BACKGROUND OF NOOR INTERNATIONAL ACADEMY

Noor International Academy is a Public School Academy that is authorized by Central Michigan University and was founded in 2011 by **Mrs. Nawal Hamadeh**, Academy Superintendent and CEO, also, President of Hamadeh Educational Services, Inc. (HES). Noor International Academy (NIA) operates grades Pre-K-7 at its campus located at 37412 Dequindre Road, Sterling Heights, MI 48310. NIA is a non-profit organization that was founded to serve students from different geographic areas in the State of Michigan.

Noor International Academy is a public, non-discriminatory, independent school, which admits students from diverse cultural and ethnic backgrounds to its college-preparatory program serving families in the Greater Detroit area. It is operated by a staff who is highly qualified, certified and an experienced group of professional men and women who earned their degrees at numerous colleges and universities throughout the United States and internationally.

The Public School Academy aims at providing its students with quality education that focuses on the Michigan core curriculum and international cultures, including the study of a language, culture and history different from one's own. The Academy shall provide an education that will enable the various ethnic traditions, values, and experiences of students to enrich and nurture one another.

Such a foundation is rooted in a strong curriculum including foreign languages, particularly the Arabic language, and an integrated, holistic, and exploratory program in language arts, reading, mathematics, science, social studies, health, art, media, physical education, and standardized tests twice a year. Our outcome expectations in these areas is to provide students with a core of cultural values and academic experiences which will contribute to their mental, social, physical and spiritual growth by emphasizing and encouraging scholarship, civic consciousness, physical development, and the pursuit of integrity and happiness.

The school facility provides a clean and safe place for students and is intended to serve elementary and middle school students grades Pre-K-7, and eventually Pre-K through 12.

MISSION: STATE OF MICHIGAN

We, the Michigan State Board of Education, united in vision and philosophy, empowered by our Constitution to respond with leadership, humbly serve to enable, promote, and inspire a new spirit of birth and freedom, self-government, excellence and accountability in our local communities for all who are there involved in a lifelong education of students. In working to achieve this mission, we recognize that a quality education is first the responsibility of the parents and students, then of teachers, administrators, school Boards and others in a local community; we support public education; we support school choices for parents; we encourage the development, support and recognition of quality teachers; we support local accountability that enhances excellence in education; we advocate for the educational opportunities in the marketplace of a free society; and we pray for wisdom in all decisions that impact the lives of the students we serve.

MISSION OF NOOR INTERNATIONAL ACADEMY

The mission of Noor International Academy is to provide its students with quality education that focuses on the Michigan core curriculum and international cultures, including the study of a language, culture, and history different from one's own. The Academy shall provide an education that will enable the various ethnic traditions, values, and experiences of students to enrich and nurture one another. Moreover, the Academy shall provide an education of the whole child by integrating the different aspects of children's learning and lives to make them more meaningful. The Academy will prepare its students to be independent lifelong learners and productive working members of a global society through acquired diverse knowledge, experiences and skills. The Academy shall provide an environment that encourages students to become upright responsible decision-makers, reflective of equity, respect and understanding, maximizing each individual's intellectual, physical, psychological and moral self by utilizing a unique safe and orderly environment that is conducive to learning to meet the challenges of this ever-changing world.

ACADEMY PHILOSOPHY

The Academy believes that...

- Quality education enhances the student's mental, physical, and emotional abilities and promotes altruistic thinking in this diverse and divided world.
- Quality education integrates teaching the ethnic and cultural traditions and values into the academic program and develops an awareness of their self, identity, and obligations towards self, family, community, society and the world.
- A successful school inspires the joy of learning.
- All students are capable of learning and can reach their potential if given the opportunity.
- Learning is an on-going life-long process.
- Successful learning requires active participation and involvement in the school by parents and the community.
- Effective schools promote teaming, collaboration and shared decision-making among staff, students, and community.

THE FOUR PILLARS OF HES AND THE ACADEMY

Education at Hamadeh Educational Services and its academies is centered around FOUR PILLARS and instilling these values, ideals, and principles in ourselves and in our students. We—all students *and* staff of HES—believe in and strive to embody the following characteristics, habits, traits, and values...

I. Scholarship (based on a commitment to life-long learning)

-  We are educated—familiar and informed regarding well-known concepts and ideas.
-  We are inquisitive—questioning, examining, and exploring what we see/are presented with
-  We are intellectual—able to think things through, reason, and problem-solve.
-  We are reflective—taking stock of how we are progressing academically and making plans for ongoing improvement.

II. Character (based on learning/acquiring habits and traits that will make one successful in all aspects of life, including being a leader/an example for others to follow, instilled with a sense of contribution and fulfillment)

-  We have true grit.
 - We are self-motivated, driven, ambitious, and determined; we possess strong will power.
 - We are self-disciplined/self-controlled.
 - We are optimistic and confident.
 - We are tenacious, resilient, and able to persevere in the face of obstacles.
 - We understand that failure is an important and integral part of the road to success.
 - We possess a strong work ethic.
-  We are honest, trustworthy, and principled.
-  We are fair, moral, and ethical.
-  We are respectful to ourselves, family, and all others
-  We have integrity and the strength/fortitude to stand up for our rights and what we believe in.
-  We are reflective and accountable--able to admit when we are wrong, accept responsibility for our wrongdoings, and willing to learn from our mistakes.
 - We are forgiving and apologetic whenever necessary.
-  We are appreciative and humble, instilled with a sense of modesty.
-  We are willing, effective, and respectful communicators—even when we disagree with others or have others disagree with us.
-  We are empathetic, caring, kind, understanding, and open-minded.
-  We are balanced and successfully able to “juggle” the different roles of life.
-  We are courageous, brave, and smart risk-takers.
-  We are passionate and enthusiastic with a zest for life.
-  And because we have strong character, we undoubtedly have a strong sense of contribution.
 - We are actively engaged and have a strong willingness to make a difference in the lives of others.
 - We desire to help others (based on our own intrinsic motivation to do so and a sense of responsibility to others).
 - We possess a sense of benevolence.
 - We have an innate sense of giving and generosity.

- III. Culture** (based on a sense of respecting, honoring, understanding, and valuing the practices, ideas, and experiences shared by a common group—integral when building community)
-  We realize just how crucial it is to know, understand, and appreciate our own culture.
 -  We know how vital culture is to all peoples and that we must seek to understand not only our own culture, but the culture of other peoples as well.
 -  We value, respect, and understand how the common experiences of a group/community help shape the way its members understand the world—that culture is a collective, agreed-upon set of familiar values, beliefs, perspectives, practices, products (e.g. books, foods, laws, dress, music, arts and crafts, games, etc.), and ideas that bind a group together in harmony.
 -  We appreciate and value how one’s culture influences one’s views, ideas, loyalties, perspectives, fears, hopes, and other characteristics.
 -  We understand and empathize with the concept that while all groups/cultures certainly have diverse and distinctive characteristics, all cultures are composed of human beings who ultimately share the same basic needs and want the same things in life: physical needs (food, water, etc...), safety and security, supporting relationships--specially family, a sense of accomplishment and realization of hopes and dreams, etc.
 -  We realize that each cultural group has unique strengths and perspectives that the larger community—the world—can benefit from.
 -  We are aware that understanding culture and cultural differences will help us all overcome and prevent division and misunderstandings (like racial and ethnic division, gender bias, stereotyping, etc.).
 -  We know that understanding and appreciating culture is a vital first step to building community.
- IV. Community** (based on a sense of belonging and *responsibility* to others/*all* the diverse groups we are a part of—a sense and understanding that we are all brothers and sisters of the human race)
-  We know—not just recognize—that while we must be aware of and learn from others different from us (capitalizing on the diversity of the world); we are more similar than different and are all brothers and sisters of the human race.
 -  We consistently and actively communicate with those around us—those in our various communities.
 -  We are responsible for more than just ourselves; we belong to, support, and are responsible/loyal to a great variety of groups/communities including:
 - One’s family (parents, siblings, immediate and extended family), neighbors, friends, teams, and school
 - One’s affiliations/organizations/memberships, city/village/tribe, state, country, culture, species, environment, and the entire world.

HOMELESS LIAISON

Federal law under Title I and Title X, the McKinney-Vento Homeless Assistance Act, ensures the educational rights and protections for children and youth experiencing homelessness. These children and youth are automatically eligible to receive Title I services, by virtue of their homelessness. In compliance with the McKinney-Vento Homeless Act, the Academy has designated the School **Social Worker** as the **Homeless Liaison**.

The School Social Worker ensures that the:

- Homeless children and youth are identified
- Homeless children and youth are enrolled in and have an opportunity to succeed in school
- Homeless families and students receive educational services for which they are eligible
- Parents or guardians of homeless students are provided meaningful opportunities to participate in the education of their children
- Public notice of the educational rights of homeless children and youth is circulated
- Enrollment disputes are mediated
- Parent or guardian of a homeless student is fully informed of transportation services
- Liaisons collaborate with state coordinators and community and school personnel that provide educational and other services to homeless children and youth

SOCIAL WORK AND COUNSELING SERVICES

Social work and counseling services are available to every student. Each student has a master record file called a CA90. This folder includes information such as former schools attended, past and present grades, and test results. The counselor will be familiar with the material and a student or the parent may examine the contents of the cumulative guidance folder in the presence of the counselor.

The school provides a guidance and counseling program for its students. The school's counselors are available to those students who require additional assistance.

The guidance program is available to assist students in identifying career options consistent with their abilities, interests, and personal values. Students are encouraged to seek the help of counselors to develop class schedules that meet the student's career objectives. High school juniors and seniors have the opportunity to receive college and career-oriented information. Representatives from colleges and universities, occupational training institutions and career-oriented recruiters, including the military, may be given access to the school campus in order to provide students and parents/guardians with information.

Special assessments are available to assist the student to better understand aptitudes, interests, strengths, and learning deficits. Included in the counseling offices are resource materials about colleges, vocations, special schools, scholarships, and other areas of interest. The counselor will also help the student to understand the grade point average, rank in class, and other factors that bear on admission to advanced learning opportunities.

RESPONSIBILITIES AND EXPECTATIONS

SCHOOL RESPONSIBILITIES

The Academy will provide a high quality educational choice to the families of its community. We will treat all students, parents and staff with dignity and respect. We will do all that we can to ensure that students can achieve their highest potential. The Academy will maintain a safe and healthy environment for its students and staff. The Academy will involve parents, businesses and the community at-large in its programs so that our students have the greatest possible resources available to them throughout their entire stay in our program.

STAFF RESPONSIBILITIES

Academy teachers and staff will treat all students, parents, and each other with respect and dignity at all times. Teachers and staff will be prepared to perform their job functions and will deliver the highest level of service to our students and parents. Teachers will ensure that all students are provided with the best opportunities available to succeed in meeting their Grade Level Expectations, High School Grade level Expectations and Common Core Standards. Teachers and staff will communicate regularly with parents and other stakeholders who are interested in what is going on at our school. Teachers and staff will maintain a safe and healthy environment that is optimal for learning. All staff will contribute to a positive learning environment, will take pride in their profession, and will continue to improve their own skills through active involvement in professional development activities offered by the Academy.

PARENTS EXPECTATIONS

The Michigan Department of Education Revised School Code, Section 380.10, establishes the role of the parent as a partner in their child's education and ensures a positive educational setting. Section 380.10 also states:

It is the natural, fundamental right of parents and legal guardians to determine and direct the care, teaching, and education of their children. The public schools of this state serve the needs of the pupils by cooperating with the pupil's parents and legal guardians to develop the pupil's intellectual capabilities and vocational skills in a safe and positive manner.

. The school highly suggests parents/guardians of the students of Star International Academy spend a minimum of twenty hours per school year in the school as a condition of their child's enrollment and subsequent graduation. A calendar will be provided to parents/guardians stating the available times and dates that one may volunteer. Twenty hours may be completed in several consecutive days or in several short blocks of time. A parent/guardian may chaperone on field trips, supervise during special activities, attend a child's classes or assist teachers with their daily routines, monitor halls and/or lunchtime, pack envelopes for mailing letters, etc. Parent volunteers or chaperones must complete a Volunteer/Chaperone Packet and Screening in the school main office at least 48 hours prior to any volunteer activity.

STUDENTS EXPECTATIONS

Appropriate disciplinary measures will be taken in addressing misbehavior. Personal accountability is demonstrated when the student:

STUDENT RIGHTS

DECLARATION OF STUDENT RIGHTS

The Academy has high expectations for all students. We are committed to providing all students with an excellent, well-rounded educational program. With this commitment in mind, the school sets forth the following: all students are provided the opportunity to obtain a basic body of understanding, attitudes, knowledge, and skills needed for living successfully in a democracy and the world community. The opportunity for development of intellectual curiosity, critical thinking, problem-solving abilities and aesthetic appreciation shall be provided.

These rights and responsibilities provide a uniform standard of conduct, which emphasizes the maintenance of an atmosphere where orderly learning is possible and encouraged. It defines student rights, student responsibilities, disciplinary procedures and actions to be taken.

RIGHT OF EXPRESSION

Students enjoy the right of expression as provided by state and federal law. The student may not, by speech or conduct, significantly disrupt class work or educational programs; cause substantial disorder or invasion of the rights of others, or substantially interfere with the requirements of appropriate discipline, education programs, or other activities in the operation of the school or conduct themselves in a manner inconsistent with the school's educational mission. Otherwise, disciplinary actions will be taken and enforced.

RELIGIOUS EXPRESSION IN THE SCHOOL

The following guidelines apply to religious practices in the School and are drawn directly from the "Statement of Principles" issued by the U.S. Department of Education.

The Establishment Clause of the First Amendment does not prohibit purely private religious speech by students. Students have the same right to engage in individual or group prayer and religious discussion during the school day as they do to engage in other comparable activity. For example, students may read their Bibles or other scriptures, say grace before meals, and pray before tests to the same extent they may engage in comparable non-disruptive activities. School authorities possess substantial discretion to impose rules of order and other pedagogical restrictions on student activities, but they may not structure or administer such rules to discriminate against religious activity or speech.

Generally, students may pray in a non-disruptive manner when not engaged in school activities or instructions and subject to the rules that normally pertain in the applicable setting. Specifically, students in informal settings, such as cafeterias or hallways, may pray and discuss their religious views with each other, subject to the same rules of order as apply to other student activities and speech. Students may also speak to, and attempt to persuade, their peers about religious topics just as they do with regard to political topics. School officials, however, should intercede to stop student speech that constitutes harassment aimed at a student group or a group of students.

RELEASE TIME FOR RELIGIOUS INSTRUCTION/OBSERVANCE

A student will be released from school, as an excused absence, to observe a religious holiday or for religious instruction. The student's parent/guardian must give written notice to the Building Principal at least 5 calendar days before the student's anticipated absence(s).

Students excused for religious reasons will be given an opportunity to make up any examination, study, or work requirement.

RIGHT TO EDUCATION AND THE RIGHT TO PARTICIPATION

A student is the center of the school and the purpose for which it is operated and maintained. Students have the inherent right to be treated with dignity, equality and respect. A student has the right to a non-disruptive education as provided by law and school Board policies. Correspondingly, the student has a responsibility not to deny the right to an education to any other student.

GRIEVANCE PROCEDURES

A student grievance procedure is provided for due process, prompt, and equitable resolution of complaints. A student or parent with a grievance should first discuss the matter with the teacher. If this does not resolve the issue, the matter should be directed to the Principal. If the grievance is against the Principal, the school Superintendent should be contacted after talking with the Principal. If the issue is not resolved after conferring with the Principal and the Superintendent, the grievant may request to be included on the school Board meeting agenda. Requests should be made in writing and presented to the Superintendent at least one week before the school Board meeting. Parents must model respect for school procedures/guidelines and NOT approach or confront any student about alleged or reported peer conflict. If parent chooses to disregard the administration's request and continues to pose any confrontational and/or intimidating behaviors, he/she will be requested not to be on school grounds or may be reported to local authorities.

ADMISSION POLICY AND PROCEDURES

The Academy will not charge tuition and will not discriminate in its student admissions policy or practices on the basis of intellectual or athletic ability, measures of achievement or aptitude, status as a handicapped person, or any other basis that would be illegal if used by a school district.

Enrollment will be open to all Michigan Residents, within the age range of four (4) to twenty (20) years old per pupil accounting manual requirements for Pre-K to 7th and GSRP requirements for Pre-K students. Many parents who select our school desire a program of instruction for their children based on core academic skill acquisition, exposure to high-tech learning activities and the utilization of structured learning activities, which simulate real-life business environments.

Enrollment priority may be given to a sibling of a student already enrolled in the Academy or a child of a Staff or Board member for grades Kindergarten thru 7. If there are more applicants to enroll in the Academy than there are spaces available, students shall be selected to attend using a random selection process. In addition, the Academy shall allow any student who was enrolled in the immediate preceding school year to enroll in the Academy in the appropriate grade unless the appropriate grade is not being offered at the Academy.

GOOD FAITH POLICY

Acting in good faith, the Academy will accept students from other schools based on information given to us during parent and student interviews with the School's administration. However, if this information turns out to be false or misleading, the child may be subject to dismissal. A student who is found to have committed criminal sexual conduct or arson or to have been in possession of a dangerous weapon in a weapon-free school zone, as those terms are defined in Sections 1311 and 1313 of the School Code of 1976, as amended (MCL 380.1311, 1313; MSA 15.4311, 41313) shall not be admitted to school in the district except in accordance with Section 1311(5) of the School Code of 1976, as amended (MCL 380.1311(5); MSA 15.41311(5)).

