
5. If possible, it might be well for parents to arrange to be at the school and or bus stop to supervise the arrival and departure of their child(ren).
6. We make a practice of going outdoors for recess whenever the area is safe or when the weather is fit, please dress your children accordingly.
7. Kindergarten parents should please see that their children wear slacks or tights as they sit on the floor during their daily program.
8. If your children walk to school or are transported by you, please arrange to have them there no earlier than 15 minutes before the session begins.
9. Jewelry should not be worn at any time on school grounds.

PROFANITY/ ABUSIVE LANGUAGE, INSUBORDINATION

The use of any profanity word will have zero tolerance by the administration. Parents will be contacted and a mandatory meeting will be arranged before the student may return to school. No profanity/abusive language or insubordination will be tolerated at the Academy. Violations shall result in a detention, suspension, and/or expulsion. This policy is also in effect while participating in any school sponsored events or athletic programs, on or off campus.

WEAPONS POLICY (GUN/KNIFE FREE SCHOOL)

Students are forbidden to knowingly, and/or voluntarily possess, handle, transmit, or use any instrument that can be used as a weapon to harm or injure another person at school, at a school activity, on school grounds, or in school provided transportation. Students may not bring a firearm to school. A student bringing a firearm to school shall be expelled from school for a period of not less than one year unless the Superintendent modifies the expulsion requirement on a case-to-case basis in order to comply with the Individuals With Disabilities Act (Sec. 504).

The term “weapon” means any object which, in the manner in which it is used, is intended to be used, or is represented, is capable of inflicting serious bodily harm or property damage, as well as endangering the health and safety of persons. Weapons include, but are not limited to, firearms, guns of any type, including air and gas-powered guns (whether loaded or unloaded), knives, razors, clubs, electric weapons, metallic knuckles, martial arts weapons, ammunition, and explosives.

Students may not bring water guns, toy guns, or Bee-Bee guns to school. This is a serious safety issue. Such a device can be harmful and at minimum is intimidating. Students that bring a Bee-Bee gun to school will receive a three to five day suspension and or a request for expulsion. (Authorities will be contacted.)

Students may not bring a knife to school. A student bringing a knife to school shall be suspended from school for a period of not less than one day. Students bringing a knife to school for purpose of threatening its use to inflict fear, or attempted use, shall be expelled from school for a period of not less than one year, except to Sec. 504 similar to the gun policy.

The new law adds a rebuttable presumption that expulsion for possession of a firearm is not justified if both (a) and (b) are met:

(a) The school board or its designee determines in writing that at least 1 of the following factors) has been established in a clear and convincing manner.

1. The firearm possessed by the pupil was not possessed by the pupil for use as a weapon, or for direct or indirect delivery to another person for use as a weapon.
2. The firearm was not knowingly possessed by the pupil.
3. The pupil did not know or have reason to know that the object or instrument possessed by the pupil constituted a firearm.
4. The firearm was possessed by the pupil at the suggestion, request, or direction of, or with the express permission of, school or police authorities.

(b) The pupil has no history of suspension or expulsion.

DRUG FREE SCHOOL

The Board of Directors of the Academy recognizes that the use of drugs has serious legal, physical, and social implications for the entire school community. The Board is committed to the prevention of substance abuse and rehabilitation of drug users by educational means, but will take whatever steps may be necessary to protect members of the school community from harm and exposure to drugs.

Therefore, the Academy will provide a comprehensive age appropriate program that presents information and activities to encourage students to abstain from the use of alcohol and other drugs, creating a caring, nurturing environment in which clear institutional limits are set and establish an appropriate intervention program for students at risk. The success of the comprehensive program depends upon mutual involvement and cooperative relationships among parents, community, law enforcement, and schools.

It is the policy of the Academy to prevent and prohibit the manufacture, possession, use, sale, distribution, or intent to distribute any illegal or controlled mood altering chemical, drug paraphernalia, look-alike drug, or abused chemical on school property, school sponsored events, and on school buses. The Academy has zero tolerance for this activity.

Teachers have the right to refer students to the administration who are displaying behavior not normal to the student's normal behavior with reasonable suspicion. Students not complying with the above will be in violation of this policy. Students will not be allowed to return to school until a drug test is completed. Any of the Academy Students who are identified for suspicious behavior will be suspended until drug tests results show negative.

OFF-CAMPUS MISCONDUCT

A student's conduct off-school grounds and during non-school time can still be grounds for disciplinary action up to and including suspension and expulsion if there is a reasonable likelihood that the student's return to school would contribute to a disruptive effect on the educational process. A threat to the school's orderly operations, the safety and welfare of the people who work or study at school, and the safety of school property are examples. Such off-school misconduct may include, but not be limited to the use, possession, sale or distribution of dangerous weapons or illegal drugs, or violent conduct when reasonable doubt is established.

FIGHTING

Fighting is never in order. Intentionally causing or attempting to cause bodily harm to any student or school employee on the school grounds will not be tolerated, either immediately before, during, or after school hours or on the school grounds at any other time that the school is being used by a school group, such as off school grounds at an educational function or event in which the school is a participant, or such as when a student is traveling to or from such an event in a school provided conveyance.

PHYSICAL & WRITTEN ASSAULTS AGAINST SCHOOL DISTRICT EMPLOYEES, VOLUNTEERS OR CONTRACTORS

Subject to due process requirements set forth in this Student Code of Conduct and Disciplinary Steps, students in Grade 6 and above who commit a physical assault against a School District employee, volunteer or contractor at school shall be permanently expelled from school. Students may be subject to potential reinstatement after the expiration of 180

school days, under the procedure set forth in this Student Code of Conduct. A written assault against a school district employee, volunteer or contractor at school shall result in the student being permanently expelled from school. Physical & written assaults are also unacceptable behavior and will not be tolerated.