APPLICATION & ENROLLMENT REQUIREMENTS

Section 504 of the Revised School Code states that public school academies shall neither charge tuition nor discriminate in pupil admission policies or practices on the basis of intellectual or athletic ability, measures of achievement or aptitude, status as a handicapped person, or any other basis that would be illegal if used by a Michigan public school district.

- Academy enrollment is open to all individuals who reside in Michigan.
- Academy admissions are limited to pupils within a particular age range/grade level (students who qualify for grades Pre-K-7th).

- The Academy Board has established a policy providing enrollment priority to siblings of currently enrolled pupils. The Academy does provide a preference to children of Board members and Academy employees as legally allowed to Grades Kindergarten–7. The GSRP guidelines apply to Pre-K.
- The Academy allows any pupil who was enrolled in the immediately preceding academic year to re-enroll in the appropriate age range/grade level unless that grade is not offered.
- No student may be denied participation in the application process due to lack of student records.
- If the Academy receives more applications for enrollment than there are spaces available, pupils shall be selected for enrollment through a random selection drawing.

APPLICATION PROCESS

All new parents who are interested in enrolling one or more children in the Academy may obtain an application package from the main office at the Academy. The application forms must be filled out completely, signed by a legal parent or guardian, and submitted to the school during the application time period announced each year. Parents may also submit application forms throughout the year in order to place their child(ren) on the waiting list for any grade offered.

- The application period is a minimum of two weeks in duration each year, with evening and/or weekend times available.
- The Academy accepts applications all year. If openings occur during the academic year, students shall be enrolled. If openings do not exist, applications shall be placed on the official waiting list. The waiting list shall cease to exist at the beginning of the next enrollment period in which applicants will need to reapply.
- In the event that there are openings in the class for which students have applied, students shall be admitted according to the official waiting list. The position on the waiting list shall be determined by the random selection drawing. If there is no waiting list, students shall be admitted on a first-come, first-serve basis.

RE-ENROLLMENT PROCESS

- The Academy shall notify parents or guardians of all enrolled students of the deadline for notifying the Academy that they wish to re-enroll their child (Spring annually).
- The re-enrollment form must be completed by parents and returned by given deadline and includes a request that the parent or guardian indicate whether a sibling(s) seeks to enroll for the upcoming academic year.
- An enrolled student who does not re-enroll by the specified date can only apply to the Academy during the application period for new students.
- An applicant on the waiting list at the time a new application period begins must reapply as a new student.
- The Academy will collect parent or guardian responses and determine the number of returning students, the number of siblings and the number of spaces if available for each grade in which the enrollment and acceptance process will continue as defined in Board policy.

RANDOM SELECTION DRAWING

A random selection drawing is required if the number of applications exceeds the number of available spaces. Prior to the application period, the Academy shall:

- Establish written procedures for conducting a random selection drawing.
- Establish the maximum number of spaces available per grade or grouping level.
- Establish the date, time, place and person to conduct the random selection drawing.
- Notify the Charter Schools Office of both the application period and the date of the random selection drawing, if needed. The Charter Schools Office may have a representative on-site to monitor the random selection drawing process.

The Academy shall use a credible, neutral “third party” such as a CPA firm, government official, ISD official or civic leader to conduct the random selection drawing. Further, the Academy shall:

- Conduct the random selection drawing at a public meeting where parents, community members and the public may observe the process.
- Use numbers, letters, or another system that guarantees fairness and does not give an advantage to any applicant.

The Academy shall notify applicants not chosen in the random selection drawing that they were not selected and that their name has been placed on the Academy's official waiting list for openings that may occur during the academic year. Students shall appear on the official waiting list in the order they were selected in the random selection drawing.

VISION TESTING FOR KINDERGARTEN ENTRANCE

MCL 380.1177 (2000) requires children enrolling in Kindergarten must provide evidence that their vision has been tested once since the age of 3.

IMMUNIZATIONS & VACCINATION RECORD

MCL 333.92.05 states a parent, guardian, or person in loco parentis of a child shall provide for the child's immunization by an authorized health professional, physician, local health department, clinic, or other agency offering immunizations for diseases and within an age period prescribed by the department. A child is exempt from immunization if a parent, guardian, or person in loco parentis of the child presents a written statement to the administrator of the child's school or operator of the group program to the effect that the requirements of this part cannot be met because of religious convictions or other objection to immunization. Medical exemptions are also allowed (http://mcir.org/forms/SS_Immunization_Waiver.pdf). In December 2014, the Joint Committee on Administrative Rules approved a new educational requirement for Michigan parents opting their children out of being vaccinated before entering school.

The new rule allows parents/guardians to have the opportunity to speak with a health educator from their local health department about their concerns and questions regarding immunizations prior to the nonmedical waiver being signed.

Any parent/guardian who wants to claim a nonmedical waiver will need to receive education regarding the benefits of vaccination and the risks of disease from a county health department before obtaining the certified nonmedical waiver form through the Local Health Department. The new rule requires the use of the State of Michigan nonmedical waiver form dated January 1, 2015. *As of **Jan. 1, 2015**, vaccine education administered and certified (signature on waiver) by local health department is required before the waiver (exemption) will be granted.*

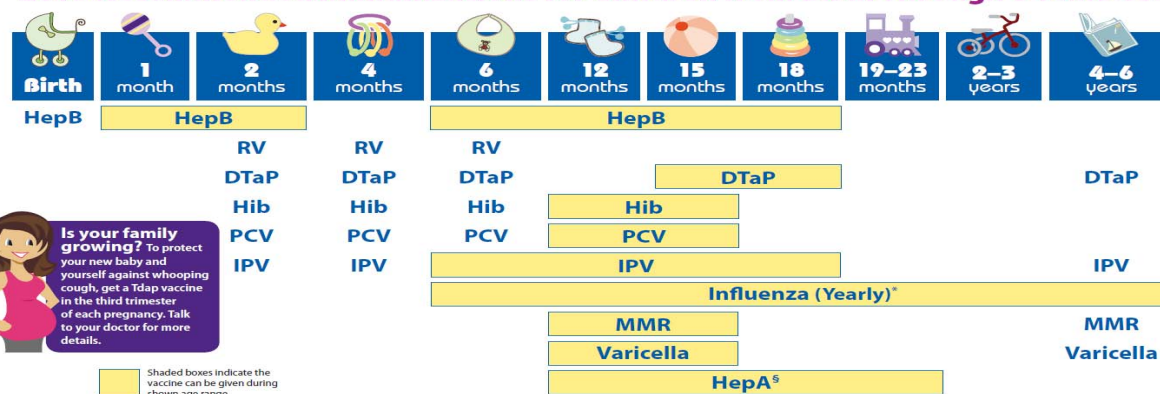

For more information about the new immunization waiver requirements, you may visit the following link:
http://www.michigan.gov/mdch/0,4612,7-132-2942_4911_4914_6385-344843--,00.html

Schools are required to report immunization data two times annually to the Michigan Department of Community Health via the Michigan Care Improvement Registry (MCIR). The MCIR enables private and public providers of immunization services to assess a person's immunization status and administer age-appropriate vaccinations.

2015 Recommended Immunizations for Children from Birth Through 6 Years Old

NOTE: If your child misses a shot, you don't need to start over, just go back to your child's doctor for the next shot. Talk with your child's doctor if you have questions about vaccines.

FOOTNOTES: * Two doses given at least four weeks apart are recommended for children aged 6 months through 8 years of age who are getting an influenza (flu) vaccine for the first time and for some other children in this age group.

† Two doses of HepA vaccine are needed for lasting protection. The first dose of HepA vaccine should be given between 12 months and 23 months of age. The second dose should be given 6 to 18 months later. HepA vaccination may be given to any child 12 months and older to protect against HepA. Children and adolescents who did not receive the HepA vaccine and are at high-risk, should be vaccinated against HepA.

If your child has any medical conditions that put him at risk for infection or is traveling outside the United States, talk to your child's doctor about additional vaccines that he may need.

  These shaded boxes indicate the vaccine is recommended for children with certain health conditions that put them at high risk for serious diseases. Note that healthy children can get the HepA series⁶. See vaccine-specific recommendations at www.cdc.gov/vaccines/pubs/ACIP-list.htm.

FOOTNOTES

¹Tdap vaccine is recommended at age 11 or 12 to protect against tetanus, diphtheria and pertussis. If your child has not received any or all of the DTaP vaccine series, or if you don't know if your child has received these shots, your child needs a single dose of Tdap when they are 7-10 years old. Talk to your child's health care provider to find out if they need additional catch-up vaccines.

²All 11 or 12 year olds – both girls and boys – should receive 3 doses of HPV vaccine to protect against HPV-related disease. The full HPV vaccine series should be given as recommended for best protection.

³Meningococcal conjugate vaccine (MCV) is recommended at age 11 or 12. A booster shot is recommended at age 16. Teens who received MCV for the first time at age 13 through 15 years will need a one-time booster dose between the ages of 16 and 18 years. If your teenager missed getting the vaccine altogether, ask their health care provider about getting it now, especially if your teenager is about to move into a college dorm or military barracks.

⁴Everyone 6 months of age and older—including preteens and teens—should get a flu vaccine every year. Children under the age of 9 years may require more than one dose. Talk to your child's health care provider to find out if they need more than one dose.

⁵Pneumococcal Conjugate Vaccine (PCV13) and Pneumococcal Polysaccharide Vaccine (PPSV23) are recommended for some children 6 through 18 years old with certain medical conditions that place them at high risk. Talk to your healthcare provider about pneumococcal vaccines and what factors may place your child at high risk for pneumococcal disease.

⁶Hepatitis A vaccination is recommended for older children with certain medical conditions that place them at high risk. HepA vaccine is licensed, safe, and effective for all children of all ages. Even if your child is not at high risk, you may decide you want your child protected against HepA. Talk to your healthcare provider about HepA vaccine and what factors may place your child at high risk for HepA.

Please note: Cases of pertussis (whooping cough) have increased in children, teens, and adults in the last few years. Tragically, some infants too young to be fully protected by vaccination have died. Ask your doctor or nurse if your children have received all the pertussis shots needed for his or her age. Also, if you haven't had your pertussis shot, you need to get one.

What is "Catch-up?" If your child's vaccinations are overdue or missing, get your child vaccinated as soon as possible. If your child has not completed a series of vaccinations on time, he or she will need only the remainder of the vaccinations in the series. There's no need to start over.

Rev. March 31, 2013

STUDENT RECORDS POLICY

NOTIFICATION OF RIGHTS FOR ELEMENTARY & SECONDARY SCHOOLS

School student records are confidential and information from them will not be released other than as provided by law.

A federal law known as the "Family Educational Rights and Privacy Act" ("FERPA") gives parents and eligible students (age 18 and older) the following rights with respect to their student records:

1. **RIGHT TO INSPECT:** You have the right to inspect and review substantially all of your education records maintained by or at the School District. This right extends to the parent of a student under 18 years of age and to any student age 18 or older.
2. **RIGHT TO REQUEST AMENDMENT:** You have the right to seek to have corrected any parts of an education record, which you believe to be inaccurate, misleading or otherwise in violation of your rights. This right includes the right to a hearing to present evidence that the record should be changed if a designated school official decides not to alter the education records according to your request. If no change is made to the education record after the hearing, you have a right to place a written rebuttal in the record.
3. **RIGHT TO PREVENT DISCLOSURES:** You have the right to prevent disclosure of education records to third parties with certain limited exceptions. It is the intent of the Board of Education to limit the disclosure of information contained in your education records to those instances when prior written consent has been given to the disclosure, as an item of directory information of which you have not refused to permit disclosure, or under the provisions of FERPA which allow disclosure without prior written consent.
4. **RIGHT TO COMPLAIN:** You have the right to file a complaint with the U.S. Department of Education concerning the alleged failure of the school district to comply with FERPA. Your complaint should be directed to:

Family Policy and Compliance Office

U.S. Department of Education
600 Independence Ave, SW
Washington, DC 20202-4605

5. **RIGHT TO OBTAIN POLICY:** You have the right to obtain a copy of the policy adopted by the Board of Education in compliance with FERPA. A copy may be obtained in person or by mail from: the Principal.
6. **RIGHT TO OBJECT TO RELEASE OF DIRECTORY INFORMATION:** Generally, school officials must have written permission from the parent of a student or an eligible student before releasing any information from a student's record. However, FERPA allows school districts to disclose, without consent, "directory" type information the Board of Education of the Academy has designated the following personally identifiable information contained in a student's education record as "directory information:"

Directory Information may include (but is not required to release) the following: Student Name, Address, Telephone Number, Picture, Parent or Guardian, Date & Place of Birth, Major Field of Study, Weight, Height, Participation In and Eligibility for Officially Recognized Activities and Sports, Dates of School Attendance or Grade Placement, Student ID's, Student's Academy E-mail, Curriculum, Honors and Awards Received, and the Most Recent Educational Agency or School Attended by the Student.

Unless you advise the School District that you do not want any or all of this information released, school officials may release personally identifiable information, which it has designated as directory information. Upon such objection, this information will not be released without prior consent of the parent or eligible student.

7. You have **two** weeks from the receipt of this notice to advise the School District in writing of any or all of those types of information about the student which you refuse to permit the School District to designate as directory information. Your objections should be addressed to the Principal. The Academy may include a student's directory information in Academy publications or otherwise release such information to the public without a student's consent unless a student has informed the Academy in writing that his or her directory information is confidential.

REQUESTS FROM MILITARY OR INSTITUTIONS OF HIGHER LEARNING

Upon request, military recruiters and institutions of higher learning will be given access to students' names, addresses and published telephone numbers. Parents/guardians who do not want their child's name to be released (or students over the age of 18 who do not want their name released) should contact the Building Principal.

GUARDIANSHIP/CHILD CUSTODY

If legal guardianship should change at any time, it is the parent or legal guardian's responsibility to inform the school of such changes, in writing. The parent/guardian may be asked to produce official documents indicating such a change.

The school campus is a neutral haven for students to focus on academic and social development and thus all parents/guardians are encouraged to cooperatively work together with school personnel to maintain a positive learning environment.

AGE OF MAJORITY

Although 18-year-old students are recognized as adults under the Age of Majority Act, school officials are nonetheless committed to the equal treatment in application of school policies and procedures to all students. With the exceptions noted below, school district policies and procedures set forth apply to all students, regardless of their attainment of the age of majority. Students 18 years and older may:

1. Possess the same privilege as their parents/guardians as it relates to access or control of their student records;
2. Represent themselves during disciplinary conferences and be the addressee for their grade reports
3. Sign themselves in and out of school and may verify their own absences. Note: all attendance standards continue to apply;
4. Provide reason(s) for their absences and tardies, but are held to the same attendance requirements as other students, including the acceptable reason(s) for an excused absence.

Eligible students who wish to assert these rights should register their intent on the appropriate form in the high school office. Until the eligible student registers this intent, school officials will not apply the above exceptions to school policies and procedures.

A student who has reached the age of majority has the option to assume full rights of an adult by assuming full responsibility for his/her performance in school, attendance, and compliance with school administrative guidelines.

Prior to assuming his/her full rights, the student should sign Form 5780 F1. The administration reserves the right to advise parents of any situation regarding a student, regardless of age, which it deems worthy of parental involvement.

MANDATED REPORTERS

Schoolteachers, counselors, social workers, and administrators, are required by law to immediately report any and all suspected cases of child abuse or neglect to the Michigan Family Independence Agency.

SCHOOL/ PARENT COMMUNICATION

COMMUNICATION WITH THE SCHOOL

How to Communicate with School:

- Come to the main office desk
- Call or leave a phone message at the academy's main office (586) 365-5000 (main office).
- To report an absence call the main Office by phone at the numbers listed above by **8:10 AM** on each day of absence.

How to Communicate with a Teacher:

- Call the main office and leave a message asking the teacher(s) to call you back
- After hours, call the main office and leave a voicemail message for the faculty/staff member
- Email the teacher using the first_initial_last_name@niapsa.org, example, jsmith@niapsa.org or using PowerSchool Parent Portal access.

HOW TO COMMUNICATE WITH AN ADMINISTRATOR

Parents who would like to speak with the administration about any matter are encouraged to first meet with the teacher or staff member involved. If this attempt fails, and matters are not addressed, the parent is encouraged to contact the District Family and Community or the Principal. If the matter is not resolved with the District Family and Community or Principal, the parent is encouraged to contact the Superintendent and CEO, Mrs. Nawal Hamadeh at (313) 565-0507. The Academy has an open door policy, which encourages parents to meet with staff and administration at any time.

ATTENDANCE POLICY

The law in Michigan governing compulsory attendance requires a parent, legal guardian, or other person having control or charge of a child age six (6) to sixteen (16) to send the child to school during the entire school year, except under the limited circumstances specified in subsection (3) of section 380.1561. A child who was age eleven (11) on or after December 1, 2009, or was age eleven (11) before that date and entered grade 6 in 2008 or later shall attend school from age six (6) to eighteen (18). The exceptions include but are not limited to, sending the child to a State approved non-public school or educating the child at home in an organized educational program.

DEFINITIONS:

Absence from School:	A student is absent from school when he/she is not physically present.
Excused Absence:	A student is absent when he/she is not present during an entire regularly scheduled attendance period.
Unexcused Absence:	All absences are considered unexcused unless the student has a note or a phone call from the parent/guardian, a pass from a staff member, a statement from the doctor, a copy of documents from court appearances, or another form of legitimate documentation explaining the absence.
Truancy/Skipping:	Unexcused absence from any class. Skipping is an unexcused absence from the entire class period. Continued skipping may result in automatic drop from enrollment and/or reporting to the Department of Social Services.
Class Cutting:	A student is late to class more than 10 minutes.
Tardiness:	A student is tardy when he/she is not present in the classroom when the bell rings for the beginning of each period and/or time when the period is scheduled to begin.