VERBAL ASSAULT AGAINST SCHOOL DISTRICT EMPLOYEES, VOLUNTEERS OR CONTRACTORS

"Verbal assault" means an oral threat of an immediate harmful or offensive touching, coupled with an apparent immediate ability to commit same, and which puts a person in a reasonable apprehension of such a touching; or the use of offensive language directed at a person, where such language is likely to provoke a reasonable person to physical violence.

Subject to due process requirements set forth in this Student Code and Disciplinary Steps, students in grade 6 and above who commit a verbal assault against a School District employee, volunteer or contractor at school shall be suspended from school as set forth in the Disciplinary Steps and/or face expulsion.

ASSAULT AND BATTERY

Any attack upon a student or staff member is considered an assault and battery when any of the following occurs:

- A. Serious injury.
- B. The victim attempts to avoid the altercation but is nevertheless attacked.
- C. Three or more individuals are involved simultaneously in assaulting the individual.

Assault and battery will cause an immediate expulsion and authorities will be contacted.

GANG/NON-GANG RELATED GRAFFITI

Any type of gang-related symbols, colors, etc., will not be allowed on school grounds, either at an educational event or function that is off school grounds, or when traveling to or from school or such educational event or function. The student will be responsible to fix the problem and/or pay for the damages.

HAZING²

Hazing activities of any type are inconsistent with the educational process, a violation of Michigan criminal law, and are prohibited at all times. Hazing means an intentional, knowing, or reckless act by a person acting alone or acting with others that is directed against an individual and that the person knew or should have known endangers the physical health or safety of the individual, and that is done for the purpose of pledging, being initiated into, affiliating with, participating in, holding office in, or maintaining membership in any organization. Permission, consent, or assumption of risk by an individual subjected to hazing does not lessen the prohibition.

INSUBORDINATION

When any student intentionally fails to comply with the direction of teachers, supervisors, administrators or other school personnel during any period of time when under school's supervision, the student may be subject to the following disciplinary action.

FORGERY OF NOTE

The act of falsely and fraudulently marking or altering a document or statement, i.e. physician, parent, pass, etc.

PLAGIARISM/CHEATING POLICY

Cheating or plagiarism in any form is considered a serious violation of expected student behavior and may result in disciplinary action. All faculty and students are encouraged to review the following formal **policy on cheating** and plagiarism

The following policies apply to all students, regardless of which learning plan they choose; virtual, in person or blended. All students must review and agree to the testing policies listed below before accessing their exams.

- **Students must remain within the exam site at all times.** Authorized materials will be made available in the exam. Attempting to access external websites and/or course materials in the course site is never permitted and will invalidate the exam

² MASB 8320 Hazing; NEOLA 5516 Student Hazing; MCL 750.411t

- **Students may not use notes, calculators, or other materials unless otherwise stated in their course site.** Any unpermitted materials (including smart devices, such as cell phones and smart watches) must be stored away from the testing area. All electronic devices must also be turned off.
- **Random security checks may be conducted at any point during the exam.** Students must comply with all security checks; time lost during these security checks cannot be made up.

Plagiarism is the act of copying, imitating or claiming the work of another author as one’s own. It is considered fraud and is closely related to forgery and piracy violations, which have resulted in prosecution in a court of law. Where it has been established that a student has been dishonest/cheated/plagiarized with regard to an assignment, examination or any other school related work or activity, consequences will follow. A student so identified will face the following action:

- First Offense:** Receive a zero, parent notification, Reflection assignment
- Second Offense:** Receive a zero, one to three day suspension
- Third offense:** Withdrawn from that class for that marking period and will receive an "F"

ELECTRONIC DEVICES POLICY RELATED TO STATEWIDE TESTING

Requirement	Description
No student access to electronic devices	<p>Students are not permitted to access any electronic devices used for communication, for capturing images of the test or testing room, or for data storage (e.g., smartphones, smart watches, cell phones, book readers, electronic tablets, pagers, cameras, non-approved calculators, music players, voice recorders, etc.) that can disrupt the testing environment, or be used to compromise the validity, security, and confidentiality of the test. At a minimum, these devices must be powered off and stored away from the students’ work area at all times during a test session. These devices cannot be used as a substitute for a calculator. Specific calculator policies are covered in the Test Administrator Manuals particular to each assessment.</p> <p>If a student accesses any of these devices during testing, this will constitute a prohibited behavior and the student’s test results in that content area will be invalidated.</p> <p>In some cases, certain state-mandated assessments (e.g., some Michigan Merit Exam components) may dictate a differing prohibited device policy. For example, some assessments may require that all prohibited devices be collected before a student enters the testing environment. In such cases, the differing prohibited device policy overrides the prohibited device policy found in the <i>Assessment Integrity Guide</i>. Educators with questions pertaining to devices for students with disabilities, should refer to the Supports & Accommodations Guidance Document.</p>
Secure test materials	All secure test materials must be kept secure at all times.

****Students must have a signed user name on file to use the computers.**

COMPUTER TRESPASSING

A person who knowingly or intentionally accesses a computer system, a computer network, or any part of a computer system or computer network without the consent of the owner of the computer system or computer network, or the consent of the owner's licensee, commits computer trespass, a Class A misdemeanor. As added by P.L. 35-1986, Sec. 3. Computer trespass may result in losing computer usage, suspension or expulsion from school.