REGULATIONS:

- School days are defined as Monday-Thursday from 7:55 A.M. to 3:22 P.M. and Fridays from 7:55 A.M. to 12:25 P.M.
- In the event of an absence, parents must notify school personnel in the main office by 8:00 AM on the day the student misses classes. If no call is made by 8:10 A.M., the school will contact the student's home to inquire

about the reason of the absence. If the school cannot reach the student's parent/ guardian by phone on the day of the absence; the student is required to submit a note from the parent/ guardian explaining the absence

- Students are required to complete all homework assignments missed due to any absence. It is the returning student's responsibility to contact his/her teachers to arrange make-ups.
- The school does not excuse any absence or tardiness without valid documentation.
- The staff shall take appropriate action when an unexcused absence or tardiness occurs. The action taken will be designed to correct any attendance problems posed by individual students.
- Daily recording and reporting of hourly attendance is **mandatory** and reported to the State of Michigan Department of Education in accordance with the law.

ARRIVAL

It is the parent/guardian's responsibility to make sure that their child(ren) arrive(s) on time for school. Repeated tardiness may result in the student not receiving the minimal number of instructional hours required by the State and may result in loss of funding to the Academy. More importantly, tardiness may affect the student's ability to be promoted to the next grade. The Academy will counsel immediately with any student and their parent/guardian, if it appears that a poor attendance pattern is being formed. Parents are urged to carefully review our tardy procedures in this handbook. Disciplinary actions will be implemented if a student is excessively violating our school attendance policy.

All students are expected to attend school no less than ninety-five (95) percent of the time unless precluded from doing so by an excused absence due to illness or other approved emergency supported by a doctor's note. Students who are absent for one or more days, or who arrive late, must have a written excuse stating the reason for the absence or tardy. Students are not to leave school during the school day for any reason without an OUT PASS from the Attendance Office. An OUT PASS requires a parent/guardian to come in to the main office and sign the student out prior to the student's exit from the building. Students leaving school without prior authorization from the Attendance Office or administration will be recorded as unexcused from classes missed. A parent or legal guardian must provide a valid excuse to the school the next day. Methods for establishing a valid reason for any absence or tardy include:

1. A note or phone call from a parent/guardian
2. A statement from a doctor
3. A copy of documents from court appearances, etc.
4. A pass from a staff member

No student will be released to any government agency without proper warrant or written parental permission except in the event of an emergency as determined by Principal or Education Service Provider.

The following terms identify the nature of absences, requirements and consequences:

A. EXCUSED ABSENCES

Excused absences will be those, which occur because of the following reason(s):

- Personal illness with a physician's note;
- Death in the immediate family;
- Religious holidays as prescribed by the State Department of Education; or to participate in religious instruction (For an excused absence for religious holiday, the parent must submit a written note at least 5 days in advance to the Attendance Office);
- Administrative reasons (e.g., suspension from school);
- Verified legal obligations;
- Extended periods of illness, which are covered by a written statement from a physician indicating that he/she, ordered the absence.
- Circumstances beyond the control of the parent
- Circumstances where the parent has reasonable concerns for the child's health and safety

Absence for the above reasons will not be counted toward totals for loss of credit. Students absent for the excused reasons listed above will be given the opportunity to make up missing work and exams. Work must be made up by the student. Absence from final Exams (or, if applicable, Mid-term Exams) will be excused **ONLY** with a note from a doctor. Make-ups of these exams must be arranged with subject teachers and the Department Heads.

B. ABSENCE FOR ILLNESS

It is expected that a parent/guardian phone the Attendance Office to report their student absent. This phone call should be made before 8:00 A.M. and may be left on the Attendance Office voice mail. The Academy reserves the right to request a written documentation for the absence, at the discretion of the Academy's administration. Failure to comply with this procedure may lead to disciplinary action. Under no circumstances will excuse notes be accepted at the end of the year to account for prior student absence. Participation in school sanctioned field trips and other such programs will not be considered as absence from school, although teachers must list participating students as absent from class.

C. UNEXCUSED ABSENCES

Unexcused absences are those that reflect tardiness, truancy, class cuts/skipping, family vacations, and other reasons not listed as qualifying under "A" above.

Consequences for Unexcused Absence: Students may be dropped from the enrollment roster and subsequently will be reported to the Department of Social Services.

IF A STUDENT IS ABSENT FOR MORE THAN 5 DAYS, WITH NO DOCUMENTATION SUBMITTED, HE/SHE MAY BE DROPPED FROM ENROLLMENT AND REPORTED TO SOCIAL SERVICES. IF STUDENT PROVIDES DOCUMENTATION SHOWING THAT THE ABSENCE WAS DUE TO ONE OF THE REASONS QUALIFYING UNDER "A" ABOVE, HE/SHE WILL BE ALLOWED TO MAKE UP MISSED WORK, BUT WILL HAVE DISCIPLINARY ACTIONS PUT IN PLACE.

D. CLASS CUTS

A class cut is an unexcused tardy to class exceeding 10 minutes:

The school will be reporting attendance concerns to the Department of Social Services.

Any cut: Work/test shall be made up with it being the student's responsibility to get the missed work and complete it.

E. TRUANCY

Repeated absences and/or class cuts will result in students being reported to social services, disciplinary actions taken, and possible drop from enrollment. A parent or other person in parental relation who fails to comply with the Michigan Compulsory School Law is guilty of a misdemeanor, punishable by a fine of not less than \$5.00 nor more than \$50.00, or imprisonment for not less than 2 nor more than 90 days, or both.

F. TARDINESS TO SCHOOL

Tardiness is the act of arriving, acting, or joining after the scheduled, expected, or usual class time; late or moving slowly and sluggishly to cause tardiness.

Students are tardy after 7:55 A.M.. Students arriving after 7:55 A.M. have to go to the Main Office before going to class. Also, arriving to class after its scheduled time at any time during the school day without a legitimate excuse is considered tardy and will result in further disciplinary actions as detailed in this handbook.

Consequence/ Actions	Teacher admits student, student marks him/herself tardy on tardy log.	Teacher admits student, student marks him/herself tardy on tardy log. The Dean will review Tardy logs on a weekly basis and contact parents to inform them that the child has received their 3rd tardy and the student will be issued a full day reflection.
-------------------------	---	--	--

G. UNEXCUSED TARDINESS TO CLASS (GRADES 6TH – 7TH ONLY)

Student tardies are checked bi-weekly by the Deans of Students. Students who receive three tardies per class within the two-month span will be issued a Full Day Reflection. Students who continue to accumulate tardiness may result in an Out of School Suspension.

H. EXCUSED TARDINESS

Will include:

- Doctor and dental appointments when the student brings in a note from the doctor's office;
- Chronic illness as recorded on file in nurse's office.

Excessive absences or tardiness may result in loss of funding to the Academy, but more importantly, may impact your child(ren)'s ability to be promoted to the next grade. The Academy will counsel immediately with any student and their parent/guardian, if it appears that a poor attendance pattern is being formed. Students, whose absences are excused, will be allowed to make up the missing work including homework and tests. Students will be permitted the same number of days, as he/she was absent to turn in the make-up work. The student is responsible for obtaining assignments from his/her teachers.

MAKE-UP WORK

- If a student's absence is excused, he/she will be permitted to make up any missed work, including homework and tests. The student will be permitted the same number of days, as he/she was absent to turn in the make-up work. The student is responsible for obtaining assignments from his/her teachers. Students who are unexcused from school will not be allowed to make up missed work.

ADDITIONAL ATTENDANCE NOTES

1. The maximum number of times a student may miss a class unexcused without losing credit in the class is **10 times** during a single marking period

- ✓ This applies to individual classes that the individuals are taking. Each individual class attendance will be considered in dealing with this policy.

Sanction: Once a student has missed his/her 11th class period in an individual class, that student cannot receive academic credit for the class. However, the student will be required to continue attendance in that class for the remainder of the semester unless the student has been removed for disciplinary reasons.

2. Day of an activity:

- a. Students are required to be in school the entire academic day of an activity if they expect to represent the Academy in an activity that day or night.
- b. Provisions of this policy will not be waived unless the school knows of the absence prior to the beginning of the school day the activity is scheduled.

3. Day after an activity:

- a. Students are expected to be in school the entire academic day after an activity. The idea that a student might be too tired after representing the Academy is not acceptable. If a student misses school the day after an activity, they will not be allowed to represent the Academy in the next activity in any season they may be participating in. A student has one such absence before they cannot compete or perform.

- b. The only exception is that if the school knows that the student will be absent prior to the beginning of school on the day after the activity, the student is excused from this provision.
- c. For purposes of this provision: parent verified illness does not count as a reason to miss the day after an activity. A doctor note will be required to excuse the absence.

Upon missing their tenth (10th) day of school in a marking period, the student and parents will be called into a conference with the school Principal and or the Dean of Student Affairs ("DSA"). At this meeting, the policy will again be explained for the benefit of the student and the parents.

Parents will be notified by phone and mail after a student misses their 10th day of school. This notification will be a formal notification that one more absence will result in loss of credit.

NOTE: Unexcused absence: any absence not verified by a parent to the school the day of the absence or when a parent is unaware of where their student is when contacted by the school.

PARENT REQUEST FOR EXTENDED STUDENT ABSENCES AND/OR EARLY RELEASE OF STUDENT

As noted in the Attendance policy above, student attendance is extremely important throughout the school year. Parents who request for their children, and/or students who are in the Pre-K-7 grades who request to be released from school prior to the last day of the school year, will not be approved for any reason. All students must be in attendance throughout the last day of school. Parents, who choose for their children or students themselves, who choose to end the school year early for travel purposes, or other reasons, may be dropped from enrollment as of the last day of attendance, the student will be reenrolled if space permits; and all missing work will be considered as incomplete and will receive zero credit for all missed assignments, tests, exams, etc. until all missed class work and assessments are completed/submitted at an agreed upon time prior to the beginning of the next school year. Any exams missed must be made up after the student returns.

NOTE TO PARENTS: Repeated absences and tardiness are considered serious violations of the rules and regulations of conduct and may result in immediate suspension from school, a referral to a civil authority, attendance in a program of rehabilitation/education, or expulsion from the school.

WITHDRAWAL FROM SCHOOL

Parents who intend to withdraw their student during the school year are kindly asked to provide the Main Office in writing with the date of withdrawal and reason, in order to facilitate the transfer process and proper reporting. Furthermore, Students and parents are responsible for returning all school belongings (books, supplies, etc.) that were provided upon enrollment. A method of payment is required if school belongings are not returned. Also, all financial obligations must be met before the process can be completed.

When a student transfers to another school, a record of the date of transfer will be entered on the permanent record card as well as on the pupil's attendance record. If parents would like the child to return to our school, the parents must fill out a new enrollment application. You are not guaranteed a spot and the applicant will be placed on the waiting list.

CHILDREN OF MILITARY FAMILIES

In Lansing, the State Superintendent of Public Instruction Mike Flanagan has asked every local school district in Michigan to voluntarily help assist in a national and state initiative to provide support to school-aged children of military families. "The least we all can do is recognize the sacrifices our military families make for this state and this nation," Flanagan said. "The impact on children cannot be underestimated, and we all should work together to provide them with tangible support."

Flanagan is asking local districts and charter schools to support these efforts by identifying military-connected children of Michigan with parents or guardians currently serving the Army, Navy, Air Force, Marines, and/or Coast Guard. This will include all children of parents currently serving in the Michigan National Guard, in Reserve United States Forces, or on Active Duty.

Once school-aged children of military families are identified, support can be provided. In states like Michigan that do not have large active duty posts or bases, its military children are spread throughout the state and therefore do not

always have access to networks of support. Also, under the President's initiative, the U. S. Department of Education is proposing, as part of No Child Left Behind reauthorization, to give priority to federal grant applications that help address the needs of military-connected students.

In order for **Noor International Academy** to assist in these efforts we will need to rely on parents or guardians to communicate to us this information so that we may identify students that may qualify for additional support services as they may become available. We kindly request that you report this information to the **School Social Worker** who will create a log entry in PowerSchool (student data management system) that will be kept confidential and used only in decision-making for providing students/families with support services and future federal grant applications (typically only student counts are used and not student-level information unless specifically requested by the Federal government as part of the application process).

PIERCING AND JEWELRY:

Students who have chosen to pierce their ears may wear small, stud earrings to school. Long dangling earrings and other types of similar earrings are considered distracting/possibly dangerous and are prohibited. No visible body piercing is permitted. Piercing and/or jewelry that are deemed inappropriate, a safety concern, or a distraction to the learning environment will need to be removed by the student.

HEELY'S POLICY

All students are encouraged to exhibit good personal safety practices. We are aware of the popularity of Heely's (shoes that roll) and based on important warnings from the manufacturer, Heely's will not be permitted to be worn on school property or to school-related functions including but not limited to field trips and athletic events. If you have already purchased the shoes, the wheel must be removed before allowing your child to wear the shoes to school. Also, the following are manufacturer recommendations and safety precautions on proper use:

"We always recommend that anyone who attempts to use HEELYS in any capacity should ALWAYS wear full protective gear, including: helmets, wrist, elbow, and knee pads . . . NEVER use HEELYS in an unsafe manner, and NEVER WITHOUT full protective gear. "

Any students who wear Heely's to school and have not had the wheels removed will receive a phone call to the parent(s) in which parents will need to bring an alternate pair of shoes to school for their child. Repeated incidents may be subject to further disciplinary actions.

DRESS CODE DISCLAIMER

The items listed above are intended as an illustration of the various types of items that are considered acceptable school dress code attire. In addition, the dress code is subject to change as deemed necessary by the school administration. The school administration reserves the right to determine whether any type of dress is inappropriate.

- Students that choose to grow facial hair shall keep it clean, trimmed and neat. It may not interfere with any work assignment required of the student, example: working with machinery.

HAIR CODE

PENALTY FOR VIOLATION

Parents of students out of dress code will be contacted by the teacher on the first and second offense; on the third offense, the student will be referred to the administration for disciplinary action. When other students see a student walking around in violation of the dress code, it gives the impression that the infraction is acceptable, or that the administration is not doing anything about it. If the student is clothed inappropriately, the parent will be contacted and asked to check the student out of school and take him/her home to change clothing or bring the appropriate clothing to the school. Students referred to the administration for uniform violations will not be readmitted to class without the DSA/Principal's approval.

Students who are out of class, because of an infraction of the dress code, are responsible for all missed schoolwork. Students are expected to be respectful and to carefully maintain their uniforms in good condition.

INVITATIONS AND GIFTS

Party invitations or gifts for classmates may not be brought to school to be distributed.

ANIMALS ON SCHOOL PROPERTY

In order to assure student health and safety, animals are not allowed on school property, except in the case of a service animal accompanying a student or other individual with a disability. This rule prohibiting animals on school property may be temporarily waived by the building Principal in the case of a unique educational opportunity for students, provided that: (a) the animal is appropriately housed, humanely cared for, and properly handled, and (b) students will not be exposed to a dangerous animal or an unhealthy environment.

EMERGENCY INFORMATION AND PROCEDURES

The student's parent/guardian should complete the School District's emergency medical treatment authorization form to indicate their preference of hospital, doctor, and dentist for emergency treatment.

Of course, in an emergency situation the child should be transported to the nearest medical facility able to render appropriate care, regardless of parental preference. Typically, this decision is made by an EMT (emergency medical technician) or other first responder.

A student profile is sent each school year to parents so that information may be updated bi-annually. The main office should be notified immediately when and if the above information changes. Students are expected to know and follow all emergency procedures as directed.

SCHOOL CLOSING

In case of emergencies, parents will be contacted as soon as possible, by phone or by the contact source provided on the admissions form that each parent/guardian be required to provide. If an emergency exists where there is a need for School Closing or Early Dismissal, parents will be informed, as soon as possible, either by phone, or through various media outlets such as the school web site, school's social media network, WWJ News Radio 950 AM, TV Channel 2 WJBK (Fox) News, TV Channel 4 WDIV News, TV Channel 7 and Detroit Free Press Website at: www.freep.com/closings. If we dismiss early for an emergency, all after-school functions are automatically cancelled. If the athletic events continue to be planned, they will be announced.

ACCIDENTS

If a serious injury occurs on school grounds or on the bus, the parents/guardians will be notified and asked to pick up the child for their own observation or examination by their family physician. Parents/guardians will be promptly notified of all injuries not considered minor. In the event that the parents/guardians cannot be reached, the student will be discharged to the person named on the students Admissions Card under Emergency Contact. If your child is hurt or feeling extremely ill, the school will contact Emergency Medical Services.

OFF CAMPUS EMERGENCIES

On field trips, teachers must be ready for any emergency. In the event of an off-campus emergency, both teachers and bus drivers have step-by-step instructions to follow.

- Depending on the type of crisis, 911 is called and first responders will oversee all medical and safety needs if necessary.
- Phone calls are then made to the school Principal and/or the Dean of Student Affairs ("DSA")
- Contacts to families will follow. Student safety is always a top priority even when off campus.

SCHOOL SAFETY DRILLS

The Academy will have regular Fire, Tornado and Lockdown drills throughout the school year. Please reinforce with your child the importance of following staff direction during such drills. This is required for your children's safety and the safety of others. At least 1 of the following drills is required to be conducted during a lunch or recess period, or at another time when a significant number of students are gathered, but not in the classroom. The governing body of the school shall ensure that documentation of a completed school safety drill is posted on its website within 30 school days after the drill is completed and is maintained on the website for at least 3 years.

FIRE DRILLS

A minimum of five (5) fire drills shall be conducted each school year. Three of the drills will be held by December 1st of the school and two (2) shall be held during the remaining part of the year.

- Students must leave the building silently and in a single-file line according to the floor plan posted in each classroom.
- Once outside, students must wait quietly in the parking lot of the Academy building complex.
- Once the students are in the designated safety zone, they must wait quietly for the all clear signal.
- Students failing to follow such expectations will be issued a disciplinary referral and consequences.

TORNADO DRILLS

A minimum of two (2) tornado safety drills is required for each school year at the Academy. These drills shall be conducted for the purpose of preventing fires and related hazards and injuries caused by severe weather. At least one (1) of the tornado safety drills shall be conducted during the month of March of the Academic school year. Students will travel silently in a single file line to the designated area for the particular classroom they are in. Designated areas are posted in each classroom. Students and staff must get down on their knees, place their hands over their head, and bend forward toward their knees. They will remain in that position until an all clear is given. Students not complying appropriately as instructed will be issued a disciplinary referral.

LOCKDOWN

A minimum of three (3) drills in which the occupants are restricted to the interior of the building and the building secured is required for each school year. At least one (1) drill must be conducted by December 1st of the academic school year, and at least one (1) drill shall be conducted after January 1st of the academic school year, with reasonable spacing interval between each drill. In the event that a safe environment is not feasible (i.e. campus intruder or other potential threat), the Superintendent, Principal and the Dean of Student Affairs ("DSA") will make a decision to go to "lock down". This announcement over the intercom alerts all faculty and staff to take action. The following guidelines are in place to prepare for lockdown.

- Teachers have been asked to keep their classroom door locks in the "locked position." In the event of a lock down, this eliminates searching for keys.
- After the lock down announcement, every student, faculty/staff member and campus visitor finds a secure place behind locked doors. They remain there until the "all clear" announcement is given.
- Depending on the emergency, faculty and staff members may contact the office if they have vital information about campus safety or the health of a student.
- School administration will call 911 if campus safety reaches a level where students, staff and visitors are in direct danger.
- Campus visitor, faculty and staff members are not to use cell phones or other communication devices to contact the outside during a lock down. School emergency information must come from designated school officials.
- Students failing to follow such expectations will be issued a disciplinary referral and consequences.

BOMB THREATS

- It is a Felony to make school threats or hoaxes involving the school, classmates or teachers.
- Leaving a note threatening classmates could result in suspension from school for an entire year and or expulsion and may result in the loss of driving privileges.
- Parents may be required to pay the cost of searching the school and letting school out early. Costs could reach thousands of dollars.
- In the event a bomb threat is made, the school will trace the call to identify the perpetrator. The school will prosecute any such identified individual(s) and will seek the fullest penalty of the law.
- If you have information about threats to schools or your classmates, please contact local police or sheriff's departments or the State Bureau of Investigation's Operations Center at 313-277-6770 OR 911 for Emergency.
- **Bomb threats are considered very serious; and any individual making such treats may face serious legal and disciplinary consequences.**

CATEGORY OF CRIMES

- Crime no. 1: Making or communicating a false bomb threat in any form, even including computer messages, is a **Class H felony** crime.
- Crime no. 2: Perpetrating a bomb threat hoax by bringing a fake explosive device onto school property (buildings, grounds or buses) or into school-sponsored events or activities is a **Class H felony** crime.
- Crime no. 3: Encouraging or aiding a minor to bring onto school property any true explosive device is a **Class G felony** crime.

Penalties: In addition to legal consequences that accompany any of the above felonies, the following penalties also apply to these crimes:

- A second conviction of either of the first two crimes within 5 years of a first conviction is a **Class G felony** crime.
- Conviction of any of the three crimes results in the loss of he/she's driver's license or permit.
- There is an automatic 365-day suspension from school for committing either of the first two crimes.
- Possible restitution and financial liability for the costs or damage experienced by the school or school system in having to deal with the threat. Parents who are found to be negligent with regard to their children who commit of the above crimes may be required to pay up to \$25,000 in costs associated with either a false bomb threat or hoax, and \$50,000 in costs associated with actual damages resulting from a discharged explosive device.

MEDICATIONS & ILLNESSES

MEDICATIONS IN SCHOOLS

Under the direction of a school administrator, a school employee may administer medication to a student as long as there is written permission of the parent/guardian and the medication is given in compliance with the instructions of a physician. The parent/guardian must sign an "Emergency Health Plan and Medicine/Contact Information" form, which will be kept in the student's file in the office.

Except in an emergency, the medication must be given in the presence of another adult. The school employee is held harmless from liability in the case of gross negligence or misconduct.

POLICIES & GUIDELINES FOR ADMINISTERING MEDICATIONS

The Academy has aligned their policies with the state model policy for administering medications and provides appropriate training to individuals who administer medications to pupils at school. The school Board adopted policy is available online and has been publically reviewed.

The following definition of "medication" is adopted for use in this district/school: medication, includes prescription, non-prescription and herbal medications, and includes those taken by mouth, by inhaler, those that are injectable, and those applied as drops to eyes, nose, or medications applied to the skin.

- The pupil's parent/guardian will give the school written permission and request to administer medication(s) to their pupil.
- Written instructions from a physician, which include the name of the pupil, name of the medication, dosage of the medication, route of administration, and time the medication is to be administered to the pupil, shall accompany the request and be kept on record by the school.
- Parental or guardian request/permission and a physician's instructions for administration shall be renewed every school year.
- The building administrator will designate an individual(s) responsible for administering medications to pupils at the school.
- Medications must be administered by one adult in the presence of a second adult, except where the individual administering the medication is a licensed registered professional nurse (as described in the Michigan Revised School Code, Section 380.1178), or when an emergency threatens the life or health of the pupil.
- Each building has a plan for handling medical emergencies available for all students including students with disabilities who have an Individualized Educational Program (IEP) or Section 504 Plan.
- Each building will have at least two (2) epinephrine auto-injectors (Epi-Pens) as well as designated, trained and authorized employees to administer an Epi-Pen injection in case 1) any student who has a prescription on file

with the Academy, in accordance with the directives in such prescription 2) if an individual on school grounds is believed to be having an anaphylactic reaction.

The following definition of “self-administration/self-possession” is adopted for use in this district/school: Self-administration means that the pupil is able to consume or apply prescription and non-prescription medication in the manner directed by the physician without additional assistance or direction. Self-possession means that the pupil may carry medication on his/her person to allow for immediate and self-determined administration.

- A pupil whose parent/guardian and physician provide written permission will be able to self-administer and self-possess his/her own medications.
- A medication that a pupil possesses must be labeled and prepared by a pharmacy or pharmaceutical company and include the dosage and frequency of administration.
- A pupil’s use cannot be denied if the conditions of written permission and physician direction are met. A building administrator may discontinue a pupil’s right to self-administer and self-possession if there is misuse by the pupil. The denial shall follow a consultation with the parent/guardian.

PROCEDURES FOR STORAGE & ACCESS TO MEDICATIONS IN SCHOOL

- It is recommended that medications be brought to the school by the pupil’s parent or guardian.
- No changes to medication dosage or time of administration will be made except by instruction from a physician.
- Parental or guardian request/permission and a physician’s instructions for administration of medications shall be renewed every school year.
- Expiration dates on prescription medications, EpiPens, and inhalers shall be checked at least twice each school year.
- Any unused medication unclaimed by the parent will be destroyed by administrative personnel when a prescription is no longer to be administered or at the end of a school year. Notation of the method of disposal and the date shall be entered on the Medication Log. This procedure shall be witnessed and initialed by a second adult.

ILLNESS

If a student becomes too ill to remain in class, the nurse or office personnel will contact the parent/guardian to recommend that the student be picked up. Therefore, it is imperative that the office has on file a phone number where parents/guardians may be reached during the school day. Such numbers might include home, work, cellular, pager, relative’s and/or friend’s phone numbers. While the parent/guardian is en route to the school, the student will be made comfortable in the office.

FLU, H1N1 AND OTHER INFECTIOUS, COMUNICABLE, TRANSMISSIBLE DISEASES

If a student becomes ill or suspects being ill of the flu, H1N1 or other infectious diseases, the parent/guardian is required to notify the school. If a student becomes ill during the school day, the following protocols shall be followed:

1. The student shall share with teacher immediately.
2. The teacher will screen the student and send to the nurse or main office if suspicious of infection.
3. Suspected cases will be reported by the nurse to the Principal and parents will be contacted. Student will remain isolated until parent pick up.

Students with confirmed infection will need a physician’s clearance to return to school. Students will be provided with lessons, assignments and materials while absent for 5 or more days. The Parent will be responsible for the pickup of assignments and materials and ensuring the student makes up the missing lessons and assignments. The school will provide written instruction to the parent/guardian regarding appropriate treatment for the communicable disease.

SCHOOL-BASED ASTHMA MANAGEMENT PLAN

According to the MI Department of Education (MDE), there has been a significant increase in the number of students with asthma in our schools (MI schools). In fact, asthma is the leading serious chronic illness of children in the United States. It is also the number one cause of school absenteeism due to a chronic condition, leading to an estimated average of 7.3 school days missed annually. In order to decrease the amount of time these students are absent from

school because of acute episodes of asthma, the following recommendations are offered by the Academy based on recommendations of the Michigan Asthma Steering Committee of the Michigan Department of Community Health, based on Asthma Management Guidelines of the National Heart, Lung, and Blood Institute:

- Many children with asthma are taught to carry their own medication (example: metered-dose inhalers) and to self-administer as part of their doctor-prescribed treatment regimen. The Academy will honor the parental request and doctor has written instructions that allow a child to carry and self-medicate.
- The Academy will support and encourage pro-active communication with parents of asthmatic children. The successful management of asthma is a partnership between home, school, and the child's health care provider. A sample Asthma Management Plan may be obtained from the main office and must be completed by the asthmatic child's parents and doctor on an annual basis or more often if the child's medications change. This form is also available on the Michigan Department of Education's website at: <http://www.state.mi.us/mde>.
- If needed, school administrators may have direct communication with the child's health care provider in order to resolve individual problems that may arise because of the child's asthma.
- The Academy provides opportunities for staff to learn more about asthma and allergies in the following areas:
 - All staff are provided mentoring/training so they should know the early warning signs of an acute asthma episode, and should be aware of emergency procedures and contacts in case a child needs medical assistance. The flyer, "Signs of an Asthma Emergency," is distributed to all staff and posted on bulletin board around the school as well as available on the school website and in this handbook.
 - Staff are provided mentoring/training so they should be aware that chalk dust, animals in the classroom, strong odors (perfumes and paints), cleaning agents, mold, and numerous other substances may be asthma triggers for some children.
 - Staff with asthmatic students are provided with mentoring/training so they should know the signs of possible side effects of asthma medications; also be aware which side effects are serious enough to warrant reporting to the child's parents or health care provider. This information is provided in a secure location available only to the child's teacher(s) and applicable administrator's in our student data management system (PowerSchool); it is important parent's keep the school informed of medication changes so that we may continue to update medical health information online and make available as needed.
- Environmental pollutants are often triggers for acute episodes of asthma. Extensive building repairs or cleaning is scheduled for long vacations or during summer months to avoid exposing children to fumes, dust or other irritants. Routine cleaning and maintenance of the heating/cooling and air filtration system is important for reducing amounts of dust and mold in the schools and is provided as needed.
- Physical education teachers, playground aides, and teachers are provided mentoring/training, as they need to know that exercise can induce acute episodes for many students with asthma. Exercise in cold, dry air and activities that require extended running appear to trigger asthma more often than other forms of exercise. If a child's doctor prescribes medication to be taken prior to gym class or other physical exertion to help avoid an acute asthma episode; the child's doctor should describe the use of preventive medication in the child's asthma management plan, which is reviewed by the physical education teachers at the beginning of each school year, or if the child's plan changes as well as other applicable staff using PowerSchool.
- It is important for school staff that are responsible for students during physical activity to be aware of those students who have exercise-induced asthma. Staff are provided with this information including regular updates as changes occur so that a child with exercise-induced asthma should be allowed to stop any physical activity if they are having difficulty.

SIGNS OF AN ASTHMA EMERGENCY

SEEK EMERGENCY CARE IF A CHILD EXPERIENCES ANY OF THE FOLLOWING:

- Child's wheezing or coughing does not improve after taking medicine (15-20 minutes for most asthma medications)
- Child's chest or neck is pulling in while struggling to breathe
- Child has trouble walking or talking
- Child stops playing and cannot start again

- Child's fingernails and/or lips turn blue or gray
- Skin between child's ribs sucks in when breathing

Asthma is different for every person. The "Asthma Emergency Signs" above represent general emergency situations as per the National Asthma Education and Prevention Program 1997 Expert Panel Report.

If you are at all uncertain of what to do in case of a breathing emergency, Call 911 and the child's parent/guardian

Michigan Asthma Steering Committee of the Michigan Department of Community Health

HEAD LICE

The Academy, based on MDCH and MDE recommended policies, focuses on the exclusion of active infestations only. Active infestations can be defined as the presence of live lice or nits found within ¼" of the scalp. Nits that are found beyond ¼" of the scalp have more than likely hatched, or are no longer viable.

- Any students with live lice may remain in school until the end of the school day. Immediate treatment at home is advised. The student will be readmitted to school after treatment and examination. If upon examination, the school-designated personnel finds no live lice on the child, the child may reenter the school.
- Any students with nits (farther than ¼" from scalp) should be allowed in school.
- Parents should remove nits daily and treat if live lice are observed.

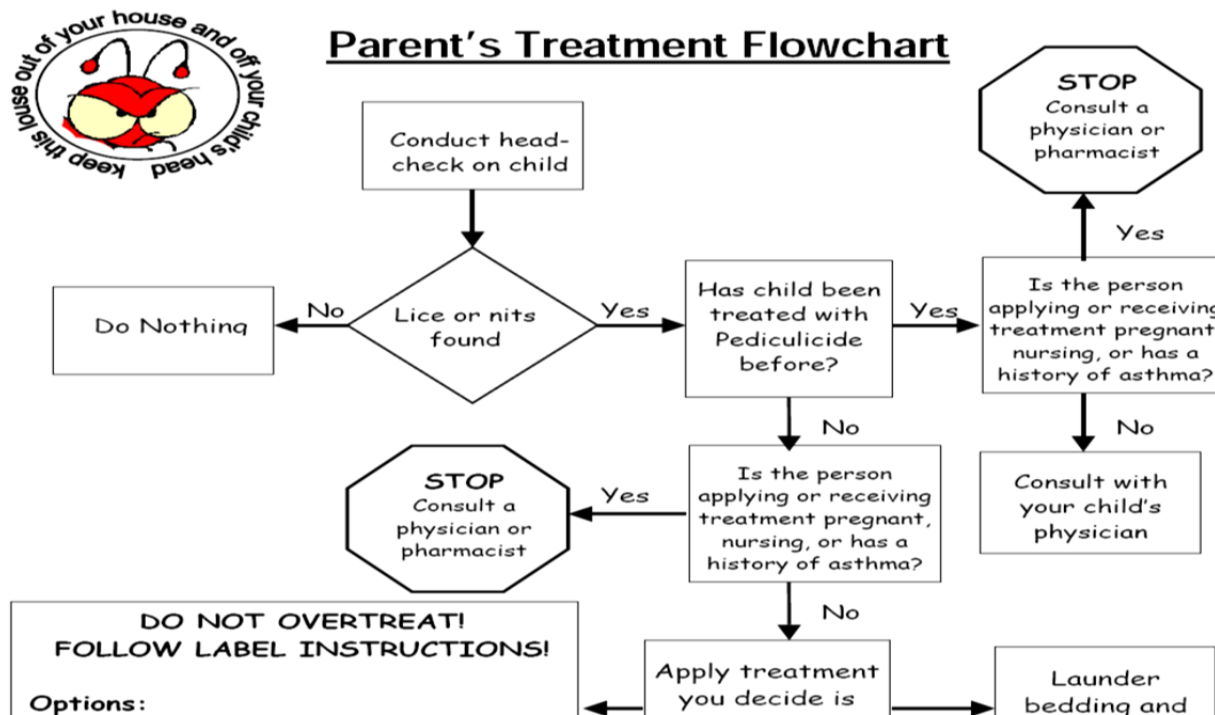

When a member of school staff suspects a child is infested with head lice, the following procedures should be followed:

- The child will be restricted from activities involving close contact (i.e. Hugging) or sharing personal items (i.e. hats, clothing, brushes) with other children.
- The school Principal will be notified, and the parents will be contacted. Immediate removal of the child is unnecessary. If the child has lice, they probably have been infested for weeks and prompt removal of the child could lead to embarrassment and ridicule. The child will be sent home at the end of the day.
- A letter will be sent home notifying classmates' parents that a case of head lice is suspected and asking them to check all of their children for head lice. The school will also provide parents with a copy of an information sheet on head lice infestation and treatment options.
- Due to the biology of lice, insecticidal treatments to the School are NOT effective and will NOT be done.