COMPUTER LAB RULES

1. No student is to be in the computer lab without a teacher present.
2. No food or drink will be allowed in the computer lab at any time.
3. Use your assigned computer at all times.
4. No outside disks may be brought into the computer lab. The disk used at school may not be taken out of the classroom. Do not upload software or files onto any school computer.
5. Do not change the configuration of any program on the computer. This includes desktop colors, screensavers, fonts, or other options that appear on any page of any program. Do not play computer games.
6. Do not save any information on the C drive (in My Documents).
7. Do not force any component of the computer, including disks, to make them work. If you have any trouble, ask your teacher for help.
8. Do not turn your computer off. Computers are to stay on all day.
9. Exit the document(s) you have been working on before leaving at the end of the class (click the black X in the upper right hand corner). Turn the mouse upside down beside the monitor and push chairs in.
10. Return disks to the teacher before leaving class.
11. Absolutely no horseplay will be tolerated in the computer lab.
12. Since students use assigned computers, they may be held responsible for any damage or misuse. Penalties for damage or misuse may be monetary and/or disciplinary.

VIDEO SURVEILLANCE

The interior and exterior of the Academy are under surveillance by video equipment. The surveillance system is in place to insure the safety of the Academy's students, staff and visitors. A recording may be used as evidence by the administrators or by the police in any situation involving the violation of any rule, regulation, policy or law.

OTHER USES OF FORCE

Corporal punishment of a student in the form of slapping, striking, pulling of ear or hair or pushing a student is an inappropriate disciplinary action and is forbidden; however, school employees may, within the scope of their employment, use and apply such amount of force and restraint as is reasonable and necessary to quell a disturbance threatening physical injury to others, to obtain possession of weapons or other dangerous objects upon the person or within the control of the student, for the purpose of self-defense or for the protection of person(s) and/or property. Corporal punishment of any students with an identified handicapping condition is prohibited.

CLASSROOM MANAGEMENT

Each teacher is fully responsible for the discipline in his/her classroom and will collaborate with students to develop a classroom management system appropriate for that age level to help students understand and integrate these guidelines and rules into their daily activities. Teachers are responsible for making their classroom management system known to all staff, volunteers and parents of their students to promote partnership and support to carry out the rules and guidelines, ensuring uniformity in understanding, interpretation, and implementation of the system.

1. Parent contact: In the event that normal classroom management systems are not sufficient to correct disruptive or disrespectful behavior, the teacher will contact the parents. The parents will be responsible for discussing the problem with the child and assisting the child to correct the behavior.
2. Parent-teacher conference: If the behavior continues, a mandatory parent-teacher conference will be scheduled with the teacher. If both the parent and teacher agree, the child may be included in the meeting. The teacher or parent may request that an administrator be present. The parent may also be required to observe in the classroom.

3. Staff intervention:

If the problem does not improve, the Dean of Student Affairs ("DSA") will call the parents to schedule another conference to determine the most appropriate course of action. It may be recommended that a Student Study Team, consisting of teacher(s) and other appropriate staff, be convened to develop and appropriate action plan. The members of this team will work with the family and teacher to cultivate healthy classroom and playground behavior.

DETENTION/REFLECTION

Detention/Reflection is a classroom and school-wide management tool that may be assigned to students for discipline problems that arise. Reflection Time: Students who are issued One Hour Reflection (OHR), Half Day Reflection (HDR) or Full Day Reflection (FDR) time will be given their tasks for the period(s)/day from their teachers to complete in the Dean of Student Affairs' office.

Detention/Reflection will be served:

Mondays through Thursdays: 3:30 PM - 5:00 PM for all grades K to 6.

Fridays: 12:30 – 2 PM

The student's parent/legal guardian will be notified in writing and by phone a day in advance of Reflection/ Detention. Students who skip their scheduled detention will be given one (1) other day to make it up. If the student does not show up for the makeup date, they will be issued a one-day reflection or out of school suspension.

SUSPENSION VARIABLES

An out-of-school suspension is a temporary dismissal from classes or school from one to ten days. Upon the DSA or Principal's discretion, two Friday detentions may be assigned in lieu of a one (1) day suspension.

OUT-OF-SCHOOL SUSPENSION

Students who repeatedly violate the rules and regulations of conduct may be subject to an out-of-school suspension for 1-10 days as determined by the Principal's Office. Notice will be provided to the parents/guardians. Students who are suspended will not be eligible to participate in after-school activities. STUDENT RESPONSIBILITIES

Dear student,

We welcome you to the Academy, and hope that we can all work together to make the school a good environment for you to learn and be able to achieve your full potential. In order to do so, it is necessary to have rules and regulations that we can all follow. If you observe your environment, you will see that every single aspect of the world lives by rules and regulations; you can look how the sun rises and sets according to a certain path, and the planets and the moon each have their own path. Just imagine that the earth decides to stop moving, or the sun decides not to send its rays, there would be no life on earth. Take, for example, how the water becomes vapor, and then it becomes clouds, which will become rain and snow. All of this takes place according to rules and regulations. Just imagine what would happen if we did not have traffic lights? We would have so many accidents making it almost impossible to drive.

So we hope by now you understand the importance and the need for rules and regulations.

In order to create a safe environment for learning, each one of us has to be responsible for his/her actions. **Actions have rewards and consequences** depending on how we act. If we act in a way that will help others, then we will be rewarded. However, if we act in a way that will harm others, then there will be consequences.

Our intention is to use a code of discipline that consistently emphasizes responsibility, accountability, and fairness. Based upon what has been said, we ask you to read the following responsibilities carefully. Take them seriously, and follow them.