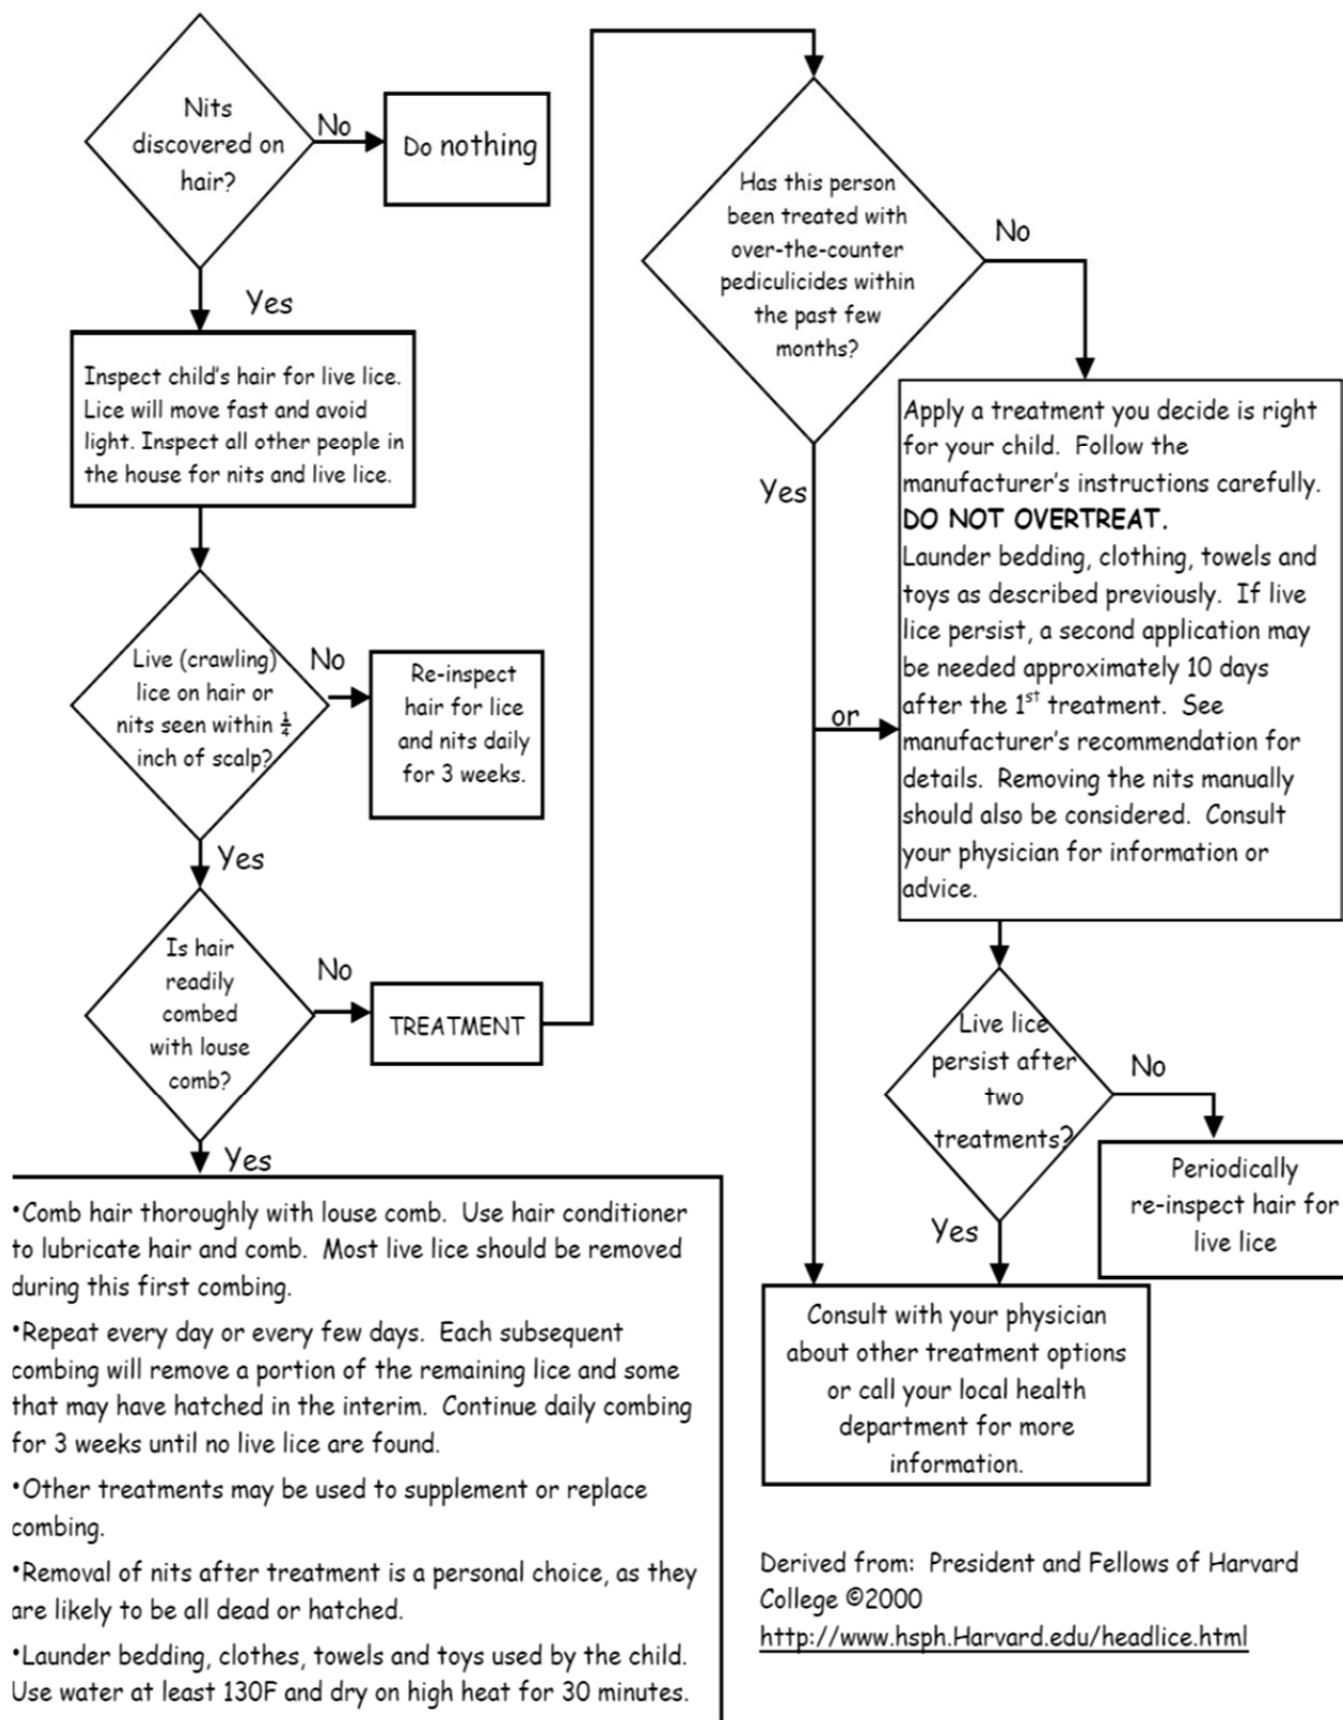

Parents have the ultimate responsibility for their children. This includes:

- Assisting in the prevention and management of head lice cases through regular checks of their children's hair and starting immediate treatment when head lice are detected.

More information on head lice may be found online at MDE's website by visiting www.michigan.gov/mde or visiting the following link: http://www.michigan.gov/documents/Final_Michigan_Head_Lice_Manual_103750_7.pdf

10 Steps to Keep Ahead of Head Lice

- 1) Watch for signs of head lice, such as frequent head scratching. Anyone can get lice, mainly from direct head-to-head contact, sharing hats, brushes, etc.
- 2) Check all family members for lice and nits (lice eggs) at least once a week.
- 3) Be sure not to confuse nits with hair debris, (i.e., dandruff, hair spray droplets or hair casts). Nits are yellowish-white, oval shaped and are attached at an angle to the side of the hair shaft.
- 4) Consult a pharmacist or physician before applying pesticides or other lice treatments if anyone involved is pregnant or nursing, has allergies, asthma, or has nits in the eyebrows or lashes. Never use a pesticide or lice treatment on or near the eyes.
- 5) Consider all of your treatment options. Remember, lice-killing products are pesticides and must be used with caution. If you choose alternative methods, they may not have been studied thoroughly enough to determine long-term outcomes. The only completely safe alternative is manual removal by combing.
- 6) Remove all nits. Separate hair sections and remove nits with a lice comb, baby safe scissors or your fingernails.
- 7) For lice treatment, follow package directions carefully. Use the products over the sink, not in the tub!
- 8) Wash bedding and recently worn clothing in hot water (above 130°F) and dry in high heat for 30 minutes. Combs and brushes should be soaked in hot water (not boiling) for 10 minutes.
- 9) Avoid lice sprays! Vacuuming is the safest and best way to remove lice or fallen hairs with attached nits from furniture, rugs, stuffed animals and car seats.
- 10) Notify your child's school, camp, child-care provider, play partners, and neighborhood parents. **Check for lice on a regular basis.**

HOMEBOUND AND HOSPITALIZED SERVICE POLICY

Parents must notify the school when the child is homebound or when plans are being made for a future hospitalization that will result in the loss of more than five consecutive school days. A Doctors' Statement excusing the child from school for illness and the period that the child will be absent from school, as well as when he/she may return to school, is required. Additionally, certification by the attending physician of the student's condition and any limitations that will affect the student's ability to benefit from instruction is required.

Homebound and hospitalized services are designed to help students, who are unable to attend school due to a medical condition, to keep with their studies and to progress as far as possible given their medical condition. The homebound and hospitalized student's teacher carries the curriculum from school to the home or treatment facility to enable students to continue with their studies.

For a student to qualify for homebound and/or hospitalized service, the student must be enrolled at the Academy. The Academy will provide a minimum of two (2) forty-five (45) minute periods per week by a schoolteacher; provide textbooks and other materials related to the instruction, assignments, and grading, as well until the student is released to return to school.

RESPONSIBILITY OF THE PARENT OR CARE GIVER

Michigan law requires children between the ages of 6 to 16 to be in attendance at school. The requirement is found in Section 1561 of the School Code:

- ¹ Except [for students attending a state approved nonpublic school]...every parent, guardian, or other person in this state having control and charge of a child from the age of 6 to the child's sixteenth birthday, shall send that child to the public schools during the entire school year. The child's attendance shall be continuous and consecutive for the school year fixed by the school district in which the child is enrolled. (MCL 380.1561)**

Parents are responsible, under the compulsory school attendance laws, to ensure the school district is notified when the student is homebound or hospitalized. The parent must provide the name of the attending physician or the hospital and authorize the release of sufficient information to allow the school district to determine eligibility.

1. Provide access to the student's home, and help schedule teacher visits so they do not conflict with medical treatments.
2. Provide an appropriate environment and the necessary supervision for their child to complete assignments.
3. Help the child schedule time for study by ensuring appropriate instructional materials are available on hand.
4. Support the child with the learning activities to the extent possible and as agreed upon with the teacher.

While parents should encourage the child to keep up with schoolwork, they should not do the work for the child. If the parent feels assignments are too difficult, or feels the child does not have the prerequisite skills needed to carry out the assignment, this information should be communicated to the teacher of the homebound and hospitalized services and/or the student's classroom teacher.

STUDENT RESPONSIBILITIES

The students must:

1. Ask for assistance and/or clarification as needed to complete assignments.
2. Attend to the class activities to the extent that they are physically capable.
3. Return materials and supplies after completing assignments.
4. Continue to work with the teacher(s) to do any extra work needed so that the student has minimum competencies needed to complete the subject or grade, after returning to school.

PHILOSOPHY AND PRINCIPLES OF ASSESSMENT

The assessment policy is aligned with the aspects of our mission statement. It is widely recognized that an effective teacher is the single most important factor in a student's lifelong academic success. The Academy recognizes that

¹ Adopted from the Michigan State Board of Education Policy on Homework, Michigan Department of Education, Lansing, Michigan 48909, November 1988.

teaching, learning and assessment are fundamentally interdependent and therefore we are guided by the following principles, in that assessment:

- Is tied directly to curriculum and instruction through the backward planning model.
- Is an integral part of the planning/assessment/reporting cycle
- Monitors the progress of student learning and achievement, and determines the effectiveness of teaching
- Utilizes a variety of methods
- Should be authentic, balanced assessment system of both formative and summative
- Is constructive and promotes positive student attitudes toward learning
- Informs, enhances and improves the teaching process by taking into account student learning styles, prior experience, current knowledge and interests
- Promotes a deep understanding of subject content and the development of higher order thinking skills
- Provides students and families with clear, real-time picture of student progress on learning goals
- Is incorporated into the learning process and is performance-based.
- Is a catalyst for student and teacher reflection and re-evaluation
- Plays a significant role in the development of Approaches to Learning skills (Organizational, Communication, Collaboration, Problem-Solving, Research/Information Literacy, Reflection)

FORMATIVE AND SUMMATIVE ASSESSMENTS

Teacher(s) will use the RtI (Response to Intervention) model for monitoring student progress. Data will be used to measure, on an ongoing basis, student progress to inform instruction and what teachers are doing to improve student achievement:

- ★ Teachers will use student progress monitoring data frequently (weekly/monthly) to determine student growth or response to instruction;
- ★ Teachers will use progress monitoring data to compare a student's expected and actual rate of learning;
- ★ Teachers will use progress monitoring data to adjust the frequency and/or intensity of instruction;
- ★ Teachers will use progress-monitoring data to evaluate the match between instructional strategies and the students' academic or behavioral needs.
- ★ What this means is students need to actively participate in class and complete their formative assessments so that teacher(s) know the current level of progress and can adjust teaching or provide additional help for students to be able to demonstrate mastery on summative assessments.

Teachers will use 3 types of assessments: Diagnostic, Formative & Summative:

- ★ **Diagnostic Assessments:** Will be used by teachers prior to teaching (pre-teaching) to get to know each students level of mastery or progress at the start of a new unit. Students will be informed about learning goals for the topic or unit, the assessment and criteria used to conclude the unit and see examples or role models of the performances expected of them (non-graded and do not adversely affect students' self-esteem);
- ★ **Formative Assessments:** Will be used by teachers during teaching to provide frequent feedback throughout the teaching unit and students will receive very specific feedback. Lessons will be modified based on the feedback and students will be given opportunities to show they can correct and adjust the quality of their work. This includes learning to self-assess their own work (graded and may adversely affect students' self-esteem if not given sufficient opportunity to practice proficiency before end of unit/summative assessment that impacts final grade) → **PRACTICE MAKES PERFECT!!!**
- ★ **Summative Assessments:** (End of Unit) Will be used by teachers to give students the opportunity to demonstrate knowledge and skills they have learned. Teachers will offer two or more options accommodating various learning styles and targeting different learning goals. Students will be aware of the criteria on which their work or performance will be assessed including the use of Rubrics and will know this information at the start of each unit.

Diagnostic tells us what students know before teaching starts, formative tells us what students learn as we go and summative tells us what you have learned after the lesson is complete and students have taken advantage of all the formatives to practice before the end of unit assessment!

Formative	Summative
AS students are being taught.	AFTER students have been taught.
Used by teacher to ADJUST instruction as we go.	Used by teacher to EVALUATE student progress.
How are students doing on their journey toward achieving the standard or skill?	Did students reach proficiency on the standard or skill?
Samples: Pretests, Quizzes, Writing Prompts, Story Summaries, Role Play, Demonstrations, Journals, Graphic Organizers, etc.	End-of-Chapter Exams, Statewide Tests, Oral Interviews, Entrance Exams, Projects/Presentations, etc.

STUDENT PORTFOLIOS – THE STUDENT SELF-REFLECTION PROCESS

All students are responsible for maintaining their individual Student Portfolio. The Student Portfolio process involves setting goals in each subject. At the end of each unit report students do a self-reflection and select work samples they are most proud of from each subject. Based on this, they then create goals for the next term in each subject. In this way, students are routinely reflecting on specific assessment tasks and their overall learning.

STANDARDIZED ASSESSMENT PROGRAM

Students and parents/guardians should be aware that students in grades **Kindergarten – 7th** will take standardized tests on **dates specified in school calendar or as may be provided by the Principal and Director of Research and Evaluation**. Parents are encouraged to cooperate in preparing students for the standardized testing, because the quality of the education the school can provide is partially dependent upon the school's ability to continue to prove its success in the State's standardized tests. Parents can assist their students in achieving their best performance by doing the following:

1. Encourage students to work hard and study throughout the year
2. Ensure students get a good night's sleep the night before exams
3. Ensure students eat well the morning of the exam, particularly ensuring they eat sufficient protein
4. Remind and emphasize for students the importance of good performance on standardized testing
5. Ensure students are on time and prepared for tests, with appropriate materials, including number 2 pencils
6. Teach students the importance of honesty and ethics during the performance of these and other tests
7. Encourage students to relax on testing day.

REPORTING PROCEDURES – COMMUNICATING WITH STAKEHOLDERS

POWERSCHOOL PARENT PORTAL

Parents of students who are enrolled at the Academy receive a letter in the beginning of each school year, explaining an online program which is called PowerSchool Parent Portal, and that holds data regarding our students' academic profile. The parent portal option in PowerSchool provides access to parents for means of regularly tracking grades, academic progress, and attendance for their children, as well as keeping posted on school bulletins. Parents can simply log on to ps.niapsa.org.

Parent login access can only be released to parent. In the event that a parent needs login and password re-issued, a written request signed by the parent must be submitted to the main office.