SUSPENSION AND EXPULSION PROCEDURES & APPEAL PROCESS

Effective Aug. 1, 2017, and pursuant to MCL 380.1310d, the following changes have occurred regarding our school discipline practices. The new laws:

- The new laws end state-mandated expulsions (except firearm possession with intent to use).
- The new laws require districts to consider the 7 factor test (below) before all suspensions and expulsions (except possession of a firearm with intent to use);
- The new laws state that removals over 10 days are NOT JUSTIFIED, unless a district can prove it is justified after considering ALL 7 factors of the 7 factor test.
- The new laws state that School districts MUST consider each of the 7 factors before ANY suspension (even 1 day) or expulsion under section 1310 (physical assault of a pupil), 1311(1) (gross misdemeanor or persistent disobedience), 1311(2) (possesses in a weapon free school zone a weapon that constitutes a dangerous weapon (excepting firearms), commit arson in a school building or on school grounds, or commits criminal sexual conduct in a school building or on school grounds), or 1311a (assault by pupil against employee, volunteer, or contractor):
- The 7 Factors are as follows:
 - Age
 - Discipline history
 - Disability status
 - Seriousness of behavior
 - Safety threatened?
 - Would restorative practices work in this situation?
 - Would another alternative to suspension address the behavior?
- The new laws state that if a pupil establishes one of these factors, expulsion becomes discretionary. If not, the LEA must expel permanently, subject to reinstatement after 90 days for students in grade 5 or below or 180 days for students grade 6 or above.
- The new laws require districts to consider the use of restorative practices, especially when there are verbal and physical conflicts, bullying, theft, damage to property, class disruption, harassment and cyberbullying.
- Restorative practices focus on teaching the student who misbehaved and offering that student a chance to "repair the harm" that he or she caused.
 - The law gives examples such as apologies and community services.
- The new laws redefine expulsions as exclusion for 60 days or more.
- The new laws redefine suspensions to fewer than 60 days.
- The new law adds a rebuttable presumption that expulsion for possession of a firearm is not justified if both (a) and (b) are met:
 - The school board or its designee determines in writing that at least 1 of the following factors) has been established in a clear and convincing manner.

- a. The firearm possessed by the pupil was not possessed by the pupil for use as a weapon, or for direct or indirect delivery to another person for use as a weapon.
- b. The firearm was not knowingly possessed by the pupil.
- c. The pupil did not know or have reason to know that the object or instrument possessed by the pupil constituted a firearm.
- d. The firearm was possessed by the pupil at the suggestion, request, or direction of, or with the express permission of, school or police authorities.
 - The pupil has no history of suspension or expulsion.

NOTE:

Students must still be expelled if they possess a firearm at school (with some exceptions).

New Definitions of Note:

- Expel: to exclude a student from school for disciplinary reasons for a period of 60 or more days.
- Suspend: to exclude a student from school for disciplinary reasons for a period of fewer than 60 days.
- Firearm: (A) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (B) the frame or receiver of any such weapon; (C) any firearm muffler or firearm silencer; or (D) any destructive device. Such term does not include an antique firearm. (defined in Title 18 of the United States Code, 18 USC 921)
- Restorative practices mean practices that emphasize repairing the harm to the victim and the school community caused by a pupil's misconduct. This may include victim-offender conferences that are initiated by the victim; that are approved by the victim's parent or legal guardian or, if the victim is at least age 15, by the victim; that are attended voluntarily by the victim, a victim advocate, the offender, members or the school community, and supporters of the victim and the offender; and that provide an opportunity for the offender to accept responsibility for the harm caused to those affected by the misconduct and to participate in setting consequences to repair the harm.

In the investigation, the student shall be advised of the misconduct with which he or she is charged, the evidence supporting the charges, and shall be given the opportunity to present his or her version of the alleged incident(s). At the discretion of the investigator, other persons may be interviewed, may be requested to attend the hearing, or otherwise requested to provide information, which will tend to assist in the resolution of the charges.
- b. Where, upon the conclusion of an investigation of the charges, the investigator determines that the student has engaged in misconduct which merits the imposition of a long-term suspension or expulsion, the investigator shall recommend, in writing, to the Superintendent who has not investigated the charges that the student be so disciplined, identifying the basis upon which his or her recommendation is founded. The investigator may also, upon making such determination, impose an immediate suspension of the student, pending further review of the recommendation.
- c. Upon receipt of the recommendation from the investigator for a long-term suspension or expulsion of a student, the Superintendent or designee shall review such recommendation and shall determine, based upon the information before him or her, whether to: (1) retain the matter for a hearing to determine the appropriateness of a long-term suspension, (2) forward the matter to the Board of Education for a hearing to determine the appropriateness of expulsion or (3) take such other action as is appropriate.

In the event that it is determined that the student is handicapped, and in the case of a student who has previously been determined to be handicapped, an IEPC shall be convened to determine whether the events which are the subject of the charges were proximately related to the handicapped condition. In the event it is determined that either the student is not handicapped or, if handicapped, the events which are the subject of the charges were not proximately related to the student's handicap, the foregoing procedures shall resume from the point at which they were suspended. In the contrary event, the charges shall be dismissed and an appropriate special education placement shall be determined.

After an expelled student's absence from school for the remainder of the marking period during which the incident leading to the expulsion occurred and the one regular school marking period (generally half the school year) following, the student or, on behalf of the student, the student's parent(s) or guardian(s) may seek readmission by applying to the Board of Education through the Superintendent or his designee. The Board of Education may, in its discretion and subject to paragraph (3b), below, choose to readmit the student if he or she can satisfactorily demonstrate that he or she made a sincere effort at rehabilitation subsequent to the expulsion and will not represent a threat to the safety and welfare of the students of the Academy. The Board of Education shall base its decision in part on

the severity of the incident leading to expulsion. The Board of Education may further qualify readmission upon specified conditions, which it determines are appropriate. Such applications shall be filed no earlier than forty-five (45) days prior to the commencement of the marking period for which readmission is sought. The decision of the Board of Education on a question of readmission is final.