PARENT-TEACHER CONFERENCES

Parent-teacher conferences will be scheduled throughout the school year (please refer to the school calendar for specific dates). Conference request slips will be sent home prior to the conference dates, to provide parents the opportunity to select a convenient time. However, please understand that due to complications in scheduling, it is not always possible to meet those requests, but every effort will be made to do so.

In the event that a parent/guardian wishes to contact a teacher outside of these scheduled times, he/she may do so by contacting the office to set up a mutually convenient meeting time. Parents must make an appointment to speak with a teacher about a child's progress instead of simply "dropping in." This policy is intended to ensure confidentiality and maintain scheduled educational services.

Because the Academy encourages parental involvement in their children's education, it is important that parents understand that the school welcomes communication, concerns and comments from parent(s) or guardian(s) regarding their child(ren)'s education or problems they may be experiencing in the school. Parents/guardians are requested to follow the preceding guidelines when they wish to speak with administration and/or staff. Parents must make an appointment or contact school before dropping in.

PROGRESS REPORTS

The Academy believes that it is important to keep parents/guardians abreast of their child(ren)'s progress in school. Therefore, we will send out progress reports during the school year, which will contain teacher comments as to how your child is doing, what they need to work on and what they are successfully mastering. It is important that you contact your child(ren)'s teacher(s) if you ever have a question about the Progress Report or want to discuss with the teacher how you might better assist your child(ren) in achieving the expected performance standards for their age and/or grade level.

REPORT CARDS

The Academy will report each student's progress by a Report Card on a yearly basis. The decision to promote a student to the next grade level is based on successful completion of the curriculum, attendance, performance on standardized tests and other testing.

ENGLISH LANGUAGE LEARNERS

The school offers opportunities for English Language Learners to develop high levels of academic attainment in English and to meet the same academic content and student academic achievement standards that all children are expected to attain.

Parents/guardians of English Language Learners will be: (1) given an opportunity to provide input to the program, and (2) provided notification regarding their child's placement in, and information about, the school district's English Language Learners programs

For questions related to this program or to express input in the school's English Language Learners program, contact the Building Principal.

SCHOOL TUTORIAL PROGRAMS

We use the Multi-Tiered System of Supports (MTSS) process in identifying students who need to attend our supplemental tutorial programs after school or receive during school tutorial services. Students qualify for services following MDE's at-risk student selection criteria and teachers collaborate with the RtI team to determine which students need interventions and for how long, using our RtI plan. The After School Tutorial Program is held at the school from 3:30–5:00 P.M. Monday through Thursday for enrolled students. The programs focus is on Literacy across curriculum and STEM (Science, Technology, Engineering, & Math) skills. Homework assistance is a separate program provided by teachers after school on an as needed basis.

VIRTUAL LEARNING, DISTANCE LEARNING & INDEPENDENT STUDY

Students have the opportunity to participate in additional learning experiences with School Principal and Superintendent's approval to take courses defined as virtual learning, distance learning and/or independent study experiences. The courses must be academic in nature, local school board approved, and earning you credit towards MMC high school diploma or grade progression.

The Academy will collaborate with Keystone Online Learning/Michigan Virtual University or other approved entities to provide supplemental online courses and resources to expand opportunities for all students.

Courses may be offered at the Academy during the day as a scheduled class period with a certificated teacher available in the classroom or through distance learning, through enrollment at a community college or university, or, the course may be offered at a self-scheduled time. An on-site certificated teacher serving as a mentor, for assistance and evaluation, shall be assigned to the pupil by the Academy.

Types of courses are defined as follows:

- **Computer or internet courses provided at the school** during the school day as part of your class schedule, while you are in regular daily attendance. A certificated teacher will be present in the classroom. The number of courses taken, through the computer or the internet, at the school with the certificated teacher present are unlimited but require an application/approval process similar to dual enrollment process to ensure successful completion of a 4-year MMC high school diploma program.
- **Distance Learning** is provided via two-way communication between the teacher-of-record and a group of students over a television monitor. The period of instruction is part of your schedule during the regular school day. An adult shall be present in the classroom and opportunities are made available pending availability of cooperative arrangements among districts. The number of courses taken, through the two-way communication device, at the school with the certificated teacher present are unlimited but require an application/approval process similar to dual enrollment process to ensure successful completion of a 4-year MMC high school diploma program.
- **Self-scheduled** virtual learning courses are taken at your self-scheduled time and place. The course will be a part of your class schedule with the teacher-of-record identified and you shall be concurrently enrolled in and attending at least one course offered by the district in which credit is earned and regular daily attendance is required. You shall be enrolled in the self-scheduled course and in attendance on the pupil membership count day or the supplemental count day during the class time designated for approved courses. You are limited to two self-scheduled courses, which require an application/approval process similar to dual enrollment process to ensure successful completion of a 4-year MMC high school diploma program.
- **Independent study** courses are a learning experience that is academic in nature providing you the opportunity for self-directed learning. This course shall appear on your schedule and teacher-of-record must be identified. You shall be concurrently enrolled in and attending at least one course offered by the district in which credit is earned and regular daily attendance is required. You shall be enrolled and in attendance on the pupil membership count day or the supplemental count day during the class time designated for approved courses. You are limited to two independent studies courses, which require an application/approval process similar to dual enrollment process to ensure successful completion of a 4-year MMC high school diploma program.

- **Foreign Language:** The proficiency guidelines of the American Council on the Teaching of Foreign Languages (ACTFL) describe language proficiency in terms of five levels: Novice, Intermediate, Advanced, Superior and Distinguished. At the Novice, Intermediate, and Advanced levels, proficiency is further defined as low, mid, or high. MMC requirements expect students to reach proficiency of Novice High Level, which typically requires more than two credits of study. This is why we offer Arabic language for students from Kindergarten through 7th grade as students will need the opportunity to attain high levels of proficiency for meeting MMC. This will also set students up to be able to demonstrate proficiency and earn High School credit through K-7th experiences effective for the class of 2017 as studies show you can reach the level of Novice mid by studying in grades K-4. Students are also offered the opportunity to study French or other languages through electives upon completion of their Arabic Language requirements.

PROMOTION/RETENTION POLICY

The philosophy of our Academy is that all students are capable of learning if given the opportunity. In consideration for grade placement, we review the following:

- ★ Academic Progress: mastery of grade level content expectations, summary test score data, teacher's observation of performance, ruling out of a disability;
- ★ Social/Emotional Development: child's attitude toward school, peer and adult relationships, behavior in a school setting, attention span and task commitment and confidence in school;
- ★ Physical Development: age in relationship to peers in grade level;
- ★ Attendance: gaps in learning due to illness/excessive absences, change in school or other factors contributing to learning problems;
- ★ Alternative Placements/Interventions: previous alternative grade placement (promotions/retentions), interventions that have been attempted (reading recovery, MTSS Tier 2/3 services, support services, etc.)

Practices designed to allow students to be placed at a higher-grade level for periods of time during the day due to their academic progress and instructional needs are in place at our Academy. A child could be double promoted if all of these conditions exist:

- ★ The student has shown evidence of advanced mental age, high intelligence and outstanding academic ability and performance;
- ★ The student's standardized achievement test scores support a double promotion;
- ★ The student's physical maturity has been considered;
- ★ The student demonstrates social and emotional maturity commensurate with the maturity level of students in the grade placement for which the student is being considered;
- ★ Double promotion may be considered when acceleration has been successful.

Students should first be accelerated in the subject/content area where they show their highest ability. Additional subjects may be added if appropriate. The recommendation must be supported by both the professional staff and parents and the student should be involved in the decision-making process and should understand and support the placement.

A child may be considered for retention if a combination of the following criteria exists:

- ★ The retention will benefit the child;
- ★ The child is performing significantly below the grade level;
- ★ The child demonstrates social/emotional immaturity;
- ★ Poor habits, incomplete work and/or excessive absenteeism affects achievement;
- ★ Additional factors may be considered in making a decision for retention. In some situations, it is in the best interest of the student that he/she not be retained, although the student may qualify as a retention candidate.

HOMEWORK POLICY

Homework is schoolwork that is assigned and intended to be completed during study time allotted in class or at home as needed at the individual level. There are times when homework may not be assigned to all students based on need and proficiency levels so please refer to your child's agenda/planner to confirm homework requirements. Homework can include tasks that create a readiness for learning, review or reinforce information and skills presented in class, material that expands or enhances knowledge, exercises that combine concepts and ideas into projects, and activities that help prepare for a test or quiz.

Homework is an essential part of education. If the student fails to complete the assigned homework, the student may be subject to the disciplinary actions given at the discretion of the classroom teacher, but may not be punitive on the child's academic achievement (for example, loss of points, loss of credit, detention, etc.). A copy of each teacher's classroom rules regarding homework will be posted in their classrooms and also be available in the office.

Homework may be written, study, memory or research-type work. A teacher may send papers home for parents' observations and the parents' signature(s). These papers are to be signed and returned the next day.

The Academy encourages all parents/guardians to assist their children with homework in the following ways:

1. Set a regular homework time for your child that is at least one hour long.
2. Designate a "homework place" in the house where the child will be comfortable and free from noise and other distractions.
3. Ask your child each day after school what homework they have been assigned.

4. Send a note to your child's teacher the following day for any questions you may have regarding your child's homework, or if there is an acceptable reason, why your child was unable to complete that night's assigned homework.
5. Praise your child often for trying, even if they sometimes have difficulty completing homework. Reward them for sticking to the homework schedule.

Always get in touch with your child's teacher if you have questions regarding your child's progress. All schoolteachers will require identical homework paper headings written in the upper right hand corner of the paper as applicable and assigned:

Your Name
The Date
The Class Period
The Assignment

SCHOOL BOOKS, RESOURCES AND SUPPLIES

SCHOOL BOOKS - STUDENT RESPONSIBILITY

Books are classroom resource tools of learning and are becoming increasingly expensive for the school to purchase. Teachers will issue student textbooks, trade books and/or other materials for the school year. These items are loaned to the student for that period. Once textbooks and/or library books are checked out to a student, the student becomes financially responsible for the condition and return of those books (with the exception of consumable workbooks). We do not expect students to deface schoolbooks in any way. Books should be covered and kept clean. At the time of issue, school personnel will note the condition of the book(s). The student will be expected to pay for any damage other than typical wear from use. If the book (or item) is not returned at the end of the school year for which it was issued, the parent/guardian must pay for it. If the book or item is returned in poor condition (damaged), the parent/guardian must pay a damage fee.

USE OF LIBRARY BOOKS

If a book is lost, a replacement fee must be paid. If the book is later found and returned, the money will be refunded less the overdue charge and any additional fees. A fair charge will be made for damage beyond normal wear. Fines can be avoided by accepting responsibility for the care of borrowed material.

Teachers are asked to follow the same rules for personal use of library materials as the students. Books and/or reference materials may be placed on temporary reserve for pupil use. Reminder of proper library rules: PLEASE BE QUIET AND WORK RESPONSIBLY!

Accordingly, the Board authorizes the public school Principal or his/her designee to search lockers and locker contents at any time, without notice, and without parental/guardianship or pupil consent.

The public school Principal or his/her designee shall not be obligated, but may request the assistance of a law enforcement officer in conducting a locker search. If a student is caught in the hallway without a pass, he/she will be escorted back to class or taken to the administration. Detention or suspension may be issued after investigation has taken place.

All 6th – 7th grade students are required to use a planner as a hall pass. With adoption of an electronic attendance system, students may also be required to electronically sign-in/out in addition to use of hall passes.

STUDENT ID CARD POLICY

The purpose for a "student ID card" is to ensure that each student is readily identified as a student of the Academy and to identify and exclude those individuals who have no legitimate business on campus during school hours and/or school activities. Students who damage or destroy any school property will pay for the cost of repair or replacement of the items.

BULLETIN BOARDS AND POSTERS

Bulletin boards are assigned for the use of particular student groups and for school-wide purposes. Those assigned bulletin board space, whether in homeroom, classes, corridors, cafeteria, etc., are responsible for keeping the boards neat and current. Posters and other notices must be approved by the Principal or delegates - in some cases, the Dean of Student Affairs ("DSA"). There will be showcases assigned directly to the department coordinators (Library, National Honors Society, Athletic Department, Academics, and Administration). Any type of vandalism, such as writing and/or destroying of school property, will result in a 1-3 day suspension and payment to replace item damaged.

SCHEDULING OF FACILITIES/ACTIVITIES

The building or facilities of the school will not be open to students at any time unless there is a faculty member or authorized adult supervisor present (weight room especially). All facilities, materials, and equipment must be approved for use by the school administration. All school activity proposals must be approved by the Principal and Superintendent.

ADMITTANCE TO THE BUILDING

Students must enter by the designated door(s) only. Students will be admitted to the building before school starts by 7:30 AM in cases of inclement weather. EXIT AND ENTRANCE DOORS

Students are not permitted to open any doors for anyone who wants to come in to the school building. This is for the safety of our students, staff, and guests. All guests that want to come into the building are required to call the office to be buzzed in. Students, staff and guests are not permitted to barricade the doors as this poses a safety issue.

SECURITY MEASURES

The following security measures are being enforced at the Academy to ensure the safety of the students:

1. All outside doors in each building are to be locked at all times (Do not place rocks or other items next to door to keep them open).
2. All visitors to the schools must report to the main office for a visitor's pass.
3. All rooms/offices that are not in use in the buildings are to be kept locked at all times.
4. The Board of Education has provided a system of internal building control through closed-circuit television in our schools. Further information with regard to the system will be provided to parents by building administrators.

ELEMENTARY SAFETY PRECAUTIONS

1. Discuss safety regulations with your children.
2. Remind children to remain well on the shoulder of the road when walking to the bus stop or to school or waiting for a ride.
3. Be sure your child faces traffic when walking at any time and when walking to school.
4. All of us should be more alert while driving during the times when children are on the move.
5. If possible, it might be well for parents to arrange to be at the school and or bus stop to supervise the arrival and departure of their child(ren).
6. We make a practice of going outdoors for recess whenever the area is safe or when the weather is fit, please dress your children accordingly.
7. Kindergarten parents should please see that their children wear slacks or tights as they sit on the floor during their daily program.
8. If your children walk to school or are transported by you, please arrange to have them there no earlier than 15 minutes before the session begins.
9. Jewelry should not be worn at any time on school grounds.

SECONDARY SCHOOL SAFETY PRECAUTIONS

1. Walk on sidewalks where provided, and stay off roads as much as possible.
2. Refrain from disruptive behavior at bus stops.
3. Practice basic safety rules and regulations at all times.

4. Stay clear of the school bus until the driver makes a full stop.
5. Be alert to the dangers of early morning traffic.
6. Jewelry should not be worn at any time on school grounds.

TRAFFICKING

Where there is evidence of a student(s) supplying alcohol or other drugs; five (5) days suspension will result and a notification to the Superintendent, and possible recommendation for expulsion. Authorities will be contacted.

PROFANITY/ ABUSIVE LANGUAGE, INSUBORDINATION

The use of any profanity word will have zero tolerance by the administration. Parents will be contacted and a mandatory meeting will be arranged before the student may return to school. No profanity/abusive language or insubordination will be tolerated at the Academy. Violations shall result in a detention, suspension, and/or expulsion. This policy is also in effect while participating in any school sponsored events or athletic programs, on or off campus.

WEAPONS POLICY (GUN/KNIFE FREE SCHOOL)

Students are forbidden to knowingly, and/or voluntarily possess, handle, transmit, or use any instrument that can be used as a weapon to harm or injure another person at school, at a school activity, on school grounds, or in school provided transportation. Students may not bring a firearm to school. A student bringing a firearm to school shall be expelled from school for a period of not less than one year unless the Superintendent modifies the expulsion requirement on a case-to-case basis in order to comply with the Individuals With Disabilities Act (Sec. 504).

The term “weapon” means any object which, in the manner in which it is used, is intended to be used, or is represented, is capable of inflicting serious bodily harm or property damage, as well as endangering the health and safety of persons. Weapons include, but are not limited to, firearms, guns of any type, including air and gas-powered guns (whether loaded or unloaded), knives, razors, clubs, electric weapons, metallic knuckles, martial arts weapons, ammunition, and explosives.

Students may not bring water guns, toy guns, or Bee-Bee guns to school. This is a serious safety issue. Such a device can be harmful and at minimum is intimidating. Students that bring a Bee-Bee gun to school will receive a three to five day suspension and or a request for expulsion. (Authorities will be contacted.)

Students may not bring a knife to school. A student bringing a knife to school shall be suspended from school for a period of not less than one day. Students bringing a knife to school for purpose of threatening its use to inflict fear, or attempted use, shall be expelled from school for a period of not less than one year, except to Sec. 504 similar to the gun policy.

DRUG FREE SCHOOL

The Board of Directors of the Academy recognizes that the use of drugs has serious legal, physical, and social implications for the entire school community. The Board is committed to the prevention of substance abuse and rehabilitation of drug users by educational means, but will take whatever steps may be necessary to protect members of the school community from harm and exposure to drugs.

Therefore, the Academy will provide a comprehensive age appropriate program that presents information and activities to encourage students to abstain from the use of alcohol and other drugs, creating a caring, nurturing environment in which clear institutional limits are set and establish an appropriate intervention program for students at risk. The success of the comprehensive program depends upon mutual involvement and cooperative relationships among parents, community, law enforcement, and schools.

It is the policy of the Academy to prevent and prohibit the manufacture, possession, use, sale, distribution, or intent to distribute any illegal or controlled mood altering chemical, drug paraphernalia, look-alike drug, or abused chemical on school property, school sponsored events, and on school buses. The Academy has zero tolerance for this activity.

Teachers have the right to refer students to the administration who are displaying behavior not normal to the student's normal behavior with reasonable suspicion. Students not complying with the above will be in violation of this policy. Students will not be allowed to return to school until a drug test is completed. Any of the Academy Students who are identified for suspicious behavior will be suspended until drug tests results show negative.

OFF-CAMPUS MISCONDUCT

A student's conduct off-school grounds and during non-school time can still be grounds for disciplinary action up to and including suspension and expulsion if there is a reasonable likelihood that the student's return to school would contribute to a disruptive effect on the educational process. A threat to the school's orderly operations, the safety and welfare of the people who work or study at school, and the safety of school property are examples. Such off-school misconduct may include, but not be limited to the use, possession, sale or distribution of dangerous weapons or illegal drugs, or violent conduct when reasonable doubt is established.

FIGHTING

Fighting is never in order. Intentionally causing or attempting to cause bodily harm to any student or school employee on the school grounds will not be tolerated, either immediately before, during, or after school hours or on the school grounds at any other time that the school is being used by a school group, such as off school grounds at an educational function or event in which the school is a participant, or such as when a student is traveling to or from such an event in a school provided conveyance.

Students may be subject to potential reinstatement after the expiration of 180 school days, under the procedure set forth in this Student Code of Conduct. A written assault against a school district employee, volunteer or contractor at school shall result in the student being permanently expelled from school. The student will be responsible to fix the problem and/or pay for the damages.

HAZING²

Hazing activities of any type are inconsistent with the educational process, a violation of Michigan criminal law, and are prohibited at all times. Hazing means an intentional, knowing, or reckless act by a person acting alone or acting with others that is directed against an individual and that the person knew or should have known endangers the physical health or safety of the individual, and that is done for the purpose of pledging, being initiated into, affiliating with, participating in, holding office in, or maintaining membership in any organization. CLASSROOM MANAGEMENT

Each teacher is fully responsible for the discipline in his/her classroom and will collaborate with students to develop a classroom management system appropriate for that age level to help students understand and integrate these guidelines and rules into their daily activities. Teachers are responsible for making their classroom management system known to

all staff, volunteers and parents of their students to promote partnership and support to carry out the rules and guidelines, ensuring uniformity in understanding, interpretation, and implementation of the system.

1. Parent contact: In the event that normal classroom management systems are not sufficient to correct disruptive or disrespectful behavior, the teacher will contact the parents. The parents will be responsible for discussing the problem with the child and assisting the child to correct the behavior.
2. Parent-teacher conference: If the behavior continues, a mandatory parent-teacher conference will be scheduled with the teacher. If both the parent and teacher agree, the child may be included in the meeting. The teacher or parent may request that an administrator be present. The parent may also be required to observe in the classroom.
3. Staff intervention: If the problem does not improve, the Dean of Student Affairs ("DSA") will call the parents to schedule another conference to determine the most appropriate course of action. It may be recommended that a Student Study Team, consisting of teacher(s) and other appropriate staff, be convened to develop and appropriate action plan. The members of this team will work with the family and teacher to cultivate healthy classroom and playground behavior.

DETENTION/REFLECTION

Detention/Reflection is a classroom and school-wide management tool that may be assigned to students for discipline problems that arise. Reflection Time: Students who are issued One Hour Reflection (OHR), Half Day Reflection (HDR) or Full Day Reflection (FDR) time will be given their tasks for the period(s)/day from their teachers to complete in the Dean of Student Affairs' office.

Detention/Reflection will be served:

Mondays through Thursdays: 3:30 PM - 5:00 PM for all grades K to 7.

Fridays: 12:30 – 2 PM

The student's parent/legal guardian will be notified in writing and by phone a day in advance of Reflection/ Detention. Students who skip their scheduled detention will be given one (1) other day to make it up. If the student does not show up for the makeup date, they will be issued a one day reflection or out of school suspension.

SUSPENSION VARIABLES

An out-of-school suspension is a temporary dismissal from classes or school from one to ten days. Upon the DSA or Principal's discretion, two Friday detentions may be assigned in lieu of a one (1) day suspension.

OUT-OF-SCHOOL SUSPENSION

Students who repeatedly violate the rules and regulations of conduct may be subject to an out-of-school suspension for 1-10 days as determined by the Principal's Office. Notice will be provided to the parents/guardians. Students who are suspended will not be eligible to participate in after-school activities. Students are responsible for making up any missed work, tests and/or assignments during the out-of-school suspension period.

Students who are suspended may not be on school property during their suspension period unless they have authorization from the Principal or the Dean of Students Affairs ("DSA"). Failure to comply with such rules will lead to further disciplinary action.

POSSESSION OF ELECTRONIC DEVICES

The following guidelines apply unless specific activities/devices are preapproved by Principal, and/or DSA to promote student learning.

TELEPHONE USAGE

Students are not allowed to use the telephones at any time without permission from a teacher or staff member.

SCHOOL CELL PHONE AND OTHER COMMUNICATION/ELECTRONIC DEVICES POLICY

Students may not use cell phones, pagers, two-way radios, pagers; PDA's and unauthorized laptops during regular school hours on school property, as they create a distraction and disruption. Use of these devices during the school day is absolutely prohibited. The use of these devices is not allowed on any other portion of the school campus during the regular school day unless an emergency situation, as defined by District staff, exists. Students who use their phone in the school building during the regular school day will be subject to disciplinary action per the administration.

USE OF DEVICES ON SCHOOL BUSES

Cell phone and other unauthorized electronic device usage by students while riding to and from school on the bus, or on the bus during school-sponsored activities is prohibited as it may result in distracting behavior that creates an unsafe environment, which is not tolerated.

DISCIPLINARY ACTION

Students who violate the above restrictions shall be deemed to have created a disruption to the instructional environment and are subject to disciplinary action including suspension, as well as confiscation of the cell phone and/or electronic device. The confiscated items will be held by the school for any period of time deemed appropriate and necessary by the Academy's administration and will only be released to the student's parents or guardians.

Should a student violate the cell phone policy and use a cell phone or any other electronic device at school, the Academy School District shall not assume responsibility for theft, loss, or damage of a cell phone, or unauthorized communication made using the cell phone.

Any student who has the cell phone visible to any staff member, whether it is in use or not, will be confiscated and will not be returned to the student, unless a parent meeting is held. Cell phones may be withheld at the discretion of the staff member.

STAFF AUTHORITY

Any staff member can and should correct any student's inappropriate behavior, which conflicts with the school policies at any place on school grounds. These incidences should be reported to the school administration.

STUDENT RESPONSIBILITIES

Dear student,

We welcome you to the Academy, and hope that we can all work together to make the school a good environment for you to learn and be able to achieve your full potential. In order to do so, it is necessary to have rules and regulations that we can all follow. If you observe your environment, you will see that every single aspect of the world lives by rules and regulations; you can look how the sun rises and sets according to a certain path, and the planets and the moon each have their own path. Just imagine that the earth decides to stop moving, or the sun decides not to send its rays, there would be no life on earth. Take, for example, how the water becomes vapor, and then it becomes clouds, which will become rain and snow. All of this takes place according to rules and regulations. Just imagine what would happen if we did not have traffic lights? We would have so many accidents making it almost impossible to drive.

So we hope by now you understand the importance and the need for rules and regulations.

In order to create a safe environment for learning, each one of us has to be responsible for his/her actions. **Actions have rewards and consequences** depending on how we act. If we act in a way that will help others, then we will be rewarded. However, if we act in a way that will harm others, then there will be consequences.

Our intention is to use a code of discipline that consistently emphasizes responsibility, accountability, and fairness. Based upon what has been said, we ask you to read the following responsibilities carefully. Take them seriously, and follow them.

SHORT-TERM SUSPENSIONS NOT EXCEEDING TEN (10) SCHOOL DAYS

1. Authority

The Principal, the Dean of Student Affairs ("DSA"), Superintendent or his/her designee has the authority to impose a short-term suspension when there is reasonable cause to believe that there has been misconduct.

2. Procedure

The student must be informed of the specific charges that serve as the basis for the possible suspension or other disciplinary action.

- a. The student has the right to present any information supporting his or her defense to the administrator who will decide whether disciplinary action is warranted.
- b. The student's parent(s) or guardian(s) shall be notified as soon as possible if the student is temporarily suspended from school or retained after school.
- c. Authorized administrator may impose a suspension not to exceed ten (10) school days. Before imposing suspension, the authorized administrator should consider, without limitation, the actual misconduct, the extent of the student's individual involvement, and the student's record, both academic and behavioral. The initial appeal is to the student's Principal. Subsequent appeal is to the Superintendent.

3. Appeal

- a. Request for an appeal of a short-term suspension shall be made within three (3) days of the date the disciplinary action was taken. This appeal must be made in writing stating the adjustments being requested and the justifications. This appeal shall be directed to the Building Principal who will conduct the review of the suspension.
- b. Based on the review of the appeal, the Building Principal will notify the student and his/her parent(s), in writing, of his/her decision to uphold, modify or reverse the suspension.

LONG-TERM SUSPENSIONS EXCEEDING TEN (10) SCHOOL DAYS OR EXPULSION

1. Authority

The Superintendent or his/her designee has the authority to impose a long-term suspension based upon a finding of misconduct.

The Superintendent and/or the Board of Education have the authority to expel based upon a finding of misconduct.

2. Procedure

- a. A long-term suspension or expulsion shall not be imposed absent of an investigation by a building administrator, the Superintendent or his/her designee. In the investigation, the student shall be advised of the misconduct with which he or she is charged, the evidence supporting the charges, and shall be given the opportunity to present his or her version of the alleged incident(s). At the discretion of the investigator, other persons may be interviewed, may be requested to attend the hearing, or otherwise requested to provide information, which will tend to assist in the resolution of the charges.
- b. Where, upon the conclusion of an investigation of the charges, the investigator determines that the student has engaged in misconduct which merits the imposition of a long-term suspension or expulsion, the investigator shall recommend, in writing, to the Superintendent who has not investigated the charges that the student be so disciplined, identifying the basis upon which his or her recommendation is founded. The investigator may also, upon making such determination, impose an immediate suspension of the student, pending further review of the recommendation.
- c. Upon receipt of the recommendation from the investigator for a long-term suspension or expulsion of a student, the Superintendent or designee shall review such recommendation and shall determine, based upon the information before him or her, whether to: (1) retain the matter for a hearing to determine the appropriateness of a long-term suspension, (2) forward the matter to the Board of Education for a hearing to determine the appropriateness of expulsion or (3) take such other action as is appropriate.
- d. If the Superintendent or her/her designee determines it is appropriate to pursue a long-term suspension or expulsion, then the Superintendent or his/her designee shall schedule a hearing before the Board of Education when expulsion is at issue or before the Superintendent or his/her designee, when long-term suspension is at

issue. The hearing shall take place within ten (10) school days following the commencement of the student's suspension. When expulsion is at issue and a hearing cannot be scheduled before the Board of Education within ten (10) school-day period, or if it appears to the Superintendent or his/her designee that the Board of Education may not be able to conclude the hearing within ten (10) school-day period, the Superintendent or his/her designee shall offer the student or his or her parent(s) or guardian(s) an opportunity for an immediate hearing before the Superintendent or his/her designee, within the ten (10) school-day period, on the merits of the charges and the propriety of continuing the suspension until the Board of Education may conduct a hearing.

- e. At a hearing or intermediate hearing as described in the preceding sub-section before the Superintendent or his/her designee, evidence in support of the charges shall be presented by the investigator. The hearing officer shall not be bound by formal rules of evidence and may limit disclosure of the identity of students providing information relative to the charges in accordance with statutes and case law concerning student discipline proceedings. All witnesses in his or her behalf as well as cross-examine witnesses who testify at the hearing shall be sworn. The student may be represented by counsel and may present witnesses in his or her behalf as well as cross-examine witnesses who testify at the hearing in support of the charges. Following the conclusion of the evidence and within ten (10) school days following the commencement of the student's suspension, the Superintendent or his/her designee shall render a decision. Appeal is to the Board of Education.
- f. If the student and/or parent(s) or guardian(s) elect to have a hearing or take an appeal before the Board of Education on the charges, either with or without first participating in an intermediate hearing before the Superintendent or his/her designee, the hearing shall be convened in open or closed session, as elected by the student and/or parent(s) or guardian(s). The Board may designate a hearing officer who shall preside over the hearing until such time as deliberations begin whose rulings on evidence and procedure shall stand unless overruled by a majority of the Board on motion. In any such hearing, the administration shall present evidence in support of the charges. The rules of evidence applicable in administrative proceedings shall generally apply, as modified by statute or case law relative to the hearsay rule and other aspects of student discipline proceedings/ The Board may limit disclosure of identity of students providing information relative to the charges in accordance with statutes and case law concerning student discipline proceedings. All witnesses who testify at the hearing shall be sworn. The student may be represented by counsel and may present witnesses in his or her behalf as well as cross-examine witnesses who testify in support of the charges.
- g. At the conclusion of the evidence, the Board of Education shall deliberate and may, if the hearing is in closed session, do so in private. Following such deliberations, the Board of Education shall, through an appropriate resolution adopted by a majority vote of its members, either dismiss the charges or order the suspension or expulsion of the student based upon a finding that the charges have been established through the evidence presented at the hearing.
- h. If the Board of Education decides to expel the student, a copy of the Board resolution shall be sent to the student and his/her parents(s) or guardian(s).
- i. If there is reasonable cause to believe that a student who has been charged with misconduct is handicapped (also see policy on discipline of students with disabilities below), and the student has not previously been evaluated by a school district or agency authorized by law to do so, an evaluation shall occur prior to the implementation of any long-term discipline action, which would otherwise be imposed. In the event that it is determined that the student is handicapped, and in the case of a student who has previously been determined to be handicapped, an IEPC shall be convened to determine whether the events which are the subject of the charges were proximately related to the handicapped condition. In the event it is determined that either the student is not handicapped or, if handicapped, the events which are the subject of the charges were not proximately related to the student's handicap, the foregoing procedures shall resume from the point at which they were suspended. In the contrary event, the charges shall be dismissed and an appropriate special education placement shall be determined.

3. Conditions of readmission

- a. A student who is expelled shall not be readmitted to the school district except by action of the Board of Education. Following expulsion, the Board may, but it is not required to, authorize administration to render services to the expelled student such as admission to a community education program within the district for continuation of academic classes or assistance in obtaining placement in alternative programs in or out of the district. After an expelled student's absence from school for the remainder of the marking period during which the incident leading to the expulsion occurred and the one regular school marking period (generally half the

school year) following, the student or, on behalf of the student, the student's parent(s) or guardian(s) may seek readmission by applying to the Board of Education through the Superintendent or his/her designee. The Board of Education may, in its discretion and subject to paragraph (3b), below, choose to readmit the student if he or she can satisfactorily demonstrate that he or she made a sincere effort at rehabilitation subsequent to the expulsion and will not represent a threat to the safety and welfare of the students of the Academy. The Board of Education shall base its decision in part on the severity of the incident leading to expulsion. The Board of Education may further qualify readmission upon specified conditions, which it determines are appropriate. Such applications shall be filed no earlier than forty-five (45) days prior to the commencement of the marking period for which readmission is sought. The decision of the Board of Education on a question of readmission is final.

- b. A student who is found to have committed criminal sexual conduct or arson or to have been in possession of a dangerous weapon in a weapon-free school zone, as those terms are defined in Sections 1311 and 1313 of the School Code of 1976, as amended (MCL 380.1311, 1313; MSA 14.41311, 41313) shall not be admitted to school in the district except in accordance with Section 1311(5) of the School Code of 1976, as amended (MCL 380.1311(5); MSA 15.41311(5)).

4. Hearing

Appeal of suspensions exceeding ten (10) days are to be directed to the Superintendent or her/his designee within three (3) school days of the date the discipline action was taken. This appeal must be made in writing stating the adjustments being requested and reasons thereof.

AUTHORITY TO EXPEL

Only the Superintendent and the Board of Directors at the Academy may expel a student. The Superintendent and the Board of Directors may expel any student found to have committed an expellable offense(s) listed above in the "Grounds for Suspension and Expulsion". Except for expulsion for offenses listed under Schools Policy Code, a student may only be expelled if the Superintendent finds that the student committed the expellable offense and that at least one of the following findings are substantiated:

1. That other means of correction are not feasible or have failed to bring about proper conduct.
2. That due to the nature of the violation, the presence of the student causes a continuing danger to the physical safety of the student or others.

EXPULSION RIGHTS

A student recommended for expulsion is entitled to a hearing to determine whether the student should be expelled. The student will be suspended during the expulsion process. The hearing shall be held in a timely manner, not to exceed thirty (30) days after the Superintendent or designee determines that one of the acts listed under "Grounds for Suspension and Expulsion" has occurred. The hearing will be presided over by the Superintendent. Written notice of the hearing shall be forwarded to the student and the student's parent/guardian at least ten (10) days before the date of the hearing. The notice shall include:

1. The date and place of the hearing.
2. A statement of the specific facts, charges and offenses upon which the proposed expulsion is based.
3. A copy of the Academy's student discipline guidelines and/or grounds for suspension and expulsion, which relate to the alleged violation.
4. Notification of the student or parent/guardian's obligation to provide information about the student's status in the Academy to any other district in which the student seeks enrollment.
5. The opportunity for the student or the student's parent/guardian to appear in person or to employ and be represented by counsel.
6. The right to inspect and obtain copies of all documents to be used at the hearing.
7. The opportunity to confront and question all witnesses who testify at the hearing.
8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student's behalf including witnesses.

Record of Hearing: A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.