- b. The Superintendent and the Board of Directors may expel any student found to have committed an expellable offense(s) listed above in the “Grounds for Suspension and Expulsion”. Except for expulsion for offenses listed under Schools Policy Code, a student may only be expelled if the Superintendent finds that the student committed the expellable offense and that at least one of the following findings is substantiated:

1. That other means of correction is not feasible or have failed to bring about proper conduct.
2. That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others.

EXPULSION RIGHTS

A student recommended for expulsion is entitled to a hearing to determine whether the student should be expelled. The student will be suspended during the expulsion process. The hearing shall be held in a timely manner, not to exceed thirty (30) days after the Superintendent or designee determines that one of the acts listed under “Grounds for Suspension and Expulsion” has occurred. The hearing will be presided over by the Superintendent. Written notice of the hearing shall be forwarded to the student and the student’s parent/guardian at least ten (10) days before the date of the hearing. The notice shall include:

1. The date and place of the hearing.

4. Notification of the student or parent/guardian’s obligation to provide information about the student’s status in the Academy to any other district in which the student seeks enrollment.
5. The opportunity for the student or the student’s parent/guardian to appear in person or to employ and be represented by counsel.
6. The right to inspect and obtain copies of all documents to be used at the hearing.
7. The opportunity to confront and question all witnesses who testify at the hearing.
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student’s behalf including witnesses.

Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

Presentation of Evidence: While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of

serious affairs. The decision to expel must be supported by substantial evidence that the student committed any of the acts listed in “Grounds for Suspension and Expulsion” above.

Findings of fact shall be based solely on the evidence at the hearing. While no evidence shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to unreasonable risk of physical or psychological harm.

Written Notice to Expel: The Superintendent or designee shall send a written notice of the decision to expel to the student or parent/guardian. This notice shall include the following:

1. The specific offense committed by the student for any of the acts listed in “Grounds for Suspension and Expulsion” above.
2. Notice of the right to appeal the expulsion to the Board of the Academy.
3. Notice of the student or parent/guardian’s obligation to inform any new district in which the student seeks to enroll of the student’s status with the Academy.

DISCIPLINE OF STUDENT WITH DISABILITIES

The standards of conduct contained within this policy apply to all students including those students enrolled in special education, Section 504, those suspected of a disability or the district has knowledge that the student is suspected of having a disability. However, due to the unique needs of these students, appropriate disciplinary action will vary in accordance with local, state and federal laws.

STUDENT WITH A DISABILITY (IDEA) DEFINED

“Student with a Disability” means an individual enrolled in school who is under 26 years of age and who is determined by an Individualized Education Planning Committee (IEPC) or a hearing officer to have a characteristic or set of characteristics that necessitates special education or ancillary and other related services, or both. Determination of impairment shall not be based solely on behaviors relating to environmental, cultural, or economic differences. These individuals are commonly referred to by local, state, federal and education agencies as students who are included in the Individuals with Disabilities Act or IDEA Students.

ACCOMMODATING PERSONS WITH DISABILITIES

Persons with disabilities will be provided an opportunity to participate in all school-sponsored services, programs, or activities. Persons with disabilities having questions about accessibility or needing accommodations should contact the Superintendent or building Principal. Notification of the need for accommodation should occur as far in advance as possible of the school-sponsored function, program, or meeting.

SECTION 504 STUDENT DEFINED

“Section 504 student” means any student with a physical or mental impairment, which substantially limits one or more major life activities, has a record of such impairment, or is regarded as having such impairment. Major life activities mean functions such as caring for one’s self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, or working. The student has a 504 Evaluation, Summary and Educational Plan (504 EP) developed by a 504 committee.

All IDEA students are under Section 504. However, not all Section 504 students are IDEA. Implementation of Section 504 is the responsibility of regular education.

Students Suspected of a Disability or the District has the knowledge that a student is suspected of being disabled.

Students suspected of a disability are those:

- Who have requested a disability evaluation;
- Whose parent(s) have requested a disability evaluation;
- Whose parent(s) have expressed concern in writing to school personnel that their child is in need of special education and related services;
- Whose behavior or performance demonstrates the need for special education services; or

- Whose teacher, or other personnel, has expressed concern about the student’s behavior or performance to the school Principal.

Short-Term Suspension/Long-Term Suspension/Expulsion/Expulsion of Students Suspected of Being IDEA or 504 Eligible

When considering the short-term/long-term suspension, administrative transfer or expulsion of a general education student, if there is reasonable cause to believe that the student is eligible under IDEA or Section 504 or is suspected of being disabled, the student must “Stay Put” in the current educational placement and is immediately referred for evaluation. If the evaluation determines that the student has a disability, then all disciplinary action must cease and the student must be referred for appropriate action. If there is not a disability, the student should be referred for appropriate disciplinary action.

IDEA or Section 504 Students Short Term Suspension/Long Term Suspension/Administrative Transfer/Expulsion of IDEA or 504 Eligible Students

Whenever an administrator is considering disciplinary action involving removal of a special education or 504 eligible students, the student’s records shall be reviewed to determine the total number of days during the current school year that the student has missed due to disciplinary action. Once the number of days that a student has been out of school due to disciplinary action has been determined, the following procedures must be followed.