Presentation of Evidence: While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. The decision to expel must be supported by substantial evidence that the student committed any of the acts listed in “Grounds for Suspension and Expulsion” above.

Findings of fact shall be based solely on the evidence at the hearing. While no evidence shall be based solely on hearsay, sworn declarations may be admitted as testimony from witnesses whose disclosure of their identity or testimony at the hearing may subject them to unreasonable risk of physical or psychological harm.

Written Notice to Expel: The Superintendent or designee shall send a written notice of the decision to expel to the student or parent/guardian. This notice shall include the following:

1. The specific offense committed by the student for any of the acts listed in “Grounds for Suspension and Expulsion” above.
2. Notice of the right to appeal the expulsion to the Board of the Academy.
3. Notice of the student or parent/guardian’s obligation to inform any new district in which the student seeks to enroll of the student’s status with the Academy.

DISCIPLINE OF STUDENTS WITH DISABILITIES

The standards of conduct contained within this policy apply to all students including those students enrolled in special education, Section 504, those suspected of a disability or the district has knowledge that the student is suspected of having a disability. However, due to the unique needs of these students, appropriate disciplinary action will vary in accordance with local, state and federal laws.

“Student with a disability” (IDEA) defined

“Student with a Disability” means an individual enrolled in school who is under 26 years of age and who is determined by an Individualized Education Planning Committee (IEPC) or a hearing officer to have a characteristic or set of characteristics that necessitates special education or ancillary and other related services, or both. Determination of impairment shall not be based solely on behaviors relating to environmental, cultural, or economic differences. These individuals are commonly referred to by local, state, federal and education agencies as students who are included in the Individuals with Disabilities Act or IDEA Students.

ACCOMMODATING PERSONS WITH DISABILITIES

Persons with disabilities will be provided an opportunity to participate in all school-sponsored services, programs, or activities. Persons with disabilities having questions about accessibility or needing accommodations should contact the Superintendent or building Principal. Notification of the need for accommodation should occur as far in advance as possible of the school-sponsored function, program, or meeting.

“Section 504 Student” defined

“Section 504 student” means any student with a physical or mental impairment, which substantially limits one or more major life activities, has a record of such impairment, or is regarded as having such impairment. Major life activities means functions such as caring for one’s self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, or working. The student has a 504 Evaluation, Summary and Educational Plan (504 EP) developed by a 504 committee.

All IDEA students are under Section 504. However, not all Section 504 students are IDEA. Implementation of Section 504 is the responsibility of regular education.

Students Suspected of a Disability or the District has the knowledge that a student is suspected of being disabled.

Students suspected of a disability are those:

- Who have requested a disability evaluation;
- Whose parent(s) have requested a disability evaluation;
- Whose parent(s) have expressed concern in writing to school personnel that their child is in need of special education and related services;
- Whose behavior or performance demonstrates the need for special education services; or

- Whose teacher, or other personnel, has expressed concern about the student's behavior or performance to the school Principal.

Short-Term Suspension/Long-Term Suspension/Expulsion/Expulsion of Students Suspected of Being IDEA or 504 Eligible

When considering the short-term/long-term suspension, administrative transfer or expulsion of a general education student, if there is reasonable cause to believe that the student is eligible under IDEA or Section 504 or is suspected of being disabled, the student must "Stay Put" in the current educational placement and is immediately referred for evaluation. If the evaluation determines that the student has a disability, then all disciplinary action must cease and the student must be referred for appropriate action. If there is not a disability, the student should be referred for appropriate disciplinary action.

IDEA or Section 504 Students Short Term Suspension/Long Term Suspension/Administrative Transfer/Expulsion of IDEA or 504 Eligible Students

Whenever an administrator is considering disciplinary action involving removal of a special education or 504 eligible student, the student's records shall be reviewed to determine the total number of days during the current school year that the student has missed due to disciplinary action. Once the number of days that a student has been out of school due to disciplinary action has been determined, the following procedures must be followed.

Under federal laws, an IDEA/504 student facing disciplinary removal from school, who has already been removed from school for a total of ten school days during the current school year due to disciplinary action, must "Stay Put" in the current placement pending an IEPC/504 EP hearing unless parents agree to waive the student's right to "Stay Put" in the current placement or agrees to an alternative placement. Similarly, whenever the parents appeal the determinations of an Individualized Education Planning Committee (IEPC)/504 EP reviewing the behavior of an IDEA/504 eligible student being considered for disciplinary action, the student has the right to "Stay Put" in the current placement unless the parents agree to waive the student's right to remain in the current placement or agrees to an alternative placement.

In cases where the appropriate administrator believes that to permit the student to "Stay Put" in a current or alternative placement pending a hearing, an IEPC/504 EP review or an appeal is likely to create an imminent danger or injury to the student or others, there are four options to effect the students removal: 1) obtain a court order by contracting the Office of Legal Affairs; 2) obtain a final IEP/Section 504 determination that the behavior was not a manifestation of the disability and proceed with normal discipline; 3) conduct an expedited hearing with a hearing officer appointed by the Michigan Department of Education and obtain a decision, based on substantial evidence that maintaining the current placement is substantially likely to result in injury to the student or others, to place the student in an alternative educational setting for not more than 45 days; and, 4) by agreement with the parents.

A handicapped student may be subject to short-term/long-term suspension; Administrative Transfer or Expulsion due to disciplinary actions exceeding a total of ten (10) school days within a school year only after an IEPC/504 EP determines that:

- The behavior is not an manifestation of the student's handicap,
- The eligibility placement is appropriate, and
- The student is receiving the services designated by the IEPC/504 EP.

If the IEPC/504 EP determines that the behavior is a manifestation of the handicap or the student's eligibility has not been appropriately determined or the IEPC/504 EP does not currently reflect the special education/504 plan's programs and services to meet the student's unique educational needs, then the District may not consider disciplining the student.

Note the following specific guidelines regarding students with disabilities:

- Evaluation for suspected, "has knowledge", IDEA or Section 504 eligible students takes precedence over other evaluations.
- If the matter involves the use/possession of drugs or alcohol by a Section 504 student, then the discipline may proceed without convening a 504 Educational planning meeting.

- Pursuant to IDEA’S proposed implementation regulations, suspensions beyond the accumulation of 10 days, must either be held in abeyance pending the results of the evaluation or be administered in a manner that continues to provide the student with a free and appropriate education during the suspension.
- Federal laws afford school districts the right to request an expedited due process hearing to have an interim alternative placement ordered for up to 45 calendar days when it is believed that maintaining the student’s current placement is substantially likely to result in injury to himself or others. The mandate also affords school personnel the right to order, at their own discretion, an interim alternative placement for up to 45 calendar days when the situation involves a weapon or drugs. Both types of placements can be requested/ordered even if the problem behavior was determined to be a manifestation of the student’s disability or in the case of evaluating a student where the school suspects or has knowledge of a disability.

RECORDS

- When students are denied the opportunity to attend their assigned school because of a short-term suspension, long-term suspension or administrative transfer, the Dean of Student Affairs ("DSA") or designee will complete a suspension report. The same process will be followed when corrective action requires a contract with parents, even though the student may continue in regular attendance.
 - Each school will complete Disciplinary Action Worksheets, enter information into the computer indicating the number of in-school suspensions, short-term suspensions, administrative transfers, long-term suspensions, type of behavior leading thereto and the number of days of the suspension
- * As used in this document, the word “days” means school days.**

MISCELLANEOUS

- This document supersedes and replaces any and all documents or portions thereof, with which it may be in conflict.
- In the event that a portion of this document is determined to be contrary to law, the particular provision will be considered null and void, but the remainder shall continue in full force and effect.
- This document is designed to inform students of the Academy, and their parent(s) or guardian(s), about the student citizenship code, appeal procedure, and aspects of student behavior. Local school or classroom rules are published by the classroom teacher, Principal, or Superintendent and distributed as newsletters or memos and are to be read in conjunction with the Code of Student Conduct. To the extent, such school rules are inconsistent with this Code of Student Conduct; the Student Code of Conduct shall take precedence.
- A copy of this Code of Student Conduct shall be given to each family and to each student upon enrollment at the Academy. Social Media

HES & the Academy understand the importance of teachers, students and parents engaging, collaborating, learning, and sharing in digital environments. To this aim, HES and the Academy have developed the following guidelines for students and parents when participating in online social media activities. Whether or not a student or parent chooses to participate in a blog, email, wiki, online social network or any other form of online publishing or discussion it is his or her own decision, however, information produced by HES and the Academy students and parents is a reflection on the entire district and is subject to the district's Acceptable Use Policy. By accessing, creating or contributing to any blogs, email, wikis, podcasts or other social media for classroom or district use, you agree to abide by these guidelines. Please read them carefully before posting or commenting on any blog or creating any classroom blog, wiki and/or podcast.

Student Guidelines

Due to the wealth of new social media tools available to students, student products and documents have the potential to reach audiences far beyond the classroom. This translates into a greater level of responsibility and accountability for everyone. Below are guidelines students of the Academy must adhere to:

- a.** Be aware of what you post online and send by email. Social media venues are very public. What you contribute leaves a digital footprint for all to see. Do not post anything you would not want friends, parents, teachers, or a future employer to see.
- b.** Follow the school's code of conduct when writing online. It is acceptable to disagree with someone else's opinions, however, do it in a respectful way. Make sure that criticism is constructive and not hurtful. What is inappropriate in the classroom is inappropriate online.
- c.** Be safe online. Never give out personal information including but not limited to last names, phone numbers, addresses, exact birthdates, videos and pictures. Do not share your password with anyone besides your teachers and parents.
- d.** Students are not to interact with faculty/staff via email, chat, IM, Facebook, MySpace, Twitter or any other social networking program, site or other modality without the written consent of the parent(s) or legal guardian.
- e.** Do your own work! Do not use other people's intellectual property without their permission. Be aware that it is a violation of copyright law to copy and paste other's thoughts. It is good practice to hyperlink to your sources.
- f.** Be aware that pictures may also be protected under copy write laws. Verify you have permission to use the image or it is under Creative Commons attribution.
- g.** How you represent yourself online is an extension of yourself. Do not misrepresent yourself by using someone else's identity.
- h.** Blog, emails and wiki posts should be well written. Follow writing conventions including proper grammar, capitalization, and punctuation. If you edit someone else's work, be sure it is in the spirit of improving the writing.

Parent Guidelines

Classroom blogs and other social media are powerful tools that open up communication between students, parents, and teachers. This kind of communication and collaboration can have a huge impact on learning. HES and its Academies encourage parents to manage, view and participate in their child's online activities.

Parents are required to adhere to the following guidelines:

- Parents should expect communication from teachers prior to their child's involvement in any project using online social media applications, i.e., blogs, emails, wikis, podcast, etc.
- Parents may be asked to sign a release form for students when teachers set up social media activities for classroom use. Staff must have parent's written permission before child can communicate with staff using email, chat, IM, Facebook, MySpace, Twitter or any other social networking program, site or other modality of digital or electronic communication that is not provided for by the Academy.
- Parents will not attempt to destroy or harm any information online.
- Parents will not use classroom social media sites for any illegal activity, including violation of data privacy laws.
- Parents are highly encouraged to read and/or participate in social media projects.
- Parents may not distribute any information that might be deemed personal about other students participating in the social media project.
- Parents may not upload or include any information that does not also meet the student guidelines.

Online Classroom/Blogging Safety Policy for Students

- A student will only participate in classroom associated blogging/social media with written parental consent.
- A student will not post his/her full name or any other identifying information such as address, e- mail address, or telephone number.

ALLERGY MANAGEMENT POLICY

The Academy is committed to providing a safe and nurturing environment for students. The Academy understands the increasing prevalence of life threatening allergies among school populations. Recognizing that the risk of accidental exposure to allergens can be reduced in the school setting, The Academy is committed to working in cooperation with parents, students, and physicians, to minimize risks and provide a safe educational environment for all students. The focus of allergy management shall be on prevention, education, awareness, communication and emergency response.

The goals for allergy management include:

1. To define a formal process for identifying, managing, and ensuring continuity of care for students with life-threatening allergies across all transitions (PreK-7).
2. To maintain the health and protect the safety of children who have life-threatening allergies in ways that are developmentally appropriate, promote self-advocacy and competence in self-care and provide appropriate educational opportunities.
3. To ensure that interventions and individual health care plans for students with life threatening allergies are based on medically accurate information and evidence-based practices.

In accordance with applicable law, it is the policy of the district to provide all students, through necessary accommodations where required, the opportunity to participate in all school programs and activities. Accordingly, the superintendent shall direct building administrators and staff, to act affirmatively and work closely with parents to assure that the needs of children with documented allergies are taken into consideration in planning for programs. The management plan is reviewed and updated annually by school administration.

LIFE-THREATENING ALLERGY GUIDELINES

BACKGROUND

Allergic food reactions can span a wide range of severity of symptoms. The most severe and potentially life threatening reaction is anaphylaxis. This protocol is to be used for students who are at risk for anaphylaxis and in circumstances where a previously undiagnosed life-threatening allergies response occurs. When a physician assesses that a child's food allergy will result in anaphylaxis, the child's condition meets the definition of "disability" and is covered under the Federal Americans with Disability Act (ADA), Section 504 of the Rehabilitation Act of 1973, if the allergy management affects the student's ability to make educational progress.

Anaphylaxis refers to a collection of symptoms affecting multiple systems in the body, the most dangerous of which are breathing difficulties and a drop in blood pressure. Foods that most commonly cause anaphylaxis, a life threatening allergic reaction, are peanuts, tree nuts, shellfish, milk, wheat, soy, fish, and eggs. These severe allergic reactions can occur within minutes of ingestion or a reaction can be delayed for up to two hours. Some reactions are "biphasic" in nature with an initial period of symptoms, a symptom free period of 2-3 hours followed by severe shock-like symptoms. At present, there is no cure for food allergies and strict avoidance is the key to preventing reactions. Exposure may occur by eating the food or food contact.

MEDICATIONS

The most commonly prescribed medications for the treatment of anaphylaxis are:

Epinephrine – Brand names include, but are not limited to EpiPen®, EpiPen Jr®, and Twinject® auto injectors. Parents usually bring epinephrine to school in the form of an EpiPen® (0.3 mg), EpiPen Jr® (0.15 mg) or Twinject® (0.3 mg or 0.15 mg) auto injectors.

Note: The EpiPen® is a single dose auto-injector, while the Twinject® contains two doses of epinephrine – the first dose in an auto-injector and the second dose in the form of a traditional injection.

CARE PLAN CONSIDERATIONS/OPTIONS

Emergency Health Plan and Medical/Contact Information

KEY POINTS FOR PARENTS, STUDENTS AND STAFF

- **You are never alone.** It takes a team to ensure the best for our students. Help is usually a phone call away.
- **Educate, Educate, Educate.** This is an ongoing process that changes with the students' needs and as the staff changes. Food bans do not work because it creates a false sense of security. Today, processed foods contain trace amounts of food items that are not always identified on the food label. The best plan is to educate our school community about the issues that face students with life threatening allergies.
- **Special events/Non-routine days.** The greatest risk for a life threatening allergic reaction exists when the normal routine is broken. Examples are classroom parties, field trips, a substitute teacher, and after school events.
- **Be Prepared.** Always have the Emergency Health Plan available and think ahead to prevent possible exposures to a food allergen.
- **Symptoms vary greatly. Call 911** when uncontrolled anaphylactic symptoms occur or if ingestion is strongly suspected. Use emergency medication (i.e. Epinephrine) if needed and follow the Emergency Health Plan
- **Be safe, not sorry!** Take all complaints from children with food allergies very, very seriously. It is important to respect the needs and rights of each student.
- A child with a life threatening food allergy should **NEVER eat unexamined food.**
- In the event a student has an allergic reaction at school, **call 911 and administer emergency medication** (i.e. antihistamine and Epinephrine) as ordered by the student's physician. Key staff members should be trained to use emergency medications and know the location of those medications at school and on any special function.

If epinephrine (Epinephrine) is used, the student should be taken to the hospital for evaluation even if the allergic reaction symptoms subside. The school principal, nurse and parent/guardian should be notified as soon as feasible. 911 should be called for all suspected food allergy reactions. No one can predict how a reaction will progress. A mild reaction can blossom into a full-blown anaphylactic reaction very quickly or over several hours. A reaction can also appear to subside or even appear to be under control and can blossom again into a more severe reaction.

- **Cross contamination.** It only takes a trace amount of the food protein to cause an allergic reaction. To prevent exposure to an allergen, **hand washing** and **washing of surfaces** (tables, chairs, mixing bowls, etc.) where an allergen has been used is necessary. Soap and warm water are most effective for cleaning surfaces.

Be prepared! Know your plan!

THE MCKINNEY VENTO HOMELESS ASSISTANCE ACT

The Act mandates all state educational agencies to develop and distribute a process for a quick resolution of disputes concerning the placement of homeless students. The purpose of the Act is to ensure that students who are homeless may continue their education with as little disruption as possible. Homeless children and youths should have access to the education and other services that children and youths with a home have and to ensure that such children and youths have an opportunity to meet the same challenging State student academic achievement standards to which all students are held. Noor International Academy has assigned a staff member as the Homeless Liaison at the school in order to assist students with this need and is committed to assist these children in meeting the State Standards.

Noor International Academy does not discriminate on the basis of race, color, and national origin (Title VI of the Civil Rights Act of 1964), sex (Title IX of the Education Amendments of 1972), disability (Section 504 of the Rehabilitation Act of 1973), or age (Age Discrimination Act of 1975) in its programs or activities.