Under federal laws, an IDEA/504 student facing disciplinary removal from school, who has already been removed from school for a total of ten school days during the current school year due to disciplinary action, must “Stay Put” in the current placement pending an IEPC/504 EP hearing unless parents agree to waive the student’s right to “Stay Put” in the current placement or agrees to an alternative placement. Similarly, whenever the parents appeal the determinations of an Individualized Education Planning Committee (IEPC)/504 EP reviewing the behavior of an IDEA/504 eligible student being considered for disciplinary action, the student has the right to “Stay Put” in the current placement unless the parents agree to waive the student’s right to remain in the current placement or agrees to an alternative placement.

In cases where the appropriate administrator believes that to permit the student to “Stay Put” in a current or alternative placement pending a hearing, an IEPC/504 EP review or an appeal is likely to create an imminent danger or injury to the student or others, there are four options to effect the students removal: 1) obtain a court order by contracting the Office of Legal Affairs; 2) obtain a final IEP/Section 504 determination that the behavior was not a manifestation of the disability and proceed with normal discipline; 3) conduct an expedited hearing with a hearing officer appointed by the Michigan Department of Education and obtain a decision, based on substantial evidence that maintaining the current placement is substantially likely to result in injury to the student or others, to place the student in an alternative educational setting for not more than 45 days: and, 4) by agreement with the parents.

A handicapped student may be subject to short-term/long-term suspension; Administrative Transfer or Expulsion due to disciplinary actions exceeding a total of ten (10) school days within a school year only after an IEPC/504 EP determines that:

- The behavior is not a manifestation of the student’s handicap,
- The eligibility placement is appropriate, and
- The student is receiving the services designated by the IEPC/504 EP.

If the IEPC/504 EP determines that the behavior is a manifestation of the handicap or the student’s eligibility has not been appropriately determined or the IEPC/504 EP does not currently reflect the special education/504 plan’s programs and services to meet the student’s unique educational needs, then the District may not consider disciplining the student.

Note the following specific guidelines regarding students with disabilities:

- Evaluation for suspected, “has knowledge”, IDEA or Section 504 eligible students takes precedence over other evaluations.
- If the matter involves the use/possession of drugs or alcohol by a Section 504 student, then the discipline may proceed without convening a 504 Educational planning meeting.
- Pursuant to IDEA’S proposed implementation regulations, suspensions beyond the accumulation of 10 days, must either be held in abeyance pending the results of the evaluation or be administered in a manner that continues to provide the student with a free and appropriate education during the suspension.

- Federal laws afford school districts the right to request an expedited due process hearing to have an interim alternative placement ordered for up to 45 calendar days when it is believed that maintaining the student’s current placement is substantially likely to result in injury to himself or others. The mandate also affords school personnel the right to order, at their own discretion, an interim alternative placement for up to 45 calendar days when the situation involves a weapon or drugs. Both types of placements can be requested/ordered even if the problem behavior was determined to be a manifestation of the student’s disability or in the case of evaluating a student where the school suspects or has knowledge of a disability.

RECORDS

- When students are denied the opportunity to attend their assigned school because of a short-term suspension, long-term suspension or administrative transfer, the Dean of Student Affairs ("DSA") or designee will complete a suspension report. The same process will be followed when corrective action requires a contract with parents, even though the student may continue in regular attendance.
 - Each school will complete Disciplinary Action Worksheets, enter information into the computer indicating the number of in-school suspensions, short-term suspensions, administrative transfers, long-term suspensions, type of behavior leading thereto and the number of days of the suspension
- * As used in this document, the word “days” means school days.**

MISCELLANEOUS

- This document supersedes and replaces any and all documents or portions thereof, with which it may be in conflict.
- In the event that a portion of this document is determined to be contrary to law, the particular provision will be considered null and void, but the remainder shall continue in full force and effect.
- This document is designed to inform students of the Academy, and their parent(s) or guardian(s), about the student citizenship code, appeal procedure, and aspects of student behavior. Local school or classroom rules are published by the classroom teacher, Principal, or Superintendent and distributed as newsletters or memos and are to be read in conjunction with the Code of Student Conduct. To the extent, such school rules are inconsistent with this Code of Student Conduct; the Student Code of Conduct shall take precedence.
- A copy of this Code of Student Conduct shall be given to each family and to each student upon enrollment at the Academy. Parents shall be informed annually of the existence of this Code of Student Conduct at such time and in such manner as directed by the Board of Education from time to time. However, such notices shall not be a precondition to the imposition of discipline in accordance with this policy or state or federal law. When the Code of Student Conduct requires an administrator to inform a student of his/her right to appeal any disciplinary decision, a copy of this Code of Student Conduct shall be provided upon request of the student or his or her parent(s) or guardian(s).

**STUDENT NETWORK/INTERNET ACCEPTABLE USE & SAFETY AGREEMENT
SOCIAL MEDIA & NETWORKING GUIDELINES AGREEMENT &
STUDENT EMAIL ADDRESS AGREEMENT**

The use of the School District's network, Internet and technology resources by students is a privilege, not a right. As a prerequisite, students and their parents or legal guardian must sign and submit a Student Network and Internet Acceptable Use and Safety Form annually.

The District uses a technology protection measure that block or filters Internet access to some Internet sites that are not in accordance with the District policy. It must protect against access by adults and minors to visual depictions that are obscene, pornographic material, child pornography, "harmful to minors". This technology protection measure may be disabled by a District staff member for bona fide research and lawful purposes by an adult. The District staff members may override the technology protection measure that blocks or filters Internet access for a student to access a site with legitimate educational value that is wrongly blocked by the technology protection measure that blocks or filters Internet access. The District staff will monitor students' use of the Internet, through either direct supervision, or by monitoring Internet use history, to ensure enforcement of the policy. Filtering must be applied to all computers/devices that are either owned by the academy or used at the academy. The Academy will educate all students about appropriate online behavior, including, but not limited to, interacting with other individuals on social networking websites and in chat rooms and cyberbullying awareness and response annually

Student Expectations in Use of the District Network, Internet and Technology:

- a. Students shall not access material that is obscene, pornographic material, child pornography, "harmful to minors", inappropriate text files, or files dangerous to the integrity of the network from entering the District via the Internet, flash/thumb drive, or diskette or otherwise inappropriate for educational uses.
- b. Students shall use school e-mail services and Internet access only when authorized and supervised.
- c. Students shall not use District resources to engage in "hacking and other unlawful activities" or attempts to otherwise compromise system security, including bypassing the District's e-mail and/or Internet filtering systems and features.
- d. Students shall not engage in any illegal activities on the Internet including plagiarizing work or violating copyright or trademark laws.
- e. Students shall only use electronic mail, education portal and communication tools, social media, chat rooms, and other forms of direct electronic communications for District-related and educational purposes.
- f. Students shall not disclose, use or disseminate personal information regarding minors, such as name, District, Academy, address, and telephone number outside of the District's network.
- g. Students accept the responsibility to avoid malicious use of the network to develop or use programs that harass other users or infiltrate a computer or computing system and / or damage the software components of a computer or computing system.
- h. Students accept the responsibility of adhering to all copyright guidelines in the uses of hardware, software, and the transmission or copying of text or files on the Internet from other resources.
- i. Students' responsibility to do their best to keep viruses off any District equipment. Students will be held accountable for any deliberate attempts to install and or run a computer virus.
- j. Students' responsibility to use the computer equipment appropriately by not making any modifications to existing software or hardware by abusing, damaging, destroying, removing, relocating, or making any other changes to the equipment.
- k. Students are responsible for appropriate language in all documents on the computer. The use of abusive or otherwise objectionable language in either public or private messages, via the Internet (chats, social media, newsgroups, or others) is considered a violation of these guidelines.

Social Media

HES & the Academy understand the importance of teachers, students and parents engaging, collaborating, learning, and sharing in digital environments. To this aim, HES and the Academy have developed the following guidelines for students and parents when participating in online social media activities. Whether or not a student or parent chooses to participate in a blog, email, wiki, online social network or any other form of online publishing or discussion it is his or her own decision, however, information produced by HES and the Academy students and parents is a reflection on the entire district and is subject to the district's Acceptable Use Policy. By accessing, creating or contributing to any blogs, email, wikis, podcasts or other social media for classroom or district use, you agree to abide by these guidelines. Please read them carefully before posting or commenting on any blog or creating any classroom blog, wiki and/or podcast.

Student Guidelines

Due to the wealth of new social media tools available to students, student products and documents have the potential to reach audiences far beyond the classroom. This translates into a greater level of responsibility and accountability for everyone. Below are guidelines students of the Academy must adhere to:

- a. Be aware of what you post online and send by email. Social media venues are very public. What you contribute leaves a digital footprint for all to see. Do not post anything you would not want friends, parents, teachers, or a future employer to see.
- b. Follow the school's code of conduct when writing online. It is acceptable to disagree with someone else's opinions, however, do it in a respectful way. Make sure that criticism is constructive and not hurtful. What is inappropriate in the classroom is inappropriate online.
- c. Be safe online. Never give out personal information including but not limited to last names, phone numbers, addresses, exact birthdates, videos and pictures. Do not share your password with anyone besides your teachers and parents.
- d. Students are not to interact with faculty/staff via email, chat, IM, Facebook, Instagram, Twitter, SnapChat, TikTok, WhatsApp, Kik, Slack or any other social networking program, site or other modality without the written consent of the parent(s) or legal guardian.
- e. Do your own work! Do not use other people's intellectual property without their permission. Be aware that it is a violation of copyright law to copy and paste other's thoughts. It is good practice to hyperlink to your sources.
- f. Be aware that pictures may also be protected under copy write laws. Verify you have permission to use the image or it is under Creative Commons attribution.
- g. How you represent yourself online is an extension of yourself. Do not misrepresent yourself by using someone else's identity.
- h. Blog, emails and wiki posts should be well written. Follow writing conventions including proper grammar, capitalization, and punctuation. If you edit someone else's work, be sure it is in the spirit of improving the writing.
- i. If you run across inappropriate material that makes you feel uncomfortable or is not respectful, tell your teacher right away.
- j. Students who do not abide by these terms and conditions may face disciplinary action as detailed in the Student Network / Internet Acceptable Use & Safety Agreement.

Parent Guidelines

Classroom blogs and other social media are powerful tools that open up communication between students, parents, and teachers. This kind of communication and collaboration can have a huge impact on learning. HES and its Academies encourage parents to manage, view and participate in their child's online activities.

Parents are required to adhere to the following guidelines:

- Parents should expect communication from teachers prior to their child's involvement in any project using online social media applications, i.e., blogs, emails, wikis, podcast, etc.
- Parents may be asked to sign a release form for students when teachers set up social media activities for classroom use. Staff must have parent's written permission before child can communicate with staff using email, chat, IM, Facebook, Instagram, Twitter, SnapChat, TikTok, WhatsApp, Kik, Slack or any other social networking program, site or other modality of digital or electronic communication that is not provided for by the Academy.
- Parents will not attempt to destroy or harm any information online.
- Parents will not use classroom social media sites for any illegal activity, including violation of data privacy laws.

- Parents are highly encouraged to read and/or participate in social media projects.
- Parents may not distribute any information that might be deemed personal about other students participating in the social media project.
- Parents may not upload or include any information that does not also meet the student guidelines.

Online Classroom/Blogging Safety Policy for Students

- A student will only participate in classroom associated blogging/social media with written parental consent.

ALLERGY MANAGEMENT POLICY

The Academy is committed to providing a safe and nurturing environment for students. The Academy understands the increasing prevalence of life threatening allergies among school populations. Recognizing that the risk of accidental exposure to allergens can be reduced in the school setting, The Academy is committed to working in cooperation with parents, students, and physicians, to minimize risks and provide a safe educational environment for all students. The focus of allergy management shall be on prevention, education, awareness, communication and emergency response.

The goals for allergy management include:

1. To define a formal process for identifying, managing, and ensuring continuity of care for students with life-threatening allergies across all transitions (PreK-5).
2. To maintain the health and protect the safety of children who have life-threatening allergies in ways that are developmentally appropriate, promote self-advocacy and competence in self-care and provide appropriate educational opportunities.
3. To ensure that interventions and individual health care plans for students with life threatening allergies are based on medically accurate information and evidence-based practices.

In accordance with applicable law, it is the policy of the district to provide all students, through necessary accommodations where required, the opportunity to participate in all school programs and activities. Accordingly, the superintendent shall direct building administrators and staff, to act affirmatively and work closely with parents to assure that the needs of children with documented allergies are taken into consideration in planning for programs. The management plan is reviewed and updated annually by school administration.

LIFE-THREATENING ALLERGY GUIDELINES

BACKGROUND

Allergic food reactions can span a wide range of severity of symptoms. The most severe and potentially life threatening reaction is anaphylaxis. This protocol is to be used for students who are at risk for anaphylaxis and in circumstances where a previously undiagnosed life-threatening allergies response occurs. When a physician assesses that a child’s food allergy will result in anaphylaxis, the child’s condition meets the definition of “disability” and is covered under the Federal Americans with Disability Act (ADA), Section 504 of the Rehabilitation Act of 1973, if the allergy management affects the student’s ability to make educational progress.

Anaphylaxis refers to a collection of symptoms affecting multiple systems in the body, the most dangerous of which are breathing difficulties and a drop in blood pressure. Foods that most commonly cause anaphylaxis, a life threatening allergic reaction, are peanuts, tree nuts, shellfish, milk, wheat, soy, fish, and eggs. These severe allergic reactions can occur within minutes of ingestion or a reaction can be delayed for up to two hours. Some reactions are “biphasic” in nature with an initial period of symptoms, a symptom free period of 2-3 hours followed by severe shock-like symptoms. At present, there is no cure for food allergies and strict avoidance is the key to preventing reactions. Exposure may occur by eating the food or food contact.

MEDICATIONS

The most commonly prescribed medications for the treatment of anaphylaxis are:

Epinephrine – Brand names include, but are not limited to EpiPen®, EpiPen Jr®, and Twinject® auto injectors. Parents usually bring epinephrine to school in the form of an EpiPen® (0.3 mg), EpiPen Jr® (0.15 mg) or Twinject® (0.3 mg or 0.15 mg) auto injectors.

Note: The EpiPen® is a single dose auto-injector, while the Twinject® contains two doses of epinephrine – the first dose in an auto-injector and the second dose in the form of a traditional injection.

KEY POINTS FOR PARENTS, STUDENTS AND STAFF

- **You are never alone.** It takes a team to ensure the best for our students. Help is usually a phone call away.
- **Educate, Educate, Educate.** This is an ongoing process that changes with the students' needs and as the staff changes. Food bans do not work because it creates a false sense of security. Today, processed foods contain trace amounts of food items that are not always identified on the food label. The best plan is to educate our school community about the issues that face students with life threatening allergies.
- **Special events/Non-routine days.** The greatest risk for a life threatening allergic reaction exists when the normal routine is broken. Examples are classroom parties, field trips, a substitute teacher, and after school events.
- **Be Prepared.** Always have the Emergency Health Plan available and think ahead to prevent possible exposures to a food allergen.
- **Symptoms vary greatly. Call 911** when uncontrolled anaphylactic symptoms occur or if ingestion is strongly suspected. Use emergency medication (i.e. Epinephrine) if needed and follow the Emergency Health Plan
- **Be safe, not sorry!** Take all complaints from children with food allergies very, very seriously. It is important to respect the needs and rights of each student.
- A child with a life threatening food allergy should **NEVER eat unexamined food.**
- In the event a student has an allergic reaction at school, **call 911 and administer emergency medication** (i.e. antihistamine and Epinephrine) as ordered by the student's physician. Key staff members should be trained to use emergency medications and know the location of those medications at school and on any special function.

If epinephrine (Epinephrine) is used, the student should be taken to the hospital for evaluation even if the allergic reaction symptoms subside. The school principal, nurse and parent/guardian should be notified as soon as feasible. 911 should be called for all suspected food allergy reactions. No one can predict how a reaction will progress. A mild reaction can blossom into a full-blown

anaphylactic reaction very quickly or over several hours. A reaction can also appear to subside or even appear to be under control and can blossom again into a more severe reaction.

- **Cross contamination.** It only takes a trace amount of the food protein to cause an allergic reaction. To prevent exposure to an allergen, **hand washing** and **washing of surfaces** (tables, chairs, mixing bowls, etc.) where an allergen has been used is necessary. Soap and warm water are most effective for cleaning surfaces.

Be prepared! Know your plan!
